**HB 1321-LOCAL**, imposing controls on the budget, including limiting budget increases, and relative to procedures to be followed when there is a revenue shortfall or a budget surplus. **REFER FOR INTERIM STUDY.**

Rep. Charles W. Ferguson for Appropriations: The committee felt that this bill had merit, but felt it should be studied in the interim when the committee had more time to more closely examine the details of the bill. Vote 19-0.

Rep. Jacobson spoke in favor.

Referred for Interim Study.

**HB 1265-FN**, regulating small motor mineral dredging and panning, was removed at the request of Rep. Dickinson.

**HB 1386-FN-A**, establishing a foundation aid formula study committee, authorizing the committee to hire a consultant to study different methods of financing education and making an appropriation therefor, was removed at the request of Rep. Hager.

Consent Calendar adopted.

**HB 214-FN-A**, creating a new class of highways for access to public waters and making an appropriation therefor. (A) **INEXPEDIENT TO LEGISLATE**.

Rep. Raymond C. Buckley for Appropriations: The action called for in this bill has been included in HB 601-FN-A, making this bill unnecessary. Vote 18-0.

**HB 1134-FN**, establishing a special fund from the sale of timber harvested on fish and game department property for wildlife management purposes. **INEXPEDIENT TO LEGISLATE**.

Rep. Laurent J. Boucher for Appropriations: This bill creates a dedicated fund within a dedicated fund; and is not needed because timber harvest money is protected in the operating budget under the wildlife management PAU. Vote 18-0.

**HB 1153-FN-A**, authorizing the division of human services to assess an administrative fine on employers for failing to comply with an assignment order and continually appropriating such fines to the division.(A) OUGHT TO PASS WITH AMENDMENT.

Rep. Neal M. Kurk for Appropriations: The bill provides for an administrative fine on employers who willfully fail to comply with wage assignment obligations. The amendment makes clear that the fine is \$100 per employee per pay period, corrects the effective date and eliminates an additional payment to a designated fund. A small but indeterminable amount of revenue is involved. Vote 16-0.

5242L

#### Amendment

Amend the title of the bill by replacing it with the following:

#### AN ACT

authorizing the division of human services to assess an administrative fine on employers for failing to comply with an assignment order.

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Failure to Comply with Wage Assignment Order Penalty Added. Amend RSA 458-B:6 by inserting after paragraph X the following new paragraph:

XI. That the employer shall be liable for an administrative fine of \$100 per pay period for each employee who has wage assignment obligations with that employer payable directly to the division with respect to whom the employer has willfully failed to comply with the provisions of paragraphs II and IV. Prior to assessing such fine against the employer, the division shall notify the employer of its intent to assess the fine, the amount of the fine, the date by which the fine is payable, and shall provide the employer with the opportunity to contest the imposition of the fine. The only basis for contesting the imposition of such fine is a mistake of fact or that the employer did not knowingly fail to comply with the provisions of paragraphs II and IV.

2 Effective Date. This act shall take effect July 1, 1992.

**HB 1155-LOCAL**, relative to school attendance laws and homeless children.(A) REFER FOR INTERIM STUDY.

Rep. Douglas E. Hall for Appropriations: This bill raises questions regarding new mandates for costs to be incurred by school districts. We drafted an amendment to address part of that problem, but attempts to solve the remainder involved complex policy issues. We feel the policy committee should address the mandate question during interim study. Vote 17-0.

**HB 1186-FN**, authorizing the department of fish and game to purchase certain dams in the town of Canterbury. OUGHT TO PASS WITH AMENDMENT.

Rep. Gerald P. Merrill for Appropriations: There were two dams in this bill. The committee amended the bill to approve the purchase of the Morrill Dam only. This dam will be purchased with Federal and Fish and Game funds — 75 percent Federal, 25 percent Fish and Game. Vote 17-0.

4820L

#### Amendment

Amend the title of the bill by replacing it with the following:

## AN ACT

Amend the bill by replacing section 1 of the bill with the following:

1 New Paragraph; Authorization to Purchase Morrill Dam. Amend RSA 482:48 by inserting after paragraph IV the following new paragraph:

V. Notwithstanding any of the above provisions, the fish and game department is authorized to accept approximately 77 acres abutting Morrill Pond and Morrill Pond dam, No. 38.21 in its current state of disrepair, for the purpose and intent of future dam construction for wildlife management.

## AMENDED ANALYSIS

This bill authorizes the department of fish and game to purchase Morrill Pond dam and abutting property in the town of Canterbury.

**HB 1376-FN-L**, requiring the department of environmental services to pay 20 percent of the annual amortization charges on the original costs resulting from the acquisition and construction of a sewage disposal facility by the North Conway water precinct. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Merle W. Schotanus for Appropriations: The bill, as amended, clarifies legislative intent relative to state contributions to town construction of sewage disposal facilities; and authorizes reimbursement to the town of Conway for 20% of eligible costs incurred to date from funds not otherwise appropriated. Vote 20-0.

5240L

## Amendment

Amend the title of the bill by replacing it with the following:

## AN ACT

requiring the department of environmental services to assume 20 percent of eligible costs of the Conway sewer system project and making an appropriation for costs payments.

Amend the bill by replacing all after the enacting clause with the following:

1 Alternate State Contribution; Conway Sewer System Project Costs; Department of Environmental Services. Amend RSA 486:3 to read as follows:

486:3 Alternate State Contribution. Any of the municipalities of Derry, Salem, Wolfeboro, Hampton, Sunapee, Rochester, Laconia or any other municipality [in receipt of an order issued by the division according to its priority criteria to undertake] **which undertakes** the construction of sewage disposal facilities in accordance with the provisions of RSA 485 or 485-A without the benefit of a federal grant is entitled to an alternate state contribution. This alternate contribution shall consist of the payment of 20 percent of the annual amortization charges, meaning principal and interest, on the original costs resulting from the acquisition and construction of the sewage disposal facilities. The word "construction" shall include engineering services, in addition to the construction of new sewage treatment plants, pumping stations, and intercepting sewers; and the altering, improving or adding to existing treatment plants, pumping stations and existing intercepting sewers, provided that the construction has been directed by the division or is an undertaking designed to control or reduce pollution in the ground or surface waters of the state, as defined in RSA 485-A:2, and provided that the plan for the facilities is approved in accordance with

RSA 485:8. The term "original costs" as used in this section shall mean the entire cost of the construction as defined above, excluding land acquisition, easements, and rights of way necessary to the project.

2 Costs; Conway Sewer System Project.

I. The department of environmental services shall determine the eligible costs of the Conway sewer system project paid through the effective date of this act and shall assume 20 percent of such costs and the interest costs related to that 20 percent on bonds issued on such project.

II. The governor is authorized to draw his warrant for the annual amortization payments of principal and interest made for the eligible costs in paragraph I out of any money in the treasury not otherwise appropriated through the biennium ending June 30, 1993, and such sum is hereby appropriated.

3 Effective Date. This act shall take effect upon its passage.

### AMENDED ANALYSIS

This bill requires the department of environmental services to determine the eligible costs of the Conway sewer system project and assume 20 percent of such costs and the interest costs related to that 20 percent on the project bonds.

**HB 1393-FN**, establishing that fines for summonses for motor vehicle violations for which a plea may be made by mail be paid to the division of motor vehicles.(A) REFER FOR INTERIM STUDY.

Rep. Channing T. Brown for Appropriations: This bill would have fines from motor vehicle violations be made payable by mail to the division of motor vehicles rather than to district courts. Because of questions of changes needed in policy sections brought by the division of motor vehicles and possible start-up and operating costs of approximately \$100,000, the Appropriations Committee feels further study is indicated. Vote 16-0.

**HB 1402-FN**, exempting from competitive bidding purchases of services from non-profit organizations by certain state agencies for severely disabled or emotionally disturbed children.(A) OUGHT TO PASS WITH AMENDMENT.

Rep. Pamela B. Bean for Appropriations: This bill exempts the purchases of services from non-profit organizations by certain state agencies for severely disabled or severely emotionally disturbed children from the competitive bidding process. The amendment changes the effective date and straightens out some language to meet the sponsor's intentions. Vote 17-0.

5161L

### Amendment

Amend the title of the bill by replacing it with the following:

#### AN ACT

relative to competitive bidding purchases of services from nonprofit organizations by certain state agencies for severely disabled or emotionally disturbed children.

Amend section 1 of the bill by replacing it with the following:

1 New Paragraph; Purchases Exempted From Competitive Bidding. Amend RSA 186-C:22 by inserting after paragraph V the following new paragraph:

VI. The purchases of services from nonprofit organizations by the department of education, special education bureau and the department of health and human services, division of mental health and developmental services for severely disabled or

severely emotionally disturbed children shall be subject to competitive bidding requirements. Contracts for purchases made under this section shall be for terms of not more than 2 years, but may be extended for up to 2 additional years without competitive bidding, at the discretion of the bureau or the division, or at the discretion of both.

Amend the bill by replacing section 3 with the following:

3 Effective Date. This act shall take effect July 1, 1993.

#### AMENDED ANALYSIS

This bill subjects the purchases of services from nonprofit organizations by certain state agencies for severely disabled or severely emotionally disturbed children to the competitive bidding process. Contracts for the purchase of such services shall be limited to terms of not more than 2 years without competitive bidding, but may be extended at the discretion of the special education bureau or of the division of mental health and developmental services.

**HB 1463-FN**, to charge a 10 percent buyer's premium on state-auctioned goods, with the resulting income to be used by the division of historical resources. REFER FOR INTERIM STUDY.

Rep. Stacey W. Cole for Appropriations: This bill would have required 10 percent to be added to the bid price for goods sold at auction under the state's surplus property program. Although testimony at the hearing favored the bill, information furnished by the Supervisor of Materials Management and Surplus Property raised serious questions with respect to projected income from such sales. Vote 19-0.

**HB 1468-FN-L**, relative to special education catastrophic aid.(A) OUGHT TO PASS WITH AMENDMENT.

Rep. Neal M. Kurk for Appropriations: This bill as amended by Appropriations fine tunes the bill as it passed the House. It reduces school districts' liability for special education students by, among other things, making the state responsible for all costs in excess of 10 times the estimated average expenditure per pupil (about \$48,000 for 1992). The bill also reduces fluctuations in tax rates, especially for small school districts, by allowing districts to offset the cost of special education by the expected state reimbursement, regardless of the year in which it is expected to be received. Districts are authorized to borrow in anticipation of such reimbursement. The estimated additional cost is approximately \$245,000 which can be covered by the current appropriation for catastrophic aid. Vote 20-0.

5200L

#### Amendment

Amend the bill by replacing all after the enacting clause with the following:

1 Estimated Expenditures; Calculation of Catastrophic Aid Payments. Amend RSA 186-C:18, III to read as follows:

III.(a) [The state shall appropriate not less than \$1,000,000 for each fiscal year to assist school districts in meeting catastrophic cost increases in their special education programs.] The state board of education through the commissioner, department of education, shall distribute aid available under this paragraph as entitlement to such school districts as have a special education pupil for whose costs they are responsible, for whom the costs of special education in the fiscal year exceed 3-1/2 times the **estimated** state average expenditure per pupil for the school year preceding the year of distribution. If in any year, the amount appropriated for distribution as catastrophic

special education aid in accordance with this section is insufficient therefor, the appropriation shall be prorated proportionally based on entitlement among the districts entitled to a grant[; provided that the amount of catastrophic special education aid per pupil for a district requiring such aid shall not be more than 80 percent of catastrophic costs exceeding 3-1/2 times the state expenditure per pupil for the school year preceding the year of distribution for that district]. If there are unexpended funds appropriated under this paragraph at the end of any fiscal year, such funds shall be distributed according to the equalizing formula established in paragraph II. The state may designate up to \$250,000 of the funds which are appropriated as required by this paragraph, for each fiscal year, to assist those school districts which, under guidelines established by rules of the state board of education, may qualify for emergency assistance for special education costs. Upon application to the commissioner of education, and approval by the commissioner, such funds may be accepted and expended by school districts in accordance with this chapter; provided, however, that if a school district has received emergency assistance funds for certain educationally disabled children, it shall not receive catastrophic special education aid for those same educationally disabled children. If any of the funds designated for emergency assistance under this paragraph are not used for such emergency assistance purposes, the funds shall be used to assist school districts in meeting catastrophic cost increases in their special education programs as provided by this paragraph.

**(b) The school district shall be liable for 3-1/2 times the estimated state average expenditure per pupil, plus 20 percent of the additional cost, up to 10 times the estimated state average expenditure per pupil.**

**(c) The department of education shall be liable for 80 percent of the cost above the 3-1/2 times the estimated state average expenditure per pupil, up to 10 times the estimated state average expenditure per pupil. The department of education shall be liable for all costs in excess of 10 times the estimated state average expenditure per pupil.**

2 Liability for Costs Changed. Amend RSA 186-C:7, IV to read as follows:

IV. The department of education, bureau of special education services, shall review any individualized education plan which includes a residential placement and for which the total cost of the placement exceeds [\$20,000] **10 times the estimated state expenditure per pupil**. After review, the bureau of special education services may recommend an alternative appropriate placement to the local education agency, the superintendent, the individualized education plan placement team, and the parent.

3 New Paragraph; Costs of Catastrophic Special Education Aid. Amend RSA 186-C:18 by inserting after paragraph VII the following new paragraph:

VIII. A school district shall raise and appropriate funds reflecting the total cost in meeting catastrophic special education student costs as provided under RSA 186-C:18, including the school district and department of education liability. A school district may issue reimbursement anticipation notes as provided for in RSA 198:20-d to be redeemed upon receipt of reimbursement from the state. A school district shall be liable for the cost of borrowing such funds.

4 New Section; Anticipation Notes. Amend RSA 198:20 by inserting after section 198:20-c the following new section:

198:20-d Reimbursement Anticipation Notes. Notwithstanding any other provision of law to the contrary, a school district may incur debt in anticipation of reimbursement under RSA 186-C:18.

5 Effective Date. This act shall take effect July 1, 1992.

## AMENDED ANALYSIS

This bill allows payments to school districts using estimated expenditures of the school districts.

The school district will be liable for 3-1/2 times the estimated state average expenditure per pupil plus 20 percent of the additional cost up to 10 times the estimated state average expenditure per pupil. The department of education will be liable for 80 percent of the cost above 3-1/2 times the estimated expenditure per pupil up to 10 times the estimated state average expenditure per pupil. The department will be responsible for all costs in excess of 10 times the estimated state average expenditure per pupil.

The current law provides payments to school districts by calculating the state average expenditure per pupil for the school year preceding the year of distribution.

The bill deletes the state minimum appropriation to districts for special education catastrophic cost increases.

This bill requires any individual education plan which includes a residential placement, and for which total education costs exceed 10 times the estimated state average expenditure per pupil, to be approved by the special education bureau of the department of education.

This bill also requires a school district to raise and appropriate funds reflecting the total cost of meeting catastrophic special education student costs and to issue reimbursement anticipation notes in anticipation of reimbursement from the state.

**HCR 27**, encouraging the governor to reduce the expenditure of funds for state employee health insurance premiums. **INEXPEDIENT TO LEGISLATE.**

Rep. Elizabeth Hager for Appropriations: This subject is being discussed in both a House bill and a Senate bill so this resolution is not needed. It also raises legal questions because of the recent PELRB ruling. Vote 20-0.

**HB 1294**, relative to a small employer health access model act. **REFER FOR INTERIM STUDY.**

Rep. Robert S. Mercer for Commerce, Small Business and Consumer Affairs: This is a very complex bill affecting the availability and affordability of health insurance for small business. The National Association of Insurance Commissioners have not finalized its recommendations with regard to several provisions in this legislation, particularly the reinsurance provisions. There is still a pressing need for this type of coverage, and the committee would like to study this legislation further. Vote 18-0.

**HB 1319**, requiring proof of financial responsibility from persons who have had motor vehicle license revocations. **REFER FOR INTERIM STUDY**

Rep. Bonnie B. Packard for Commerce, Small Business and Consumer Affairs: The committee supports the sponsor's intent in this legislation. However, proof of financial responsibility based on demerit points is arbitrary. The subcommittee was given a list of violations and demerit points assigned for each, and our comfort level was low when considering that these can be changed by rule of the director. For that reason an active subcommittee will attempt to satisfy the sponsors' concerns. Vote 17-0.

**HB 1352**, relative to the right of a mortgagor to sell or transfer property subject to a loan agreement or note and mortgage. **INEXPEDIENT TO LEGISLATE.**

Rep. James B. Hogan for Commerce, Small Business and Consumer Affairs: Nationwide nearly 60 percent of the residential mortgages are purchased by Fannie Mae or Freddy Mac. The New Hampshire percentage may be higher than the national

figure. Fannie Mae and Freddy Mac forms are used in many more mortgages. This bill would require a "New Hampshire" addendum to the mortgages and would make the sale of New Hampshire mortgages more difficult. This is not the time to make it even more difficult to originate a home mortgage. Vote 16-0.

**HB 1380**, establishing a committee to study the effects of itinerant vendors on the retail community in New Hampshire. INEXPEDIENT TO LEGISLATE.

Rep. Bonnie B. Packard for Commerce, Small Business and Consumer Affairs: The committee believes that the solution to this problem is adequately addressed in current statute. Vote 18-0.

**HB 1409**, allowing a unit owner to pay a percentage of a lien for unpaid assessments and to obtain a release of the lien on the unit. INEXPEDIENT TO LEGISLATE.

Rep. John B. Hunt for Commerce, Small Business and Consumer Affairs: This bill allows a unit owner to pay a percentage of a lien for unpaid assessments and to obtain a release of the lien on his unit. Since condominium owners do not now file bulk liens nor are they interested in having this, the committee felt no need for this legislation. Vote 18-0.

**HB 1416**, allowing prepaid purchasers of pre-arranged funeral service or burial plan contracts to cancel or transfer the contract. INEXPEDIENT TO LEGISLATE.

Rep. Bonnie B. Packard for Commerce, Small Business and Consumer Affairs: The committee found that current statute provides for cancellation of pre-arranged funeral services and the transfer of same from one establishment to another. For that reason the committee does not feel this bill is necessary. Vote 15-1.

**HB 1226-FN**, to protect the department of transportation against liability in the construction and maintenance of highways and highway bridges. OUGHT TO PASS WITH AMENDMENT.

Rep. Beaton Marsh for Public Works: The purpose of House Bill 1226 is to provide DOT with the greatest protection from liability on Class I and Class II highway and bridges, consistent with the constitution. The Attorney General has given his approval of the bill as has the Judiciary Committee after recommending an amendment which has been added as per 230:8 I(d). Last year SB 151, which became Chapter 385 of the Laws of 1991, was a similar bill that gave the municipalities the same protection. Basically, House Bill 1226 will hold the DOT harmless for "Acts of God" conditions such as sleet, washouts, etc. On the other hand the bill also establishes when DOT is liable for highways and bridges that are insufficient. Insufficient means, in this chapter, a highway or bridge that is unsafe or not passable. Vote 13-0.

5251L

#### Amendment

Amend RSA 230:79, II as inserted by section 2 of the bill by replacing it with the following:

II. If the department of transportation fails to act as set forth in paragraph I, it shall be liable in damages for all personal injury or property damage proximately caused by the insufficiency identified in the notice, subject to the liability limits under RSA 541-B:14.

Amend RSA 231:80, I as inserted by section 2 of the bill by inserting after subparagraph (c) the following new subparagraph:

(d) The department of transportation shall adopt rules, under RSA 541-A, relative to procedures for written and oral notice, and for the transfer of personal knowledge regarding insufficiencies to responsible supervisory persons, to insure that information relative to such insufficiencies in the highway system quickly communicated to those empowered to make decisions about repairs and posting.

Amend the bill by inserting after section 2 the following and renumbering the original section 3 to read as 4.

3 Rule Adoption Deadline. The department shall adopt rules as required under RSA 231:80, I(d) no later than December 1, 1992, and shall submit such rules to the general court for its review no later than January 1, 1993.

**HB 1473-FN**, establishing a New Hampshire scenic and cultural byways system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Roland A. Frechette for Public Works: This bill establishes the scenic and cultural byways system to provide the opportunity for residents and visitors to travel a system of byways which feature the scenic and cultural qualities of the state within the existing highway system. The scenic and cultural byways system shall be designated by the local communities after public hearings. It is not state-mandated. Establishing this system makes the state eligible for federal grants under the new federal highway bill. This bill implements the report of the New Hampshire Scenic Byways Advisory Committee established last year by House Bill 705 for this purpose. Vote 9-3.

5231L

#### **Amendment**

Amend the bill by replacing all after the enacting clause with the following:

1 New Subdivision; Scenic and Cultural Byways System. Amend RSA 238 by inserting after section 18 the following new subdivision:

#### **Scenic and Cultural Byways System**

238:19 Purpose.

I. The scenic and cultural byways system is established to provide the opportunity for residents and visitors to travel a system of byways which feature the scenic and cultural qualities of the state within the existing highway system, promote retention of rural and urban scenic byways, support the cultural, recreational and historic attributes along these byways and expose the unique elements of the state's beauty, culture and history.

II. It is the intent of the general court that the scenic and cultural assets of the byways will be respected, that the rights of individual property owners shall be preserved, and that nothing in this subdivision shall be interpreted to preempt any land and zoning authority granted to municipalities under title LXIV.

III. It shall be the local identification of scenic and cultural byways that shall build a state-wide system. However, nothing in this subdivision shall restrict a municipality from designating scenic byways within its jurisdiction, require that such designated scenic byways be nominated for inclusion in the New Hampshire scenic and cultural byways system, or require that the scenic and cultural byways council accept such locally designated scenic byway into the system.

238:20 Establishment of Scenic and Cultural Byways Council.

I. The scenic and cultural byways council shall consist of the following 10 members:

(a) Six members appointed by the governor and council including one person representing regional planning, one person representing municipalities, one person

representing tourist and recreation interests, one person representing forests and lands, one person representing the utilities, and one person representing the highway construction industry.

(b) The commissioner of the department of transportation, or designee.

(c) The commissioner of the department of resources and economic development, or designee.

(d) The director of the office of state planning, or designee.

(e) The director of the division of historic resources, or designee.

II. The terms of the members appointed by the governor shall be for 3 years, except that he shall appoint the initial members for terms of one, 2 and 3 years.

III. The council shall choose its chairman annually from among its members. The chair shall serve for no more than 2 consecutive one-year terms.

IV. Except as provided in this section, no state employee or member of any state commission, federal employee, or member of any federal commission shall be eligible for membership on the council.

238:21 Duties. The council shall:

I. Encourage towns and municipalities to designate scenic and cultural byways within their jurisdictions and to petition the council for the inclusion of these byways into the New Hampshire scenic and cultural byways system. Such inclusion shall enable the municipality to participate in federal funding that may be available under section 1047, Scenic Byways Program, of the Intermodal Surface Transportation Efficiency Act of 1991.

II. Develop the process for byways nomination and nomination criteria. Advise and consult with municipalities regarding the process of recommending municipal roads for inclusion in the scenic and cultural byways system.

III. Encourage and assist in fostering public awareness, understanding, and participation in the objectives and functions of the scenic and cultural byways system.

IV. Provide municipalities with tools and ideas for enhancement and protection of the scenic and cultural byways.

V. Review the byway system and report biennially to the governor and the general court upon the effectiveness of this subdivision and make recommendations. The reports shall indicate the status of all state and town designations and include a fiscal accounting of all moneys received and expended.

VI. De-designate a scenic and cultural byway at the request of the municipality or if its character changes in such a way that it no longer meets the criteria under which it was designated.

238:22 Designation.

I. The council shall designate and de-designate scenic and cultural byways of the New Hampshire scenic and cultural byways system based on criteria which include, but shall not be limited to, the following:

(a) Possesses significant visible natural or cultural features along its border such as agricultural lands, farms, significant architectural attributes, historic sites, town and city centers, museums, cottage industries, panoramic views, vistas of marshes, shorelines or forests, or notable geological or other natural features.

(b) Accessible to natural and cultural features such as cultural facilities, historic sites, town and city centers, trails, lakes, rivers, streams, mountains, the sea-coast, bike paths, agricultural land, parks, or protected lands that are open to the public, etc.

(c) Conforms to and does not detract from the landscape.

(d) Meets safety standards for the particular traffic encouraged.

(e) Is free from intensive commercial development and obstructive signage that would detract from the principal reason for its designation.

II. Designation of a state or local road or highway as a scenic and cultural byway under the provisions of this subdivision, and any general or special management criteria applicable thereto, shall not affect the operation, maintenance and expansion of existing public utility lines and facilities, or be construed to require any public utility to install any of its lines or facilities underground.

III. Under no circumstances shall a scenic and cultural byway be designated without a public hearing in the area.

IV. Nominations shall demonstrate local, private and public support, include a plan for improvements suitable for solving any traffic or other problems that may accrue to the designation as a scenic byway and propose a method to ensure the preservation and maintenance of the qualities of the scenic and cultural byway on which the nomination is based.

#### 238:23 Funds.

I. The director of the office of state planning, with the advice of the commissioner of the department of transportation and the commissioner of the department of resources and economic development, is authorized to apply for and accept gifts, grants, donations and contributions from any source, public or private, in the name of the state and to provide for technical and administrative support consistent with the resources provided to the program under this section. Any moneys accepted shall be continually and solely appropriated for the purpose of this subdivision.

II. Any funds obtained under former RSA 238:18 and not expended shall be transferred for use under this section.

2 Public Utility Emergency; Scenic Road. Amend RSA 231:158, II to read as follows:

II. Upon a road being designated as a scenic road as provided in RSA 231:157, any repair, maintenance, reconstruction, or paving work done with respect thereto by the state or municipality, or any action taken by any utility or other person acting to erect, install or maintain poles, conduits, cables, wires, pipes or other structures pursuant to RSA 231:159-189 shall not involve the cutting, damage or removal of trees, or the tearing down or destruction of stone walls, or portions thereof, except with the prior written consent of the planning board, or any other official municipal body designated by the meeting to implement the provisions of this subdivision, after a public hearing duly advertised as to time, date, place and purpose, 2 times in a newspaper of general circulation in the area, the last publication to occur at least 7 days prior to such hearing, provided however that a road agent[, ] or his designee[, or a public utility] may, without such hearing, but only with the written permission of the selectmen, remove trees or portions of trees which have been declared a public nuisance pursuant to RSA 231:145 and 231:146, when such trees or portions of such trees pose an imminent threat to safety or property, [or when such removal] and **provided, further, that a public utility when involved in the emergency restoration of service, may without such hearing or permission of the selectmen, perform such work as is necessary for the prompt restoration of utility service which has been interrupted by facility damage [due to storms or other outside forces,] and shall thereafter, when requested, promptly inform the selectmen of the nature of the emergency and the work performed, in such manner as the selectman may require.**

3 Repeal. RSA 238:13 - 18, relative to the New Hampshire scenic byways planning program, are hereby repealed.

4 Effective Date. This act shall take effect 60 days after its passage.

**HB 1244**, relative to the use of pressure treated wood in public water. INEXPEDIENT TO LEGISLATE.

Rep. Steven R. Maviglio for Resources, Recreation and Development: The Department of Environmental Services will send out a DES fact sheet advising against the use of pressure treated wood to anyone applying for a dock permit, thus making this bill unnecessary at this time. Vote 12-1.

**HB 1314**, extending the deadline date for the commissioner of environmental services to report on certain water laws. OUGHT TO PASS WITH AMENDMENT.

Rep. Howard C. Dickinson for Resources, Recreation and Development: House Bill 1314, as amended, accomplishes the following: (1) a legislative study committee is established to ascertain the validity of the water resources council as a public corporation and to determine its role and place in state government; (2) certain statutory changes are made to reflect the council's present role until the study is completed and legislation passed; (3) the nine-year old upper limit of \$20,000 for "minor dam repair" projects of the water resources division is increased to \$50,000, thereby more accurately reflecting present costs; (4) DES is granted authority to extend the time limit which requires municipalities to develop and implement plans for treatment techniques for public water systems supplied by surface waters. Previously municipalities were allowed only 18 months to comply with a filtration schedule prescribed by the Water Supply and Pollution Control Division. Vote 14-0.

#### Amendment

Amend the title of the bill by replacing it with the following:

#### AN ACT

establishing a committee to study the need for a public corporation to finance and operate environmental projects for the benefit of the state and making changes in certain water laws.

Amend the bill by replacing all after the enacting clause with the following:

1 Findings. The general court finds as follows:

I. The 1986 legislation which established the department of environmental services created statutory anomalies by retaining the public corporation status of the water resources council, while at the same time shifting the statutory powers of the public corporation to the division of water resources.

II. Since the department of environmental services was formed in 1987, there have been calls to rectify these statutory anomalies by the water resources council, the attorney general, the joint legislative committee to recodify the water laws of the state, and the legislative budget assistant.

III. There is a need to determine whether or not it is in the best interest of the state to retain a public corporation, similar to the former water resources board, which can finance and operate water or environmental projects by dedicating revenues to such purposes which shall be held and accounted for separately from other government revenues and expenditures.

2 Committee Established. A committee to study the advisability of retaining a public corporation to finance and operate water or environmental projects is established and shall include the following members:

I. Two members of the house resources, recreation and development committee, appointed by the speaker of the house.

II. Two members of the house executive departments and administration committee, appointed by the speaker of the house.

III. One member of the house economic development committee, appointed by the speaker of the house.

IV. One member of the house appropriations committee, appointed by the speaker of the house.

V. Two members of the senate environment committee, appointed by the president of the senate.

VI. One member of the senate executive departments committee, appointed by the president of the senate.

VII. One member of the senate finance committee, appointed by the president of the senate.

VIII. One member of the senate economic development committee, appointed by the president of the senate.

### 3 Committee Duties; Report.

I. The committee shall consider the report entitled "Legal Conflicts Concerning the N.H. Water Resources Council: A Report Required by Chapter 184, Laws of 1991", dated September 30, 1991, and the letter from the water resources council to the house resources, recreation and development committee dated January 21, 1992, as well as any other pertinent material, as working documents to assist in its study.

II. The committee shall submit a report, including proposed legislation necessary to implement its recommendations, to the governor, the speaker of the house and the senate president not later than November 30, 1992. The report shall include findings and recommendations concerning the following:

(a) The need for the continued existence of a public corporation with the authority to finance and operate water or environmental projects by exercising the following powers:

(1) Issuing revenue bonds, which will not be obligations of the state.

(2) Using earnings from such projects to fund maintenance and operation costs of the projects.

(3) Exercising the power of eminent domain as necessary.

(b) The organizational structure which is most appropriate for such a public corporation, including its placement within the executive branch.

(c) The appropriateness of the distribution of responsibility for state-owned dams reflected in RSA 482:48.

III. The committee may request assistance from any state agency including, but not limited to, the department of justice, the department of environmental services, the legislative budget assistant, the water resources council, and the treasurer's office.

### 4 Meetings; Mileage.

I. The first-named house member of the committee shall call the first meeting not later than 30 days after the effective date of this act. The committee shall elect its own chairman and vice chairman at the first meeting. Thereafter the committee shall meet as often as necessary to complete its report.

II. Members of the committee shall be entitled to legislative mileage while engaged in committee business.

5 Change from Division to Council. Amend RSA 481:6-a to read as follows:

481:6-a Bylaws; Records; Personnel. The [division] **water resources council** shall adopt and may from time to time amend bylaws governing its procedures. The [division] **water resources council** shall adopt a corporate seal, and shall cause records of its procedures to be kept by a secretary to be appointed by the [division] **water resources council**. The division shall appoint agents, engineers, and employees as it deems proper and fix their compensation, subject to the rules adopted by the state director of personnel.

6 New Section; Disposition of Corporate Assets. Amend RSA 481 by inserting after section 33 the following new section:

481:34 Assets to Pass to State. In the event that the corporation established pursuant to RSA 481:4 shall be dissolved, all of its assets remaining after all of its obligations and liabilities have been satisfied or discharged shall pass to and become the property of the state.

7 Definition of Minor Project; Costs Increased. Amend RSA 482:54, IV to read as follows:

IV. "Minor project" shall mean maintenance work performed on a periodic basis with costs not exceeding [\$20,000] **\$50,000**.

8 Time Limit Removed. Amend RSA 485:3, V to read as follows:

V. The division may adopt rules specifying the criteria under which filtration, including coagulation and sedimentation, as appropriate, is required as a treatment technique for public water systems supplied by surface water sources. In developing such rules the division shall consider the quality of source waters, protection afforded by watershed management, treatment practices such as disinfection and length of water storage and other factors relevant to protection of health. The division may require any public water supply system to assist in determining the necessity of filtration in that system. The division shall provide an opportunity for notice and public hearing prior to implementation of any filtration requirement. Following such hearing, the division shall prescribe, by rule adopted pursuant to RSA 541-A, a compliance schedule for such filtration requirement. [A public water supply system shall comply with a filtration schedule prescribed by the division not later than 18 months after the division has made a determination of necessity under this paragraph.]

9 Effective Date. This act shall take effect upon its passage.

#### AMENDED ANALYSIS

This bill establishes a committee to study the need for a public corporation to finance and operate environmental projects for the benefit of the state.

This bill also makes technical changes in certain water laws.

The Chair requested a quorum count and declared a quorum present.

#### SPECIAL ORDERS

**HB 591**, reapportioning the state house of representatives districts. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Natalie S. Flanagan and Garret P. Cowenhoven for Constitutional and Statutory Revision: Proposed plans for redistricting New Hampshire House of Representatives districts were presented at public hearings conducted by the House Redistricting Committee in all ten counties of the State. One Republican and one Democrat member of the House Redistricting Committee from each county were asked to attempt to

reach consensus on a county redistricting plan working within guidelines adopted by the Committee. Following public input, agreement was reached in six counties and the bill was amended by the House Redistricting Committee. The recommendations of the Redistricting Committee were forwarded to the Committee on Constitutional and Statutory Revision which also held a public hearing on the bill and then adopted a further amendment. The full amendment, which is a replacement for existing law, is printed in the calendar. Vote 11-3.

**RECESS****(Speaker Burns in the Chair)**

**HB 1005**, relative to the reapportionment of house districts within cities and the election of delegates to state party conventions. **OUGHT TO PASS WITH AMENDMENT.**

Reps. Natalie S. Flanagan and Garret P. Cowenhoven for Constitutional and Statutory Revision: House Bill 1005 is the companion bill to House Bill 591. The redistricting of representative districts within cities was done in a separate bill in order to allow time for cities to change their ward lines at the February election. Most of the plans for the cities have been agreed to by the Democrat and Republican members of the House Redistricting Committee. The major dispute centers around the city of Portsmouth and the number of seats allocated to that city. The second part of the bill addresses the assignment of delegates to state party conventions. After a public hearing on the bill, the Committee on Constitutional and Statutory Revision agreed to ask the House to redistrict House seats within the cities and to appoint a subcommittee to work with the Senate to address the method of determining how delegates should be selected. In this bill, the delegates would be elected within the cities on at-large basis. If the subcommittee working with the Senate develops a different proposal, this bill will be amended. Vote 9-4.

### LATE SESSION

#### (Third reading and Final Passage)

**HB 591**, reapportioning the state house of representatives districts.

**HB 1005**, relative to reapportionment of house districts within the cities and the election delegates to state party conventions.

### UNANIMOUS CONSENT

Rep. Lockwood moved that the remarks of Reps. Cowenhoven and Chambers, pursuant to the reapportionment bills, be printed in the Permanent Journal.

Adopted.

Rep. Cowenhoven: Thank you Mr. Speaker. I was first told that I was going to take on the chore of running the House redistricting process 14 months ago. There have been 23 other members, as well as staff, that have worked diligently throughout that whole period of time. I thank you for your patience. I would like to recognize them now and have the whole House say thank you, they have put in a lot of hard work. From Belknap County, Reps. Rice and Salatiello; Carroll County, Rep. Gene Chandler; Cheshire County, Reps. Grodin and Irene Pratt; Coos County, Reps. Guay and Mayhew; Grafton County, Reps. Dana Christy and Nordgren; Hillsborough County, Reps. O'Rourke and Record; Merrimack County, Reps. Gross and Trombly; Rockingham County, Reps. McGovern and Simon; Strafford County, Reps. William McCann and Ann Torr and Sullivan County, Reps. Krueger and Stamatakis. The

Executive Committee consisted of Reps. Flanagan, Chambers and Burns. The Clerk of the Committee and our numbers guru, Rep. Robinson. The Vice Chairman, Rep. Michael Hill. I present you a Committee that has really worked. Thank you very much.

But, we are only as good as our staff. Let me briefly thank the staff. Beckey Phyllides, Administrative Assistant to the Deputy Speaker, helped us in the beginning; Amy Ireland, Administrative Assistant to the Majority Leader, was a big assist and went to half of the road shows and transcribed the tapes; Attorney Sarah Brown-ing, Jim VanDongen in the House Information Office and Jim Simonson, Research Assistant to the Minority Leader, were a big assist. Carol Dunning, Legislative Assistant to the Majority Leader, who I could not have functioned without, made sure all the minutes were done correctly and the agendas were set. Without her assistance, we would not have gotten the job done. And finally, last but not least, the House attorney who really kept us all on the straight and narrow and probably had more to do with the language that you have passed today, Loretta Platt. Thank you staff.

Rep. Chambers: Mr. Speaker, I wanted to express my appreciation to the honorable member from Amherst. He had a very difficult job in trying to control all of us. Since he did not have a lot of leverage with me, he had to use a lot of charm. I tell you he has plenty of it. Every time I was close to getting angry, he would do something to get me to smile. It was a pleasure working with him and I appreciate his long, hard efforts. Thank you.

**(Rep. Michael Hill in the Chair)**  
**SPECIAL ORDERS**

**CACR 9**, relating to revenue raised through a personal income tax. Providing that each year at least 75 percent of all general fund revenues resulting from any personal income tax be returned to the cities, towns, school districts, counties, and property taxpayers to assist in property tax relief. **INEXPEDIENT TO LEGISLATE.**

Rep. David C. Young for Ways and Means: Some members considered this Constitutional Amendment too limiting on the future needs of the state. Others viewed it as part of an overall income tax plan they opposed. For these two reasons the majority of the Committee recommends Inexpedient to Legislate. Vote 11-3.

Rep. Arnesen moved that the words Ought to Pass with Amendment be substituted for the report of the Committee, Inexpedient to Legislate, spoke in favor and yielded to questions.

Reps. Cowenhoven and Welch spoke against and yielded to questions.

Reps. Teague and Spencer spoke in favor.

Rep. Lamar requested a quorum count.

The Chair declared a quorum present.

Reps. Domaingue and Lamar spoke against.

Rep. Jacobson spoke against.

Rep. Douglas Hall requested a quorum count.

The Chair declared a quorum present.

Rep. Douglas Hall spoke in favor and yielded to questions.

Roll call request sufficiently seconded.

**HB 763**, to fund state aid to education, to provide for property tax relief for cities and towns and individuals, to amend the state tax structure, and making an appropriation therefor. REFER FOR INTERIM STUDY.

Rep. Robert C. Hayes for Ways and Means: From late summer through late fall of this year, two subcommittees met regularly to evaluate the technical and tax aspects of House Bill 763. After examining reams of data, the Committee determined that the property tax is indeed inequitable on two accounts. First, it represents a disproportionate burden on low income homeowners. Second, and not so widely recognized, it places an inordinate demand on taxpayers in "property-poor" towns. Using the income tax as the source of revenue, the Committee set out to design a distribution formula that would address these two concerns.

Agreement was reached on a rate of 3.5 percent of adjusted gross income as defined in the Federal tax code, coupled with an exemption of \$3,000 per person to yield roughly \$450 million per year. Compared to the original version of the bill, this version would generate a significant amount of money with a limited impact across a wider range of income levels.

The 80 percent share of revenue (\$360 million) to be returned to municipalities will occur through two mechanisms. A revised foundation aid formula will deliver two-thirds of the money (\$240 million) to sending districts, reflecting the cost of education in local tax rates. The formula recognizes three factors in determining state aid to education: property wealth, income wealth, and tax effort. Revision of the third factor allows the formula to more accurately determine a district's need for aid. Given a funding level of \$240 million, the formula will fairly deliver 25 percent of the state education cost. A revised constitutional homestead exemption will deliver the remaining one-third of the local share (120 million) through a 20 percent reduction in property taxes for all resident homeowners, thereby guaranteeing that property taxes will be immediately and directly affected.

On the state side, the 20 percent share of revenue (90 million) is designed to be revenue neutral by offsetting the repeal of the Interest and Dividends Tax and the reduction of the Business Profits Tax from 8 percent to 3.5 percent. A major equity question is addressed by pegging the "reasonable compensation" problem that is currently allowing a majority of businesses to avoid paying any tax.

The principal arguments against an income tax are that: (1) the legislature cannot be trusted to divert revenues to the state general fund depending upon the state's current budget crisis; (2) a broad-based tax, like an addiction, could be expected to increase with time, and (3) returning such substantial sums to municipalities for education could result in unbridled spending far in excess of the communities' ability to spend wisely. The Committee believes the first two arguments are adequately addressed by two constitutional amendments to be brought to the House for approval. The final argument is addressed in part by the inclusion of a provision which would limit the local school districts' ability to spend all the increased foundation aid during the first two years.

During Interim Study, the Committee will continue to:

(1) Address the remaining concerns of members and develop methodologies for handling these funds.

(2) Utilize the KPMG study to further analyze the appropriateness and equity of the Committee alternative considering both the property tax and the income tax.

(3) Consider any additional solutions to the state property tax issue that may be advanced.

(4) Prepare draft legislation for future use.

Vote 10-6.

Rep. David Young moved that the words Ought to Pass be substituted for the report of the Committee, Refer for Interim Study, spoke against his motion and yielded to questions.

Reps. Hayes and Jacobson spoke against and yielded to questions.

Reps. Douglas Hall and Richard Hill spoke against.

Rep. Scanlan moved that the remarks of Reps. Douglas Hall and David Young on the substitute motion that HB 763 Ought to Pass be printed in the Permanent Journal.

Adopted.

### REMARKS

Rep. David Young: Here is my point, ladies and gentlemen. For the last two years hundreds, if not thousands of man hours have gone into this piece of legislation. Committee time, not to mention hundreds of radio talk shows and thousands of little speeches in favor of passing this proposal. None of the sponsors and none of the people who have been pushing this bill throughout the state of New Hampshire, or on the floor of this House now, are asking you to vote for this proposal. Ladies and gentlemen, this is an election year. Our citizens deserve more than radio talk shows and more than CACRs. We should finally have a vote on the income tax. If we are going to spend many thousands of dollars studying this proposal and thousands of man hours looking into it, the least that can happen is it comes to the floor of the House and we have a vote on it. To the extent that I would put this much time into a piece of legislation I would never not bring it to the floor of the House for an up or down vote.

Rep. Douglas Hall (inquiring of Rep. Hayes): Rep. Hayes, would you believe that this bill was drafted a year and a half ago, has dates in it referring to 1991 and 1992, appropriates \$108.6 million out of the general fund this year with no revenue to offset it since the tax would not be in place and that the sponsors of this bill could not in good conscience in any way, support a motion of Ought to Pass to send the deficit of this State to \$108 million?

Roll call request sufficiently seconded.

The question being the adoption of the substitute motion.

**HB 1058-FN**, relative to a furlough program for state employees. OUGHT TO PASS.

Rep. Elizabeth Hager for Appropriations: The committee has many questions relative to the potential imposition of a furlough program for state employees. We have decided that the best way to answer many of the questions is to request an opinion from the Supreme Court. We will ask that this bill be laid on the table awaiting that opinion. The resolution requesting the opinion has been worked on by people on both sides of the issue. The committee feels that getting the court opinion will help resolve what can become a very emotional issue. Vote. 20-0.

**LAID ON THE TABLE**

Rep. Hager moved that **HB 1058-FN**, relative to a furlough program for state employees be laid on the table.

Adopted.

Rep. Hager offered the following:

**HOUSE RESOLUTION NO. 61**

requesting an opinion of the justices regarding the  
constitutionality of HB 1058-FN.

Whereas, there is pending in the House of Representatives, House Bill 1058-FN, an act relative to a furlough program for state employees; and

Whereas, HB 1058-FN requires all state employees whose salary is greater than \$15,000 to take unpaid days of leave; and

Whereas, HB 1058-FN prohibits the use of sick leave, annual leave, bonus leave, floating holidays, compensatory time or any other similar benefit in satisfaction of the unpaid leave requirement; and

Whereas, many classified state employees are covered by a collective bargaining agreement between the state of New Hampshire and the employees' certified bargaining representative; and

Whereas, certain questions have arisen concerning the constitutionality of HB 1058-FN; now therefore, be it

Resolved by the House of Representatives:

That the Justices of the Supreme Court be respectfully requested to give their opinion on the following questions of law:

1. Whether HB 1058-FN affects the terms of the collective bargaining agreement currently in effect between the state and classified state employees and, if so, whether its effect is to violate the contract clause of the United States Constitution, Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23?

2. Whether HB 1058-FN affects the terms of appointment currently in effect between the state and unclassified state employees and, if so, whether its effect is to violate the contract clause of the United States Constitution, Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23?

3. Whether HB 1058-FN would make a law relative to the terms and conditions of employment of state employees that would supercede a portion of an agreement entered into by the state and classified state employees and, if so, whether it would violate the United States Constitution Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23 by establishing an ex post facto law?

4. Whether HB 1058-FN would make a law relative to the terms and conditions of employment of state employees that would affect the terms of the appointment of unclassified state employees and, if so, whether it would violate the United States Constitution Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23 by establishing an ex post facto law?

5. Whether HB 1058-FN would make a law relative to the terms and conditions of employment of classified state employees which would supercede the terms of RSA 273-A:5, I(i) or RSA 273-A:11 in such a way as to violate the United States Constitution, Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23, by establishing an ex post facto law?

6. Whether HB 1058-FN violates the equal protection clauses of the United States Constitution or the New Hampshire Constitution by applying the provisions of the furlough program only to those employees earning \$15,001 or more?

7. Whether the provisions of HB 1058-FN would violate the equal protection clauses of the United States Constitution or the New Hampshire Constitution by providing that retirement and other benefits would be calculated at the salary level which would have been paid had the furlough provisions not been implemented?

That the clerk of the house of representatives transmit copies of this resolution and copies of HB 1058-FN to the Justices of the New Hampshire Supreme Court.

Adopted.

**HB 1269-FN**, separating the AFDC standard of need from the AFDC payment standards and increasing the AFDC standard of need. (A) OUGHT TO PASS WITH AMENDMENT.

Rep. Douglas E. Hill for Appropriations: This bill establishes a current "standard of need" for the AFDC program. It does not have any budgetary impact. It requires that the standard of need be updated annually, as is done already in the other welfare programs: Old Age Assistance, Aid to the Needy Blind, Aid to Permanently and Totally Disabled. The study to set the standard for AFDC has already been done and paid for. This bill may provide a "soapbox" from which the relative generosity or stinginess of the state could be debated. However, it does not require any change in welfare payments or remove any authority or prerogative over welfare payments or appropriations currently belonging to this legislature. Vote 10-9.

**HB 1301-FN**, setting priorities for the disposal of certain components of the solid waste stream. OUGHT TO PASS WITH AMENDMENT.

Rep. Amanda A. Merrill for Environment and Agriculture: In 1990 the House passed legislation giving high priority to recycling as a solid waste management method (RSA 149-M:1-a). House Bill 1301, as amended, would help ensure that recyclable materials are removed from the wastestream and, in fact, recycled. The Committee is in strong support of the goal of maximum recycling. However, changes in solid waste management practices may or may not involve added expenses for municipalities. For that reason, the Committee would like the opinion of the Supreme Court as to whether House Bill 1301 meets the provisions of Article 28-A of the New Hampshire Constitution. We are asking the House to adopt the Committee amendment to support a resolution seeking the opinion of the Court and to table House Bill 1301. Vote 13-0.

5174L

#### Amendment

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Solid Waste Stream Components Disposal. Amend RSA 149-M:1-a by inserting after paragraph II the following new paragraph:

II-a. Consistent with the hierarchy set forth in paragraph II, the department shall strive to manage solid waste in a manner that makes optimal use of each component of the solid waste stream.

2 Solid Waste Stream Components Disposal. RSA 149-M:22 is repealed and reenacted to read as follows:

149-M:22 Solid Waste Stream Components Disposal.

I. Consistent with RSA 149-M:1-a, II-a, the department shall restrict or prohibit the disposal of certain components of the solid waste stream when it determines that:

(a) Disposal of the material presents a potential adverse impact to public health, safety or the environment;

(b) A restriction or prohibition will result in the extension of the useful life or capacity of a facility or class of facilities; or

(c) A preferred and feasible alternative exists for handling a given component consistent with the hierarchy set forth in RSA 149-M:1-a, II.

II. No person shall dispose of, compost or incinerate or contract for the disposal or incineration of the following materials except as indicated below. No landfill, composting facility or incinerator shall accept the restricted materials except to permit the layover of such materials on their processing course. The department shall adopt rules under RSA 541-A for each of the categories of materials listed in subparagraphs (a)-(d) below one year prior to each of the disposal prohibition dates, specifying the materials to which the restrictions shall apply. No person shall dispose of, compost or incinerate:

(a) Aluminum containers after January 1, 1994.

(b) Metal or glass containers after January 1, 1994.

(c) Recyclable plastics after January 1, 1995.

(d) Recyclable paper after January 1, 1996.

III. In determining whether to restrict or prohibit the disposal of other materials, the department may consider:

(a) The nature and degree of potential adverse impacts.

(b) The quantities of potentially restricted materials generated.

(c) The availability of reuse and recycling management options for potentially restricted materials.

(d) The economic impact on the facility, class of facilities or generators subject to the restriction.

(e) Such other factors as the department deems relevant to such a determination.

IV. The department may allow a facility or person to temporarily dispose or temporarily contract for the disposal of restricted materials, with prior notification and approval by the department, under the following circumstances:

(a) The material is contaminated or is otherwise not acceptable for reuse or recycling provided that the person who contaminated or rendered the material unfit for reuse or recycling is notified and takes any action necessary to prevent a recurrence of the conditions which contaminated or rendered the material unfit; or

(b) The reuse or recycling operation or end user to which the restricted material is normally sent declines to accept the material or is prohibited from accepting the material as a result of an administrative or judicial order, provided that an alternative reuse or recycling operation or storage facility which will accept the material cannot be found within a reasonable time; or

(c) Significant market changes render reuse or recycling unrealistic as management options for a given material.

This paragraph shall not apply to municipalities organized under RSA 53-A, RSA 53-B, or 1986, 139, if application of the paragraph would cause the municipality to violate or incur penalties under legal obligations existing on the effective date of this paragraph.

3 Effective Date. This act shall take effect 60 days after its passage.

Adopted.

**LAI D ON THE TABLE**

Rep. Amanda Merrill moved that **HB 1301-FN**, setting priorities for the disposal of certain components of the solid waste stream be laid on the table.

Adopted.

Reps. Merrill, Millard, Burnham and Bradley offered the following:

**HOUSE RESOLUTION NO. 60**

requesting an opinion of the justices concerning the  
constitutionality of HB 1301-FN.

Whereas, there is pending in the house, House Bill 1301-FN, "An Act setting priorities for the disposal of certain components of the solid waste stream"; and

Whereas, an amendment has been proposed to HB 1301-FN; and

Whereas, doubt has arisen as to the constitutionality of the provisions of said bill;  
and

Whereas, it is important that the question of the constitutionality of said provisions should be settled in advance of the enactment of HB 1301-FN; now, therefore, be it

Resolved by the House of Representatives:

That the Justices of the Supreme Court be respectfully requested to give their opinion on the following question of law:

1. Would the prohibition on the disposal, composting or incineration or on contracting for the disposal, composting or incineration of certain recyclable materials beginning January 1, 1994, imposed by RSA 149-M:22 as amended by the proposed amendment, constitute an illegally mandated state program or responsibility under Part I, Article 28-a of the New Hampshire Constitution?

That the clerk of the house of representatives transmit copies of this resolution, **HB 1301-FN**, and the proposed amendment to the justices of the New Hampshire Supreme Court.

Adopted.

**HB 1131**, relative to liability for unauthorized disclosure of confidential telecopy wire communications. MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: REFER FOR INTERIM STUDY.

Rep. Karen K. McRae for the Majority of Science, Technology and Energy: There were too many issues to be dealt with in the allotted time frame and the Committee reluctantly voted inexpedient. Vote 9-3.

Rep. Beverly T. Rodeschin for the Minority of Science, Technology and Energy: Because there were so many issues to be addressed, the Minority voted for Interim Study.

Rep. Rodeschin moved that the words Refer for Interim Study be substituted for the report of the Committee, Inexpedient to Legislate and spoke in favor.

Rep. Vogler spoke in favor.

Adopted.

Referred for Interim Study.

**HB 1265-FN**, regulating small motor mineral dredging and panning.(A) REFER FOR INTERIM STUDY.

Rep. John P. Chandler for Appropriations: This bill points out the need for certain environmental permitting to be non site-specific. It then raises the question of whether the operator(s) or the equipment should be subject to the permit, which is not resolved. Vote 18-0.

Rep. Dickinson moved that the words Ought to Pass with Amendment be substituted for the report of the Committee, Refer for Interim Study and spoke in favor.

Rep. John Chandler spoke in favor.

Adopted.

Rep. Dickinson offered a floor amendment.

Such fees shall be held by the treasurer in a non-lapsing fund identified as the wetlands board review fund.

Amend the bill by replacing section 4 with the following:

4 Effective Date. This act shall take effect upon its passage.

### AMENDED ANALYSIS

This bill:

(a) Requires any person who engages in a small motor mineral dredging activity to obtain a permit from the wetlands board.

(b) Sets the fee for a mining permit application at \$25 for in-state and \$50 for out-of-state residents, which fees shall be collected and held by the wetlands board for its own use.

(c) Designates panning as a small motor activity not requiring a small motor mineral dredging permit.

(d) Requires any person who has obtained a small motor mining permit or any person who engages in panning to obtain the written permission of the riverbed land-owner on whose property the mining or panning is to be done, unless the property is public land.

(e) Authorizes the wetlands board to adopt rules relative to small motor mineral dredging permits.

(f) Exempts small motor mineral dredging from the mining permit requirements of RSA 12-E.

**HCR 30**, relative to the small-issue industrial development bond program. OUGHT TO PASS.

Rep. Peter Hoe Burling for Economic Development: This resolution sends to our New Hampshire congressional delegation an important message that the New Hampshire economy needs as a resource the small-issue industrial development bond program, and requests their active support in promoting and supporting a five-year extension of that program. Unless extended, the program will cease on June 30, 1992. Vote 10-0.

Adopted.

Ordered to third reading.

**HB 1501**, relative to unfunded state mandates. OUGHT TO PASS.

Rep. John S. Barnes, Jr. for Municipal and County Government: The Committee felt that the study committee on unfunded state mandates did a fine job in clarifying the statutory responsibilities of state agencies with respect to Part 1, Article 28A of the New Hampshire constitution. The Committee heard over two and a half hours of testimony, during which it heard thirty two witnesses. All were strongly in favor except for one witness. Also, over five dozen pink cards were turned in, all supporting HB 1501. Many speakers gave specific testimony on how unfunded mandates from state agencies are undermining the economic viability of our communities. It must be noted that few speakers questioned the good intentions of the state mandates, only to how they are going to be funded. Vote 15-0.

Adopted.

Ordered to third reading.

**HB 1415-FN**, allowing businesses to use their logos on business directional signs. REFER FOR INTERIM STUDY.

Rep. Gene G. Chandler for Public Works: House Bill 1415 has been a very difficult and emotional bill with which to deal. The Committee heard a variety of opinions, statement of fact, and presentations of laws and regulations, both federal and state. After trying to sort through the differences, the Committee voted 9-5 Inexpedient to Legislate. Realizing the conflicting testimony, ideas, etc. presented problems with this bill, the Committee reconsidered its original vote and after two tie votes, voted to recommend the bill be sent to Interim Study on a 9-5 vote. Interim Study should and will be able to resolve such issues as, sign sizes, locations, numbers of signs, who shall utilize the signs, etc. etc. The present bill as it is written has the capability of too many unanswered questions which should be honed out in Interim Study.

Rep. Nielsen moved that the words Inexpedient to Legislate be substituted for the report of the Committee, Refer for Interim Study and withdrew his motion.

Referred for Interim Study.

**HB 1025-A**, relative to budget adjustments for fiscal years 1992 and 1993. OUGHT TO PASS WITH AMENDMENT.

Rep. Elizabeth Hager for Appropriations: This bill contains the needed budget adjustments to see us through the biennium. Because of the Senate action which funded certain accounts only to April 1 of this year in the earlier supplemental bill, this bill addresses needs for both this fiscal year and next. The only important change

in the bill since we briefed the House is in Section 21 relative to the revenue stabilization account (the "rainy day fund"). The committee thinks that at this time the account should be calculated at the end of the biennium instead of at the end of each year. This House has consistently been committed to a two-year budget and this amendment allows us to come as close as we can to balancing that budget. Vote 18-2.

V. If, after the requirements of paragraphs II-IV have been met and the balance remaining in the revenue stabilization reserve account is in excess of an amount equal to 5 percent of the actual general fund unrestricted revenues for the most recently completed fiscal year, then such excess shall be transferred, without further action, to the general fund surplus account.

Rep. Gross offered the following: **RESOLVED**, that in accordance with the list in the possession of the Clerk, Senate Bill number 459 shall be by this resolution read a first and second time by the therein listed title, and referred to the therein designated committee.

**INTRODUCTION OF SENATE BILL****First, second reading referral****SB 459**, limiting the increase in electric rates. (Science, Technology and Energy)**SPECIAL ORDER**

**CACR 25**, relating to right to privacy. Providing that an individual's right to live free from governmental interference in private or personal matters is fundamental. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: REFER FOR INTERIM STUDY.**

Rep. H. Thayer Kingsbury for the Majority of Constitutional and Statutory Revision: In 1973 in *Katz versus the US*, the Supreme Court ruled that "the protection of a person's general right to privacy - his right to be left alone - is left to the law of the individual states." As society has become more and more complex and as government and industry become more and more aggressive in their efforts to know more about us and control us, this right to be left alone has suffered. The Majority of the Committee feels it is important that a right to privacy be spelled out and included in our state constitution. Vote 9-5.

Reps. Walter F. Healy and Phyllis M. Katsakiores for the Minority of Constitutional and Statutory Revision: The Minority of the Committee feel that this **CACR** should be referred for Interim Study. In listening to testimony by witnesses and committee members, it became clear that several points should be clarified before this question is put on the ballot. Further study of this amendment is needed as if it is

passed, the CACR would represent a basic new approach to what is traditionally considered the law of this state. Criminal law and civil law will be altered. Defense attorneys will raise the issue of privacy in the courts. Who will decide the issues of "privacy," "compelling state interest" and "least intrusive procedure?" The courts will basically preempt the legislature in the law creating process. House Bill 1297 (1992) establishes a nine-member committee to study the issue of protecting personal information. This bill is now in the possession of the Senate Judiciary Committee. The study committee will submit a report no later than November 1, 1992. If this CACR goes to Interim Study, the Committee will have the opportunity to look at the court cases that have resulted from amendments to the constitutions of other states, to compare the wording of the CACR with that of other states such as Florida, Rhode Island and California, and to receive the results of the study committee created in House Bill 1297. The Committee thus will be able to determine whether a CACR on this issue is necessary or whether it would be more aptly addressed by legislation.

### Amendment

Amend the resolution by replacing all after the resolving clause with the following:

I. That part first of the constitution be amended by inserting after article 2-a the following new article:

[Art.] 2-b. [Right to Privacy.] An individual's right to live free from governmental interference in private or personal matters is fundamental, and shall not be restricted unless the government demonstrates that the restriction is the least intrusive means to fulfill a compelling state interest.

II. That the above amendment proposed to the constitution be submitted to the qualified voters of the state at the state general election to be held in November, 1992.

III. That the selectmen of all towns, cities, wards and places in the state are directed to insert in their warrants for the said 1992 election an article to the following effect: To decide whether the amendments of the constitution proposed by the 1992 session of the general court shall be approved.

IV. That the wording of the question put to the qualified voters shall be:

Are you in favor of amending the constitution by guaranteeing an individual's right to live free from governmental interference in private or personal matters, which freedom shall not be restricted unless the government demonstrates that the restriction is the least intrusive means to fulfill a compelling state purpose?

V. That the secretary of state shall print the question to be submitted on a separate ballot or on the same ballot with other constitutional questions. The ballot containing the question shall include 2 squares next to the question allowing the voter to vote "Yes" or "No." If no cross is made in either of the squares, the ballot shall not be counted on the question. The outside of the ballot shall be the same as the regular official ballot except that the words "Questions Relating to Constitutional Amendments proposed by the 1990 General Court" shall be printed in bold type at the top of the ballot.

VI. That if the proposed amendment is approved by 2/3 of those voting on the amendment, it becomes effective when the governor proclaims its adoption.

Adopted.

Reps. Shackett, Paul White and Donna Sytek spoke against.

Reps. Burling, Robinson, Gilmore and Kurk spoke in favor.

Rep. Connell spoke against and yielded to questions.

Roll call request sufficiently seconded.

The question being the adoption of the majority Committee report.

## HOUSE JOURNAL No. 17

Thursday, March 19, 1992

The House assembled at 1:00 p.m., the hour to which it stood adjourned and was called to order by the Speaker.

Prayer was offered by House Chaplain, the Reverend Edward G. Horstmann.

Almighty God, as we gather together, so fill our lives with Your passion and hope, that in all our decisions we may be rightly guided, and in all of our relationships truly loving.

And on this wintry day we remember with special care all who need encouragement, all who lack food and clothing, all who are cold and cheerless and all who long for home and friendship.

Help us to be more willing to share the good things of life, and give us that generosity and concern for others that shall mark us as people of Your way. Amen.

## COMMITTEE REPORTS CONSENT CALENDAR

Rep. Gross moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

Consent Calendar adopted.

**SB 394**, relative to the jurisdiction of the labor department over self-insured workers' compensation programs. OUGHT TO PASS.

Rep. J. Francis Laughlin for Labor, Industrial and Rehabilitative Services: The Committee feels this is a very good bill and since there is no fiscal impact to the state of New Hampshire, this bill was unanimously voted Ought to Pass by the Committee. Vote 10-0.

**SB 421-FN**, relative to fireworks. OUGHT TO PASS.

Rep. Richard D. Chasse for Public Protection and Veterans Affairs: Senate Bill 421, as amended by the Senate, is the result of a detailed study of fireworks by a broad-based committee of 11 persons, representing the legislative and executive branches, law enforcement and fire control activities, fireworks manufacturers, and a physician with expertise in the treatment of wounds and burns caused by fireworks. The mission of the committee was to determine which fireworks were the least dangerous and could, therefore, be considered "safe and sane" (permissible fireworks), and could, therefore, be made available to the general public. Seven classes of fireworks, plus certain sparklers, were approved by the committee as being "permissible fireworks" — these are listed in sections 160-B:1 and 160-B:16 of the RSAs. There is strong local control — each municipality may vote to allow, or disallow, the sale and use of "permissible fireworks;" the sale of permissible fireworks must be made from permanent structures, in accordance with local zoning ordinances and building codes. Sale of fireworks must be made by persons 21 years or older (18 years or older, if under direct supervision of a person older than 21 years), with detailed records made and maintained on each sale, and instructions must be issued on the safe use of fireworks. Fireworks displays remain under municipal control, after the displayer is granted a state "certificate of competency." The sale and use of special fireworks for agricultural, railroad, and military purposes may be approved by the Commissioner of Safety, only after initial approval of such a request by the municipality. Both district and superior courts may grant authority to law enforcement officers to seize and remove stocks of fireworks illegally offered for sale. Three new sections have been added: a section on "advertising the sale of fireworks;" a section requiring the distribution of a safety pamphlet at the time of fireworks' sale; and a section detailing the Commissioners' authority to immediately suspend any license, if there is evidence of the violation of the provisions of this chapter. The statute becomes effective on passage. The section on "permissible fireworks" will be repealed on April 1, 1994, unless action is taken prior to that date to revise the statute, or to reenact the statute. Vote 11-0.

## REGULAR CALENDAR

**SB 300**, reapportioning the New Hampshire congressional districts. OUGHT TO PASS.

Rep. Natalie S. Flanagan for Constitutional and Statutory Revision: The total deviation is less than one percent. No towns have been split. It is felt that the growth will not be too great over the next 10 years in these six towns. Vote 10-1.

Rep. Holden offered a floor amendment.

**Floor Amendment**

5349L

Amend the bill by replacing section 3 with the following:

3 Application of City Charter Amendments to November, 1992 State and Congressional Elections. Notwithstanding any provision of RSA 49-B:6, IV(b) all city charter amendments applicable to redistricting which do not have an earlier effective date than the effective date of this act shall become effective on the effective date of this act for the purpose of conducting the state general election to choose federal, state, and county officers to be held in November, 1992.

**AMENDED ANALYSIS**

This bill redraws the districts for electing representatives to the United States House of Representatives by moving the towns of Sanbornton, Tilton, Northfield, Canterbury, Loudon, and Chichester from the first to the second congressional district.

The bill also adds an application section for city charter amendments which are adopted prior to the November, 1992 election, which provides that such amendments applicable to redistricting which do not have an earlier effective date than the effective date of this act shall become effective on the effective date of the act for the purpose of conducting the state general election to be held in November, 1992.

Rep. Gross moved that Sen. Blaisdell's remarks be printed in the Journal.

Adopted.

Sen. Blaisdell addressed the House by unanimous consent.

Members of the House, Mr. Speaker, and Mr. President. In 22 years, I have never had this opportunity and it feels pretty good up here. Maybe I will reconsider running for the Senate in November; maybe you can swear me in as the Governor in November. I don't know, we'll see.

I thank you for this opportunity. I know it is rare. But, I would be remiss if I did not come before this body, one which I have a tremendous amount of respect for, and thank Majority Leader Caroline Gross, a great friend of mine and members of the

House Appropriations Committee and Minority Leader Mary Chambers for all the courtesy and help that was given to me in the past seven months. Obviously, it was not a very pleasant time for me and my family. Thank God for my wife, whom I love very dearly, and my children, Peter, Michael and Lucinda, my two grandchildren and the many, many friends from my area and throughout the state of New Hampshire who wrote to me and said prayers for me, gave me strength and helped me through what was probably the most difficult time of my life. God forbid it ever happens again. I don't think it ever will.

I would be remiss if I did not come before this body, one I have a tremendous amount of respect for, and thank you for all of the past things you have done for me. I want to put this behind me. I think that we in this State have a great problem facing us. I told the Attorney General this morning that I hold no animosity towards anyone. I'll use the old phrase from the technical foul book, Bill Kidder will tell you when he used to watch me referee, you call the technical foul, you shoot the shot and it's over. I want to put it behind me. So again, I thank you for this opportunity. I deem it a great honor and privilege to serve with you people in this great body. I love all of you. Thank you very much.

## HOUSE JOURNAL No. 18

Thursday, March 26, 1992

The House assembled at 1:00, the hour to which it stood adjourned and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, the Reverend Hayes Junkin, Pastor of St. Andrew's Episcopal Church of Hopkinton.

Behold New Hampshire!

Behold, O God, this our beloved State; the old, the young, the little children; rich and poor, strong and weak; the laborers and managers of industry; workers in classrooms, factories, farms, offices, government, and in homes; a people of many traditions, many creeds, divergent hopes and fears.

Behold New Hampshire, its mountains and sea coast, rivers and forests, its inland lakes and quiet wetlands. Its cities, towns, and villages. Upon this land, upon these people, pour down Thy life-giving spirit of nobility and truth. Where there is strife, bring co-operation for the common good. Where greed and envy abound, control us with that divine perspective which sees in every person the dignity of a growing soul. Where interests clash, set free in us the higher impulse of patriotism which seeks first our neighbor's welfare before we seek our own self-interest.

Behold, O Merciful God, this our State. Bless it, make it strong with Thy strength, and fill it with the beauty of Thy gracious gifts of freedom and justice for all. Amen.

Rep. Reidy led the Pledge of Allegiance.

**COMMITTEE REPORTS****CONSENT CALENDAR**

Rep. Gross moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

**SB 306-FN-A**, allowing bonus payments in recognition of service during the Persian Gulf War and making an appropriation therefor, was removed at the request of Rep. Gross.

Consent Calendar adopted.

**SB 303**, establishing a committee to study the various options available to fund and deliver medical benefits for state employees and relative to the funding methodology of the retirement system. **OUGHT TO PASS.**

Rep. Robert L. Wheeler for Executive Departments and Administration: The Committee felt that a study committee could be quite beneficial to those parties who are negotiating. If this study committee develops new information it could then make this information available to both parties at the negotiation table. Vote 17-0.

**SB 307-FN**, authorizing disclosure of certain information contained in the records of the department of revenue administration to the office of reimbursements, division of mental health and developmental services. **OUGHT TO PASS.**

Rep. William P. Boucher for Executive Departments and Administration: The bill is truly a housekeeping measure legalizing the current exchange of information which the courts already make available to the general public. There was no opposition to the bill. Vote 15-0.

**SB 356**, relative to quality assurance records in nursing homes and health maintenance organizations. **OUGHT TO PASS.**

Rep. Thomas G. Cain for Health, Human Services and Elderly Affairs: This bill makes quality assurance records of quality assurance programs in nursing homes and health maintenance organizations confidential except in certain circumstances. The Committee feels this bill is important to bring nursing homes and health maintenance organizations into line, using the same controls that acute care hospitals now have. Vote 10-3.

**SB 401**, removing the exemption from jury service for physicians and surgeons. **INEXPEDIENT TO LEGISLATE.**

Rep. Bronwyn L. Asplund for Health, Human Services and Elderly Affairs: The Committee feels that this legislation is unnecessary and unwarranted. Removing the exemption from jury service for physicians and surgeons could be disastrous for people who rely on small, rural hospitals for health care. Vote 11-1.

**SB 361**, relative to the impact fee laws. **OUGHT TO PASS**

Rep. Karen O. Wadsworth for Municipal and County Government: SB 361 removes a redundancy overlooked when the impact fee bill was drafted and adopted during the last session. Vote 13-0.

**SB 388-L**, relative to preserving utility licenses on municipal and state discontinued highways. **OUGHT TO PASS**

Rep. Gabriel Daneault for Municipal and County Government: This bill is a housekeeping bill which reserves the right of utilities to have easements continue whenever class IV, V or VI highways are discontinued. All testimony was in favor of the bill. Vote 13-0.

**SB 412-FN-L**, relative to signage by nonprofit organizations in zoned commercial or industrial areas. **REFER FOR INTERIM STUDY.**

Rep. Gene G. Chandler for Public Works: Signs, Signs, Signs! The Committee, along with the Resources Committee, has dealt with a number of sign issues this year and we get a little more confused as we go along! State Statutes, Federal laws, State

and Federal rules, Department rules, etc. are in conflict with each other. House Bill 1415 dealing with logo signs on Interstates and other highways was sent to Interim Study and the Committee wishes Senate Bill 412 and any other sign bills be sent to Interim Study where all these sign issues may be dealt with and produce recommendations for the next session of the Legislature. Vote 12-2.

### REGULAR CALENDAR

**SB 313**, relative to gender balance on boards and commissions. **OUGHT TO PASS.**

Rep. Cynthia A. McGovern for Executive Departments and Administration: This bill attempts to address an inequitable situation which many feel exists concerning the gender balance of appointments made to boards, commissions, agencies, etc. in the State of New Hampshire. Vote 13-3.

Adopted.

Ordered to third reading.

**SB 459-FN**, limiting increases in electric rates. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Charles C. Vogler for the Majority of Science, Technology and Energy: Senate Bill 459 would place an absolute cap on the electric rates of both the New Hampshire Electric Cooperative and PSNH regardless of utility costs or any other factor. The Majority of the Committee believes this is unquestionably unconstitutional. In addition, this bill would be in direct conflict with the consensual agreement recently reached by the REA, PSNH, the NH Electric Coop. and the State and approved just last Tuesday by Judge Yankos. Finally, and perhaps most important, is the fact that so far PSNH has maintained electric rates at or below the 5.5 percent per year nominal rate plan contained in RSA 362-C. Therefore, the Majority believes, "if it ain't broke, don't try and fix it." Vote 8-5.

Reps. Gary R. Gilmore, Amanda A. Merrill, David C. Allison and Philip M. Ackerman for the Minority of Science, Technology and Energy: Committee action on Senate Bill 459 occurred with unprecedented haste. The Majority argues that presently there is no problem, but the Minority points out that within a few months after the reorganization of PSNH in May 1991 the cost of electricity went from 8.27 cents per kilowatt hour to 10.3 cents per kilowatt hour. With PSNH ratepayers already paying one of the highest electric rates in the country and at a time of serious economic problems in New Hampshire it seems appropriate to cap annual rate increases at 5.5 percent.

Rep. Chambers moved that the words Ought to Pass be substituted for the report of the Committee, Inexpedient to Legislate.

Reps. Amanda Merrill and Chambers spoke in favor and yielded to questions.

Reps. Vogler, Rodeschin and Gross spoke against and yielded to questions.

Rep. Burling requested a quorum count.

The Speaker declared a quorum present.

Reps. Leonard Smith and Trombly spoke in favor.

Rep. Ferlan spoke against

Roll call request sufficiently seconded.

The question being the adoption of the substitute motion.

Reps. Daigle and Marilyn Campbell declared that a conflict of interest existed and they did not participate.

**SB 306-FN-A**, allowing bonus payments in recognition of service during the Persian Gulf War and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Leroy C. Thayer for Public Protection and Veterans Affairs: The granting of a cash bonus for wartime service has been traditional in New Hampshire, precedent starting with World War I. On relatively short notice in late 1990, "citizen-soldiers," members of the New Hampshire National Guard and Federal reserve units (Army, Navy and Marine Corps) answered the call to colors, leaving families, children, farms, firesides, jobs, and education behind. They performed their military duties in an outstanding manner, notwithstanding the handicaps cause by climate and terrain. For a number of members, on their return to New Hampshire, the jobs had disappeared, due to closing of business activities. For others, active duty meant a substantial reduction in income, from their peacetime salary to the military pay scale; some returnees had to seek financial aid from a welfare fund established by the Cabletron Corp., for the sole purpose of aiding returned service personnel. To be awarded the bonus, NH military personnel have to be awarded the Southwest Asia Service Medal, indicating their presence in the Persian Gulf area, during a certain time frame. The Committee was firmly convinced that all members of the New Hampshire National Guard and Reserve troop units faced the same dangers in combat, that they served well and faithfully, and that they should therefore receive the bonus, regardless of their place and residence. (New Hampshire National Guard and Federal reserve units, based in New Hampshire, include some members who actually do not reside in New Hampshire). Action has been taken to assure that members of New Hampshire military units, who are residents of another state, do not seek a bonus from New Hampshire, if they have already received a bonus from their state of residence. The individual applications for bonus payment will be screened by the State Veterans Council, and payment will be made through the medium of a 5-year bond issue of \$350,000. Vote 10-0.

**Amendment**

Amend RSA 115-A:9 as inserted by section 1 of the bill by replacing it with the following:

115-A:9 Qualifications for Bonus. Each person who actively served in any capacity as a member of the armed forces of the United States between August 2, 1990, and a date to be determined by the Secretary of Defense, and who earned the Southwest Asia Service Medal (SASM); and who was discharged, released or has a certificate of

service therefrom, under honorable conditions, or who is missing in action; and who at the time of entry on such active service, and at the time of such service was a bona fide resident of this state shall be entitled to the benefits provided under this subdivision. Residents of other states who were activated and served with a New Hampshire based National Guard or reserve unit shall also qualify. No individual who has received a Persian Gulf War bonus payment from another state shall be qualified to receive the benefits provided under this subdivision.

Adopted.

Rep. Domainque: Thank you Mr. Speaker. We had a long discussion today about SB 459 regarding capping utility rates. One common thread that ran through from both sides was protection of the best interests of the ratepayer. I hope it is not a thread that we will forget. Unfortunately, some of the people involved in this argument from day one have been labeled anti-Seabrook and members of the Clamshell Alliance when they weren't. I voted in favor of SB 459 and I'm not on a list anti-Seabrookers or on that of the Clamshell Alliance. But you will find my name on another list, and that is on the list of former ratepayers of Northeast Utility bills in the state of Connecticut. I don't think there was another person here today in the argument who got up and could speak from experience of having paid utility bills in the state of Connecticut. Well, I can. The reason I'm here right now is because in watching my husband, myself and still my father pay those bills, I very clearly recall the sales pitch that came in the bill from a utility company that built nuclear power plant after nuclear power plant. The Connecticut rates were going up because they needed to build another nuclear power plant, but ultimately your rates would go down because that was what nuclear power was all about, saving energy. I'm not going to bore you with the statistics but the rates did not go down. I've paid their bills; I've heard their sales pitch. I don't trust them one bit. You have a Public Utilities Commission in the state of New Hampshire and I am here right now because this was the best way, I felt, to get my message across as a former ratepayer of Northeast Utilities bills in the state of Connecticut that has four nuclear power plants. Please avail yourselves of every opportunity, both sides, to show up at those rate hearings and speak as strongly for your consumers and your ratepayers as both sides spoke today. Because when Northeast

Utilities comes in with its rate hikes, and it will at regular intervals, crying about its high costs, each of you need to be there with the same strength on behalf of your ratepayers that you felt today when you placed your vote. The first entity that I expect to see holding Northeast Utilities accountable for holding down the rate, will be the state's largest newspaper. If it is as concerned as it claimed in its editorials for keeping rates stable, level and reasonable then it should have, and you should have, no trouble at all holding Northeast Utilities accountable for it end of the agreement. Thank you.

### COMMITTEE REPORTS CONSENT CALENDAR

Rep. Gross moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

**SB 360**, establishing a committee to study head injury cases in New Hampshire, was removed at the request of Rep. Vaughn.

**SB 433-FN**, relative to the registration and equipment standards of motor vehicles known as street rods, was removed at the request of Rep. John Chandler.

Consent Calendar adopted.

**SCR 11**, encouraging the U.S. Congress and the President of the United States to consider the economic impact of federal laws and legislation on states. OUGHT TO PASS.

Rep. Robert L. Wheeler for Economic Development: A strong opinion against Federal Mandates is expressed in this bill and shared wholeheartedly by the Committee. Vote 13-0.

**SB 331**, relative to gender equity in athletics. OUGHT TO PASS.

Rep. Robert M. Gilbreth for Education: It is incumbent on the Committee and the General Court to further extend equality of treatment in men and women's sports. The gender equity study committee which met this past winter would like to continue the study. Vote 14-0.

**SB 326-FN**, relative to the Lamprey solid waste district. OUGHT TO PASS.

Rep. Amanda A. Merrill for Environment and Agriculture: Senate Bill 326 authorizes the Lamprey solid waste cooperative to borrow money necessary to complete expansion of the landfill to which it sends ash from its waste-to-energy facility on the University of New Hampshire campus. This expansion will provide capacity through 1995, at which time the cooperative's lease with UNH expires. Vote 13-0.

**SB 357-FN**, prohibiting licensure by any state agency or board where an outstanding court default or bench warrant has been issued and making license application fees non-refundable. INEXPEDIENT TO LEGISLATE.

Rep. Lawrence A. Emerton for Executive Departments and Administration: This bill, although well-meaning, would create the necessity for the many state boards and agencies to set up an expensive and time consuming process of cross-checking prior to issuing and/or renewing licenses. Testimony from some agencies advised there could be large losses of revenue if enacted. Some boards prohibit the refusal of a license before a hearing, thus further impeding a possible innocent person from making a livelihood during a long hearing process. Vote 12-0.

**SB 407-FN**, relative to the acceptance of credit cards for motor vehicle related offenses by clerks of court and bail commissioners. INEXPEDIENT TO LEGISLATE.

Rep. Robert L. Wheeler for Executive Departments and Administration: The Committee heard testimony that the bill appeared to need some rewriting. The degree of rewriting was felt to be excessive for the Committee and so it was voted Inexpedient to Legislate. Vote 14-0.

**SB 430-FN**, relative to the establishment of regional offices for the vocational rehabilitation division. OUGHT TO PASS.

Rep. Kathleen W. Ward for Executive Departments and Administration: This legislation was requested by the Department of Education which has since 1963 maintained regional offices throughout the state. Passage of this bill would give the Director of Vocational Rehabilitation statutory authority. Vote 13-0.

**SB 359**, relative to expending moneys by the OHRV bureau for trail maintenance expenses. OUGHT TO PASS.

Rep. Joseph N. Feuer for Fish and Game: This bill dedicates one dollar of each off highway recreational vehicle (OHRV) annual registration fee for the purchase of trail grooming and maintenance equipment and related expenses. There is no increase in the fee or additional cost to the public. Vote 19-0.

**SB 386-FN**, relative to the publications, specialty items and fund raising revolving fund of the fish and game department and authorizing certain fund raising by the department. **OUGHT TO PASS.**

Rep. Joseph N. Feuer for Fish and Game: This bill expands the fund raising capacity of the Fish and Game Department through the merchandising of various specialty items to the general public and gives the Department the authority and means to engage the services of private marketing experts to help promote this endeavor. Vote 19-0.

**SB 398**, permitting the sale of red deer and elk venison. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Joseph N. Feuer for Fish and Game: This bill, as amended, authorizes the in-state raising of red deer and elk for meat production. At present this meat can only be imported from out-of-state sources. This change will give New Hampshire farmers an additional opportunity to utilize their land profitably. Vote 17-1.

#### Amendment

Amend the bill by replacing section 2 with the following:

2 Wholesaler's License to Sell Imported Venison; Red Deer Reference Added; Reference to Packaging Removed. Amend RSA 212:30-d, III-a to read as follows:

III-a. Resident wholesalers licensed pursuant to paragraph III may import venison, [other than] **including the species red deer and elk (*Cervus elaphus*), but not including** Virginia white-tail deer (*Odocoileus virginianus*), into this state for use in processing of [gift-packaged] meats specifically for mail order.

Amend the bill by replacing section 4 with the following:

4 Sale of Venison; Red Deer Reference Added. Amend RSA 212:30-e, V to read as follows:

V. No person other than one licensed to propagate deer, [other than] **including the species red deer and elk (*Cervus elaphus*), but not including** Virginia white-tailed deer, shall be permitted to sell deer carcasses or venison pursuant to this section; provided, however, a person who has obtained the appropriate resident or nonresident wholesaler's license described in RSA 212:30-d, III shall be permitted to purchase deer carcasses or venison pursuant to this section for resale [to hotels or restaurants only].

#### AMENDED ANALYSIS

This bill permits the propagation, possession and sale of red deer and elk venison.

This bill permits licensed wholesalers to purchase deer carcasses or venison for resale. Current law limits such purchases for resale to hotels or restaurants.

**SB 323**, establishing a committee to study the issue of physician self-referrals. **OUGHT TO PASS.**

Rep. Eleanor H. Amidon for Health, Human Services and Elderly Affairs: This Committee is necessary to identify and establish the relationship between a physician and a related medical service he may have ownership in. A similar study is underway by the federal government, but only applicable to Medicaid abuses of possible doctor-medical service abuses. Vote 14-0.

**SB 410, relative to AIDS. OUGHT TO PASS WITH AMENDMENT.**

Rep. Katherine D. Foster for Health, Human Services and Elderly Affairs: The Committee was unanimous in its vote of 13-0, to amend Senator Fraser's bill. Since the birth of the original bill, CDC (Communicable Disease Center) has been revising its guidelines for AIDS several times. The establishment of a task force with the addition of three members will enable New Hampshire to be responsive to the revisions. The Committee also discussed the relevance of hepatitis B and tuberculosis. Vote 13-0.

**AN ACT**

creating a task force to study establishing precautionary measures to be followed by health care workers to control the spread of AIDS, hepatitis and tuberculosis.

Amend the bill by replacing all after the enacting clause with the following:

1 Task Force Established; Membership. There is created a task force to study the possibility of establishing procedures to be followed by health care workers licensed in New Hampshire to control the spread of the human immunodeficiency virus, hepatitis and tuberculosis. The membership of the task force shall be as follows:

I. Two members of the senate or designees, appointed by the president of the senate.

II. Two members of the house of representatives, appointed by the speaker of the house.

III. One public member, appointed by the governor.

IV. The director of the division of public health services, department of health and human services, or designee.

V. The director of the officer of alcohol and drug abuse prevention, or designee.

VI. A member from the New Hampshire Hospital Association, appointed by such association.

VII. A member of the New Hampshire Nurses Association, appointed by such association.

VIII. A member of the New Hampshire Dental Society, appointed by such society.

IX. A member of the New Hampshire AIDS Consortium, appointed by such consortium.

X. A member of the New Hampshire Public Health Association, appointed by such association.

XI. A member of the New Hampshire Medical Society, appointed by such society.

XII. A member of the State Employees Association, who represents health care workers, appointed by such association.

2 Duties. The task force shall study the possibility of establishing procedures to be followed by health care workers licensed in New Hampshire in an effort to control the spread of the human immunodeficiency virus, hepatitis and tuberculosis.

3 Mileage; Chairperson. The task force shall elect a chairperson from among its members at the first meeting, which shall be called by the first-named senate member within 30 days of the effective date of this act. Members of the task force shall serve

without compensation, except that the legislative members shall receive mileage at the legislative rate when attending to their duties on the task force.

4 Report. The task force shall submit its report with its recommendations, together with any proposed legislation for the 1993 legislative session, to the president of the senate, the speaker of the house and the governor on or before November 1, 1992.

5 Effective Date. This act shall take effect 60 days after its passage.

#### AMENDED ANALYSIS

This bill establishes a task force to study the possibility of establishing procedures to be followed by health care workers to control the spread of the human immunodeficiency virus, hepatitis and tuberculosis.

The task force is to submit its report together with recommendations for legislation to the president of the senate, the speaker of the house and the governor on or before November 1, 1992.

**SB 404-FN**, relative to chiropractic practitioners and privileged communications. OUGHT TO PASS.

Rep. Robert A. Lockwood for Judiciary: Passage of this bill will assure confidentiality of any communications between a licensed chiropractor and a patient, unless otherwise provided by law, making such communications privileged. Vote 13-0.

**SB 380**, relative to membership on planning boards in towns with the town council form of government and relative to the 4-year exemption from certain subdivision regulations and zoning ordinances. OUGHT TO PASS WITH AMENDMENT.

Rep. Kenneth L. Weyler for Municipal and County Government: This bill allows towns operating under the town council form of government to have 7 or 9 member planning boards, depending on the number specified by the local legislative body or municipal charter. The amendment deletes a paragraph the committee considered non-germane. Vote 15-0.

relative to membership on planning boards in towns with  
the town council form of government.

Amend the bill by deleting section 3 and renumbering section 4 to read as 3.

#### AMENDED ANALYSIS

This bill allows towns operating under the town council form of government to have 7 or 9 member planning boards, depending on the number specified by the local legislative body or the municipal charter.

**SB 367**, authorizing the department of resources and economic development to sell the Nansen ski jump facility if no interest exists in the private sector to maintain and operate the facility. OUGHT TO PASS.

Rep. Mary Ann Lewis for Resources, Recreation and Development: This legislation to lease or sell the Nansen ski jump facility was recommended by the Department of Resources and Economic Development. The wooden sections of the ski jump are in serious disrepair and would require a tremendous capital investment by the state before it would pass safety regulations. The bill allows the state to contract the facility to the private sector with the necessary provisions in protecting the state from any liabil-

ity. However, if they are unsuccessful in leasing the ski jump their next alternative would be to find a buyer for the structure, who would have it dismantled and built at another site. The state would retain ownership of the land on both sides of the road of approximately 53 acres. Vote 14-0.

**SB 413-FN**, allowing nonprofit organizations to use informational signs on certain highways. **INEXPEDIENT TO LEGISLATE.**

Rep. Mary Ann Lewis for Resources, Recreation and Development: The bill addresses signs by non-profit organizations in commercial and industrial areas. A very similar bill (SB 412) was heard by the Public Works Committee who placed their bill in interim study. We feel we can work with them in a joint effort in addressing this problem. Vote 15-0.

**SB 417-FN**, requiring notification of associated costs of converting fuel heating systems and allowing recovery for costs of removal of leaking residential tanks from the oil discharge and disposal cleanup fund. **INEXPEDIENT TO LEGISLATE.**

Rep. Mary Ann Lewis for Resources, Recreation and Development: The Oil Fund Disbursement Board is in complete opposition to this bill. The Oil Discharge and Disposal Cleanup Fund is derived from the assessment of .006 per gallon from the gasoline and oil dealers in the state. These funds are used to assist in the cleanup of leaky underground storage tanks of more than 1100 gallons in size. There is no contribution to the fund by the home heating oil dealers, therefore, it is inequitable for them to benefit from the ODD fund. The Committee also feels they should set up a similar program to address their problems. Vote 13-1.

**SB 440-FN**, relative to water conservation strategy for community water suppliers. **INEXPEDIENT TO LEGISLATE.**

Rep. Martin Feuerstein for Resources, Recreation and Development: While the Committee appreciates the need to conserve water, it feels it is inherent to all community water suppliers to maintain a public education program. Further, the Committee feels the continuing increase in the cost of water and its delivery creates a built-in impetus to conserve. Also, it is a bill that possibly can create a mandated expense to communities. Vote 13-2.

**SB 368**, changing statutory references to automobile graveyards, motor vehicle junkyards and junk vehicles to include automotive recycling yards or vehicles. **UGHT TO PASS.**

Rep. George N. Katsakiores for Transportation: Senate Bill 368 adds the term "automotive recycling yard" to the definition statutes which presently refer to "junkyards" only. The bill also removes references to "automotive graveyards." The Committee looked favorably on the desire of operators of these yards to develop a more respectable image to complement the trend to more sophisticated businesses. Vote 13-1.

**SB 390**, establishing a revenue estimating conference which shall estimate anticipated state revenues. **INEXPEDIENT TO LEGISLATE.**

Rep. Donna P. Sytek for Ways and Means: This bill would establish a revenue estimating conference comprised of the Governor, the Speaker, the Senate President, and an economist from a New Hampshire university. They would be required to reach unanimous agreement on revenue estimates which would be used in the budget process. While the Committee recognizes that the current system of estimating revenue is far from perfect and would certainly welcome input from the academic and business

communities, it does not believe this bill would be an improvement. The responsibility for estimating revenue more properly lies with the whole Legislature and the Governor than with four individuals. Vote 15-0.

### REGULAR CALENDAR

**SB 420-FN**, relative to interviewing children under the provisions of the Child Protection Act. **INEXPEDIENT TO LEGISLATE**.

Rep. Sharon L. Nordgren for Children, Youth and Juvenile Justice: Senate Bill 420 is a severely flawed bill as received from the Senate. There are conflicts within the bill from section to section and inconsistencies in the repeal process. The most compelling argument, however, against the bill was the expectation that the Attorney General's Task Force on Child Abuse will submit its report on October 1992 with protocols involving issues addressed in this bill. Vote 17-0.

Rep. Accornero moved that the words Ought to Pass with Amendment be substituted for the report of the Committee, Inexpedient to Legislate, spoke in favor and yielded to questions.

Rep. Valerie Cook spoke against and yielded to questions.

Roll call request sufficiently seconded.

The question being the adoption of the substitute motion.

**SB 400-FN-A-L**, requiring fees in addition to licensure fees for certain dogs which are not spayed or neutered and using the increase to fund a state animal population control program and continually appropriating the companion animal population control fund. **INEXPEDIENT TO LEGISLATE**

Rep. Martha Fuller Clark for Municipal and County Government: The Committee heard more than four hours of testimony on the pros and cons of SB 400 and the testimony on the bill was sharply split. The Committee recognizes that there is a serious problem with regard to over-population of cats and dogs in New Hampshire, but the focus and mechanics of the proposed legislation are not acceptable. The Commissioner of the Department of Agriculture testified that he would be developing information concerning the risks and activities in other states in coping with the problem. Vote 14-1.

**SB 360**, establishing a committee to study head injury cases in New Hampshire. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Katherine W. Wheeler for Health, Human Services and Elderly Affairs: Senate Bill 360 establishes a committee to study head injury cases and to determine the appropriateness of establishing a head injury registry to record and notify periodically the New Hampshire Head Injury Foundation. There are 1,500 severe brain injuries in New Hampshire every year, yet we have no direct state services for individuals with brain injuries and no registries as exist for other disabilities. The Committee considers the issues of the head injured to be of serious importance and voted unanimously 13-0 in favor of this study committee.

**SB 433-FN**, relative to the registration and equipment standards of motor vehicles known as street rods. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Richard Haynes for Transportation: This bill allows persons who drive street rods to obtain a distinctive number plate from the Director of Motor Vehicles and a certificate which verifies the vehicle as a street rod. Street rods must pass a motor vehicle inspection. This bill also sets equipment standards for these 1949 and prior vehicles which have been modified for safe road use. Vote 14-0.

### Amendment

Amend RSA 261:89-b, II as inserted by section 2 of the bill by replacing it with the following:

II. A special fee in the amount of \$25 shall be paid for the certificate of verification. This special fee shall be in addition to the regular motor vehicle registration fee as prescribed by law for the particular vehicle being registered, and any number plate manufacturing fee or fees otherwise required by law for the particular vehicle. All special fees collected shall be paid to the state treasurer and credited to the driver training fund established in RSA 263:52. A vehicle which is registered as a street rod, regardless of the year of manufacture of said vehicle, shall be assessed an annual municipal permit fee in the amount of \$50, which fee shall not be prorated regardless of the number of months in actual road use. This fee shall be in lieu of any other municipal permit fee. For purposes of this section and that of vehicle registration, the year of manufacture of a street rod is deemed to be the year of manufacture of the body. In the event the body is a replica as defined by RSA 259:106-a, then the year of manufacture is deemed to be the model year of the body so replicated.

### AMENDED ANALYSIS

This bill allows persons who drive street rods to obtain distinctive number plates from the director of motor vehicles upon payment of a \$25 fee and presentation of a duly executed certificate which verifies the vehicle as a street rod.

This bill requires that street rods be equipped with certain items. This bill defines street rods as vehicles, the bodies and frames of which were manufactured prior to the year 1949, or which include replicas of bodies or frames manufactured prior to 1949, and which have been modified for safe road use.

Any vehicle registered as a street rod shall be assessed an annual municipal permit fee of \$50.

Adopted.

Rep. John Chandler offered a floor amendment.

#### GOVERNOR'S VETO MESSAGE ON HB 379-FN

March 10, 1992

To The Honorable Members of the General Court:

I have this day vetoed HB 379-FN, An Act Relative to Advertising Devices within Highway Rights-of-Way.

I have vetoed HB 379 because it is unfair to the people of New Hampshire; it is unfair to businesses that abide by New Hampshire law; and it places a substantial burden on the citizens of New Hampshire and the businesses that employ them. Finally, HB 379 violates federal law and threatens 10% or more of New Hampshire's federal highway funding.

This office and the New Hampshire Department of Transportation have received notice by U.S. Department of Transportation letters dated February 29, 1992 and March 6, 1992, that "all remaining nonconforming signs on the Interstate and primary systems" must be acquired and removed or "the law provides for a 10-percent reduction of a State's Federal-aid highway apportionment." This means the loss of at least 7 or 8 million dollars of federal highway funding per year.

HB 379, if enacted, would cost millions of dollars in federal highway improvement funds and hundreds of New Hampshire construction jobs. The bill would damage our aesthetics and environment, and the tourist market. HB 379 is unfair to New Hampshire businesses and citizens who would be forced to compete with the illegal, nonconforming signs and billboards "grandfathered" in perpetuity by the bill.

HB 379 is unfair to businesses that have acknowledged New Hampshire property rights because it gives the nonconforming businesses a commercial advantage. To add

insult to injury, Section 2 of the bill would give the nonconforming businesses a permanent advantage because it provides that businesses that ignored state property rights up to January 1, 1991, will be able to maintain valuable billboard and signage rights in perpetuity. If HB 379 becomes law, it will permanently exempt certain citizens and businesses from laws that the rest of our citizens and businesses must obey. Also, the New Hampshire Department of Transportation has no inventory of nonconforming signs and billboards, making it impossible for the grandfather provision of the bill to be administered fairly and accurately.

In addition to the unfairness of HB 379, there is the bill's unmeasurable cost to the New Hampshire tourist business. The people of New York, New Jersey, Connecticut, Massachusetts and the rest of the country, who come to New Hampshire to vacation, do not come here to look at billboards—they can see billboards at home. Vacationers come to New Hampshire to see our forests, lakes, seashores and mountains. Signs have their place, but HB 379 would permanently establish illegal signs for the benefit of a few businesses at the expense of their competitors, the tourist market, and the people of New Hampshire in general.

Judd Gregg, Governor

Rep. Gene Chandler spoke in explanation.

Rep. Robert Johnson spoke in favor of the bill.

### REMARKS

Rep. Gross moved that the remarks of Rep. Gene Chandler be printed in the Journal.

Adopted.

Rep. Gene Chandler addressed the House.

Thank you Mr. Speaker. This message, as you know, has been appearing in your Calendar for a couple of weeks. You have to decide on your own what you wish to do with the veto. The Public Works Committee has been discussing it now for a couple of weeks. Basically, our position is that there is a problem out there. The problem is going to exist whether the veto is sustained or overridden. We are going to have to deal with it which we plan to do this summer. As you know, most of these sign bills have come along and have led us to a very confusing state, or at least for myself, and I think I speak for other members of the Committee. A lot of the state and federal statutes and regulations are in conflict with each other. I have met with the Department of Transportation and the Federal Highway Administration and we can't even get agreement amongst ourselves about which regulations we should be following and which regulations we are following.

The basic situation is that we had a subcommittee to deal with this bill initially and it recommended the bill as you see it. The Committee voted 14-0 in favor of that. Since that time, the new federal highway program, ISTEA (Intermodal Surface Transportation Efficiency Act), has taken effect and part of that federal highway program is an increased enforcement regarding signs. It is basically mandating the state of New Hampshire to get tough on the so-called illegal placement of signs along the roads, or we are faced with the threat of withholding of federal funds.

This is basically a property rights issue. This is where, in our opinion, the Governor sort of missed the boat when writing his veto message. What happens is, in a significant number of highways along the state, the state of New Hampshire actually has an easement over someone's property, John Q. Public's property, just an easement for highway purposes. We don't believe, and we feel quite strongly about this, and so

far the Federal Highway Administrator, the Department of Transportation and the Governor's legal counsel cannot disagree with us. We believe that as the statutes and regulations presently exist, no one has the authority to tell the private property owners that they can't put a sign there. Whether the Highway Department should be able to do that, and it probably should have that authority, certainly in a reasonable width from the highway to maintain clean, barrier-free roadways, for safety purposes, visual purposes, etc. But the problem is, we don't believe there is any law or easement that allows for this to happen. That was our basic issue. Now the Governor, it was hoped, would be able to write something in support of that issue. He didn't do so and that is his prerogative. His legal counsel, in meetings with him, thought it might be a good idea, but that is as far as it went. The bottom line is that either way this happens, we've got to settle the issue and we are going to have to make recommendations during the next session of the Legislature to properly deal with this problem.

Roll call constitutionally required.

The question being, not withstanding the Governor's veto, shall HB 379 pass?

This amendment more clearly establishes the intent of the bill to develop an acceptable method to accomplish this. A school administrator with primary responsibility for personnel appointed by the New Hampshire Association of School Administrators has been substituted for an elementary teacher on the committee. **SB 418**, changing the title of juvenile services officers to juvenile probation-parole officers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William F. McCain for Children, Youth and Juvenile Justice: The bill changes the official title of the Juvenile Services Officer (JSO) to Juvenile Enforcement Officer (JEO). The testimony was in favor of the old title Juvenile Parole-Probation Officer. The Committee feels that such change would be regressive and non-productive. The Committee hopes that it never handles CHINS (and limited abuse cases) as parole or probation problems. The Committee also had questions as to job title changes that might change levels without personnel being involved. The JSO is a reasonable compromise to solve all concerns. Vote 13-0.

**SB 377-FN**, relative to penalties for mortgage brokers who fail to file annual reports. **OUGHT TO PASS WITH AMENDMENT.**

Rep. C. Dana Christy for Commerce, Small Business and Consumer Affairs: SB 377-FN allows mortgage brokers to file the proper forms with the Banking Commissioner. Forms are being rewritten by the Banking Department. Formerly, a fine of \$25 per day "shall" be levied against noncompliance. This is changed to "may" be levied by the Banking Commissioner. The Fiscal Note calls for a state decrease in revenues by \$1,300 in FY 1993 and each year thereafter. Vote 12-0.

5519L

#### Amendment

Amend RSA 397-A:13, III as inserted by section 1 of the bill by replacing it with the following:

III. Any licensee failing to file the report required by this section within the time prescribed [shall] **may be required to** pay to the banking department a penalty of \$25 for each calendar day the report is overdue. If a licensee elects to file a composite report and the composite report is not filed on or before February 1 as required in this section, the penalty prescribed in this section shall apply separately for each license and branch license so violating. **The penalties prescribed by this paragraph shall not apply to mortgage brokers licensed under this chapter who earned no money from purchasing, placing or selling first mortgage loans during the preceding year and who indicate such in writing to the banking department on or before February 1.**

#### AMENDED ANALYSIS

This bill exempts from penalties for failure to file annual reports persons licensed as mortgage brokers who earned no money purchasing, placing or selling first mortgage loans during the preceding year. The bill also makes imposition of a penalty for overdue annual reports discretionary for the banking department.

Rep. John B. Hunt for Commerce, Small Business and Consumer Affairs: This bill changes interest paid on escrow accounts from five percent to a minimum rate of one percent below the mean interest rate paid by New Hampshire chartered banks on

The commissioner shall announce such rate to applicable New Hampshire trade associations. Each company subject to the provisions of this section shall inform itself of such rate by contacting applicable New Hampshire trade associations or the banking department.**

3 Effective Date. This act shall take effect July 1, 1992.

**SB 340-FN**, clarifying the definition of a school district. **OUGHT TO PASS WITH AMENDMENT.**

2 Coos County School District Established. After the effective date of this act the Coos county school district, consisting of all unincorporated towns and unorganized places in Coos county, has all of the powers, obligations and duties granted to or placed upon other school districts of the state under any provision of state law, except that the school district shall not vote any money to be spent for any school year prior to the fiscal year beginning July 1, 1993.

4 School Administrative Unit. Notwithstanding the provisions of RSA 186:11, I, the Coos county school district shall not be assigned to a school administrative unit. The county administration shall consult with the appropriate superintendents and the state department of education in respect to the statutory requirements of the school district.

5 State Aid. Coos county school district shall be eligible for state aid to education. For the purposes of foundation aid, each unincorporated place with students shall be treated as a pre-existing district. 6 Effective Date. This act shall take effect upon its passage.

**SB 429**, relative to selecting engineers, architects, and surveyors by state agencies. OUGHT TO PASS.

Rep. Maurice E. Goulet for Executive Departments and Administration: This bill clarifies state agency procurement procedures for engineering, architectural and surveying services. The bill is needed to update existing law (RSA 21-I) to provide adequate notice of engineering, architectural and surveying services that will be required by state agencies. Vote 13-0.

**SB 462-FN**, relative to optional allowances and beneficiaries under the New Hampshire retirement system. OUGHT TO PASS.

Rep. Kathleen W. Ward for Executive Departments and Administration: This legislation provides an enhanced benefit to current system members upon retirement and the actuary finds no additional expense other than those associated with changes to the data files and annuity payroll system of an estimated \$40,000. Vote 13-0.

Referred to Appropriations.

**SB 342**, relative to resisting arrest or detention. OUGHT TO PASS

Rep. Donnalee M. Lozeau for Judiciary: The Committee believes that this is a reasonable piece of legislation. It would add language to the current law relative to resisting arrest, to include "physically" interfering with arrest. Vote 12-0.

**SB 396-FN**, relative to motor vehicles and defaults on court fines and taxes. INEXPEDIENT TO LEGISLATE

Rep. Alf E. Jacobson for Judiciary: Senate Bill 396 seeks to do three things: 1) report businesses delinquent in the payments for loss of registration; 2) require drivers' license numbers on car registrations; 3) report fine delinquents to credit bureaus. All of these new requirements add significantly to both local and state costs without sufficient positive effects that warrant the expense. Vote 12-1.

**SB 414-FN**, authorizing a pilot program in one county for investigative services for attorneys providing counsel to indigent defendants. OUGHT TO PASS

Rep. Alice Barnard Record for Judiciary: The Committee approved authorizing the state, within the limits of existing appropriations, to contract with licensed private investigators to provide investigative services for attorneys serving as counsel to indigent defendants, on a two-year basis in one county to be selected by the Judicial Council. Vote 15-0.

Referred to Appropriations.

**SB 426-FN**, establishing a task force to develop a strategy to train police and prosecutors to successfully prevent, investigate and prosecute sexual assault cases. **ought to pass with amendment**

### **Amendment**

Amend the title of the bill by replacing it with the following:

#### **AN ACT**

establishing a task force to develop a strategy to train police, prosecutors and correctional personnel to successfully prevent, investigate and prosecute sexual assault cases.

Amend the bill by replacing sections 1-3 with the following:

1 Task Force Established; Duties. There is established a law enforcement and prosecutor training task force to study and develop a statewide plan to enhance the training of police, prosecutors and correctional personnel in the prevention, investigation and prosecution of sexual assault cases by maximizing available resources.

2 Membership. The committee shall consist of the following members:

I. A justice of the superior court, appointed by the chief justice of the superior court.

II. Two county attorneys, appointed by the New Hampshire Association of Counties.

III. The director of the division of state police, or designee.

IV. The commissioner of the department of corrections, or designee.

V. The director of the office of victim/witness assistance, or designee.

VI. A representative of the New Hampshire Criminal Investigators' Association, appointed by the association.

VII. A victim/witness coordinator, appointed by the New Hampshire Association of Counties.

VIII. A representative of the New Hampshire Association of Police Chiefs, appointed by the association.

XIII. The director of the police standards and training council, or designee.

XIV. An attorney representing the department of justice, appointed by the attorney general.

XV. An education specialist in sexual assault, appointed by the governor.

3 Chair; Meetings. The first meeting of the committee shall be called by the member who is a justice of the superior court. The chair of the committee shall be chosen by the members at the first meeting.

## AMENDED ANALYSIS

This bill establishes a task force to develop a strategy to train police, prosecutors and correctional personnel to successfully prevent, investigate and prosecute sexual assault cases.

**SB 470-FN-L**, relative to using electronic monitoring devices and community supervision as an alternative to prison. **INEXPEDIENT TO LEGISLATE**

Rep. Donnalee M. Lozeau for Judiciary: The Committee was confident that the proposed legislation was unnecessary and redundant. Clearly the Commissioner of Corrections already has broad discretion pursuant to RSA 651:25 to release inmates anytime during their sentence for the purpose of obtaining and working at gainful employment or for such other purposes as may be deemed conducive to rehabilitation, which could include electronic monitoring. The Court also has broad discretion in sentencing pursuant to RSA 651:2, particularly electronic monitoring in subsection V. Vote 11-3.

**SB 472-FN**, relative to the victims' assistance fund, the definition of obscene material, modifying sexual assault statutes, and continuing a study committee. **OUGHT TO PASS WITH AMENDMENT**

Rep. Donnalee M. Lozeau for Judiciary: This bill is too extensive to explain the way it should be in this small space. The Committee would urge members with interest in this area to read the bill as amended. The largest, most significant change is the sentencing provisions which would allow 10-20 years for the first conviction, 20-40 years for the second conviction, and the chance of life for a third conviction. This bill was supported by the rape task force. Vote 14-0.

## Amendment

Amend the title of the bill by replacing it with the following:

## AN ACT

relative to modifying sexual assault statutes and  
continuing a study committee.

Amend the bill by replacing all after the enacting clause with the following:

1 Statement of Purpose. It is the policy of this state that sexual assault crimes shall be treated as the heinous crimes of violence that they truly are, and that persons convicted of those crimes shall be sentenced to severe penalties, including extended loss of liberty and heavy fines. In furtherance of this policy, it is the intention of the general court that persons convicted of sexual assault crimes, in the absence of truly mitigating factors, serve at least the minimum sentence provided under the law.

2 Committee Authorization Extended. This joint ad hoc committee to study the rape laws established by the senate president and speaker of the house on August 5, 1991, shall continue to review and recommend revisions in the sexual assault laws. The committee shall terminate on June 30, 1994.

I. The committee shall have access to all sentencing reports and any other sentencing information available from the judicial council.

II. The committee shall also request any sentencing report or any other sentencing information relative to crimes defined under RSA 632-A available from the judicial branch.

3 Sexual Assault; Definition of "Retaliate". RSA 632-A:1, II is repealed and reenacted to read as follows:

V. "Sexual penetration" means:

- (a) Sexual intercourse; or
- (b) Cunnilingus; or
- (c) Fellatio; or
- (d) Anal intercourse; or
- (e) Any intrusion, however slight, of any part of the actor's body or any object manipulated by the actor into genital or anal openings of the victim's body; or
- (f) Any intrusion, however slight, of any part of the victim's body into genital or anal openings of the actor's body;
- (g) Any act which forces, coerces or intimidates the victim to perform any sexual penetration as defined in subparagraphs (a)-(f) on the actor, on another person, or on himself.

(h) Emission is not required as an element of any form of sexual penetration.

6 Aggravated Felonious Sexual Assault; Intentional Touching Added; Unethical Medical Treatment. Amend RSA 632-A:2 to read as follows:

632-A:2 Aggravated Felonious Sexual Assault.

I. A person is guilty of [a class A felony] **the felony of aggravated felonious sexual assault** if he engages in sexual penetration with another person under any of the following circumstances:

[I.] (a) When the actor overcomes the victim through the actual application of physical force, physical violence or superior physical strength.

[II.] (b) When the victim is physically helpless to resist.

[III.] (c) When the actor coerces the victim to submit by threatening to use physical violence or superior physical strength on the victim, and the victim believes that the actor has the present ability to execute these threats.

[IV.] (d) When the actor coerces the victim to submit by threatening to retaliate against the victim, or any other person, and the victim believes that the actor has the ability to execute these threats in the future.

[V.] (e) When the victim submits under circumstances involving false imprisonment, kidnapping or extortion.

[VI.] (f) When the actor, without the prior knowledge or consent of the victim, administers or has knowledge of another person administering to the victim any intoxicating substance which mentally incapacitates the victim.

[VIII.] (h) When, except as between legally married spouses, the victim is mentally defective and the actor knows or has reason to know that the victim is mentally defective.

[IX.] (i) When the actor through concealment or by the element of surprise is able to cause sexual penetration with the victim before the victim has an adequate chance to flee or resist.

[X.] (j) When, except as between legally married spouses, the victim is 13 years of age or older and under 16 years of age and:

[(a)] (1) the actor is a member of the same household as the victim; or

[(b)] (2) the actor is related by blood or affinity to the victim.

[X-a.] (k) When, except as between legally married spouses, the victim is 13 years of age or older and under 18 years of age and the actor is in a position of authority over the victim and uses this authority to coerce the victim to submit.

[XI.] (l) When the victim is less than 13 years of age.

**II. A person is guilty of aggravated felonious sexual assault without penetration when he intentionally touches the genitalia of a person under the age of 13 under circumstances that can be reasonably construed as being for the purpose of sexual arousal or gratification.**

632-A:6 Testimony and Evidence.

I. The testimony of the victim shall not be required to be corroborated in prosecutions under this chapter.

II. Prior consensual sexual activity between the victim and any person other than the actor shall not be admitted into evidence in any prosecution under this chapter.

III. Consent is no defense if, at the time of the sexual assault, the victim indicates by speech or conduct that there is not freely given consent to performance of the sexual act. A jury is not required to infer consent from a victim's failure to physically resist a sexual assault.

IV. At the request of a party the court shall, in cases under RSA 632-A, order witnesses excluded so that they cannot hear the testimony of other witnesses, and it may make the order of its own motion. This does not authorize exclusion of a party who is a natural person or a victim of the crime, or a person whose presence is shown by a party to be essential to the presentation of the party's cause.

8 New Section; Sexual Assault Penalties. Amend RSA 632-A by inserting after section 10 the following new section:

632-A:11 Penalties. Notwithstanding RSA 651:2:

I. A person convicted of aggravated felonious sexual assault under the provisions of RSA 632-A:2 shall be sentenced to a maximum sentence which is not to exceed 20 years and a minimum which is not to exceed 1/2 of the maximum.

II. If a court finds that a defendant has been previously convicted under RSA 632-A:2 or any other statute prohibiting the same conduct in another state, territory or possession of the United States, the defendant shall be sentenced to a maximum sentence which is not to exceed 40 years and a minimum which is not to exceed 1/2 of the maximum.

III. If the court finds that a defendant has been previously convicted of 2 or more offenses under RSA 632-A:2 or any other statute prohibiting the same conduct in

another state, territory or possession of the United States, the defendant shall be sentenced to life imprisonment and shall not be eligible for parole at any time.

IV. In this section, the phrase "previously convicted" shall mean any conviction obtained by trial on the merits, or negotiated plea with the assistance of counsel and evidencing a knowing, intelligent and voluntary waiver of the defendant's rights, provided, however, that previous imprisonment is not required.

9 Life Imprisonment; Reference Added. Amend RSA 651-A:7 to read as follows:

651-A:7 Eligibility for Release; Life Sentences. A prisoner serving a sentence of life imprisonment, except one convicted of murder in the first degree, [or] one convicted of murder which was psycho-sexual in nature and committed prior to April 15, 1974, **or one sentenced under RSA 632-A:11, III**, may be given a life permit at any time after having served 18 years. Eighteen years shall be deemed the minimum term of his sentence for the purposes of this section, minus any credits received pursuant to RSA 651-A:23, plus the disciplinary period added to such minimum under RSA 651:2, II-e, any part of which is not reduced for good conduct as provided in RSA 651-A:22, provided that there shall appear to said board to be a reasonable probability that he will remain at liberty without violating the law and will conduct himself as a good citizen. The provisions of this section shall not apply to a prisoner serving a life sentence when the court, pursuant to RSA 630:1-b, II, has specified a minimum term other than that prescribed in this section.

10 Indecent Exposure and Lewdness; Act in Presence of Child Under 16. Amend RSA 645:1 to read as follows:

**II. Purposely performs any act of sexual penetration or sexual contact on himself or another in the presence of a child under 16 years of age.**

11 Sentencing; Victims' Testimony Not Required. Amend RSA 651:4-a to read as follows:

651:4-a Victims of Certain Violent Crimes Against a Person Permitted to Speak Before Sentencing. Before a judge sentences any person for capital, first degree or second degree murder, attempted murder, **manslaughter**, aggravated felonious sexual assault, **felonious sexual assault**, first degree assault, or negligent homicide committed in consequence of being under the influence of intoxicating liquor or controlled drugs, the victim of the offense, or the victim's next of kin if the victim has died, shall have the opportunity to address the judge. The victim or victim's next of kin may appear personally or by counsel and may reasonably express his views concerning the offense, the person responsible, and the need for restitution. The prosecutor, the person to be sentenced, and the attorney for the person to be sentenced shall have the right to be present when the victim or victim's next of kin so addresses the judge. The judge may consider the statements of the victim or next of kin made pursuant to this section when imposing sentence.

12 Aggravated Felonious Sexual Assault and Felonious Sexual Assault Conviction; Bail Not Allowed. Amend RSA 597:1-a, I to read as follows:

13 Suspended Sentence; Limitation Added. Amend RSA 651:20 to read as follows:

651:20 Incarceration Under Suspended Sentence.

**I.** Notwithstanding any other provisions of law, **except as provided in subparagraphs (a) and (b)**, the sentence to imprisonment of any person may be suspended, at the time of sentence unless otherwise ordered by the court, or at any time while any part of the sentence remains unserved, but a petition to suspend sentence may not be brought less than 2 years after commencement of said sentence nor more frequently than every 2 years thereafter.

**(a) Any person sentenced for any of the following violent crimes against a person listed in RSA 651:4-a shall not bring such petition to suspend sentence earlier than 4 years after commencement of said sentence nor more frequently than every 4 years thereafter.**

**(b)** [However,] A petition to suspend the sentence of [a] **any** state prison inmate may be brought at any time upon the recommendation of the commissioner, department of corrections, or designee.

**II.** A person whose sentence has been suspended may be required to report to the institution to which he has been sentenced to be incarcerated during weekends or at such times or intervals of time as the court may direct, except that weekend sentence provisions do not apply to the New Hampshire state prison. Time so spent in said institution shall be deducted from the maximum term, and where there are both a minimum and maximum term, from both. Any part of a day spent in the institution shall count as a full day toward the sentence.

14 Effective Date.

**I.** Section 2 of this act shall take effect upon its passage.

**II.** The remainder of the act shall take effect January 1, 1993.

#### AMENDED ANALYSIS

**SB 318-L**, relative to fire protection areas within the town of Litchfield. **INEXPEDIENT TO LEGISLATE**

Rep. David M. Perry for Municipal and County Government: SB 318 calls for a special law creating a fire district for the town of Litchfield. The Committee feels the bill as presented to the committee may be illegal in its method of taxing only a portion of the town. There is now legislation on the books, RSA 52:1, under which the town may now set up a fire district. No new legislation is needed. Vote 13-0.

**SB 343**, relative to reconsideration of town meeting and school district meeting votes. **OUGHT TO PASS WITH AMENDMENT**

Rep. Kenneth L. Weyler for Municipal and County Government: The purpose of this clarification is to express the intent of the General Court that decisions passed by a local legislative body and further protected by a vote to restrict reconsideration shall not be changed at the same meeting by reintroduction of a defeated issue in the same or similar format. All testimony was favorable. Vote 14-0.

5557L

#### Amendment

Amend the bill by replacing section 1 with the following:

1 New Paragraphs; Restricted Votes. Amend RSA 40:10 by inserting after paragraph III the following new paragraphs:

IV. A restriction adopted under this section shall apply to any subsequent action by the meeting which alters or modifies the result of the restricted vote, regardless of whether or not the term "reconsider" is actually used.

V. This section shall apply to town meetings, cooperative school district meetings under RSA 195 and school district meetings under RSA 197.

#### AMENDED ANALYSIS

This bill allows towns to restrict actions at a school district or annual town meeting which alter or modify the result of restricted votes.

**SB 436-FN-L**, relative to aid to the permanently and totally disabled and the property tax exemption for the blind. **OUGHT TO PASS WITH AMENDMENT**

Rep. David M. Perry for Municipal and County Government: SB 436 enables the municipalities to increase the real estate tax exemption to the blind. The amendment references RSA 72:36-b as the procedure for enactment of the increased exemption. Vote 15-0.

5573L

#### Amendment

Amend the bill by replacing all after section 1 with the following:

2 Exemption for the Blind. Amend RSA 72:37 to read as follows:

All applications made under this section shall be subject to the provisions of RSA 72:33 and RSA 72:34.

3 Effective Date. This act shall take effect 60 days after its passage.

Referred to Appropriations.

**SB 447-L**, increasing the rate of interest paid on the amount of taxes abated. **INEXPEDIENT TO LEGISLATE**

Rep. Richard A. Grodin for Municipal and County Government: The General Court enacted the 12 percent charge on overdue taxes to cover municipal borrowing, administrative costs, and to act as a deterrent to nonpayment. Most of the testimony was opposed to the bill which would have penalized a municipality by requiring it to remit, at 12 percent interest, taxes paid and which later had a portion abated by Board of Tax and Land Appeals action. Currently the rate is 6 percent. Except for the sponsor's testimony, all other was in opposition. Vote 14-0.

**SB 311**, exempting certified fire investigators and certain towing companies from licensure under the detective agencies and securities services act, changing the qualification for fire investigators and changing the date for renewal or reinstatement of private detective licenses. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David A. Welch for Public Protection and Veterans Affairs: This legislation makes technical changes in three areas pertinent to the licensing of private detectives A.) Those persons licensed prior to December 31, 1989, who allowed their licenses to lapse, shall be granted renewal or reinstatement, provided that they had not been convicted of a felony in any jurisdiction since lapsing of their license. The New

Hampshire Department of Safety concurred in the grandfathering procedure, on the basis that only a few individuals (5 to 10) are involved. B.) By amendment, the word "federal" has been incorporated into RSA 106-F, so that persons who served for four years as a law enforcement officer in a federal, state, county or municipal police department would be eligible for licensure as a private detective in New Hampshire. C.) Employees of wrecking/towing companies who engage in the repossession of motor vehicles will not be required to be licensed as private detectives, inasmuch as the employees' function is primarily in the nature of "hook on and tow," rather than engaging in "search and seizure" operations. Vote 10-0.

#### Amendment

Amend RSA 106-F:6, VIII(d)(1) as inserted by section 3 of the bill by replacing it with the following:

(1) A minimum of 4 years' experience as [an investigator or] a full-time law enforcement officer with a **federal**, state, county or municipal police department; or

**SB 425-FN-L**, relative to statement of expenses for costs incurred for response to forest and brush fires. OUGHT TO PASS.

Reps. Janet M. Conroy and Peter M. Jankowski for Resources, Recreation and Development: Senate Bill 425 addresses the methodology by which the state reimburses municipalities for costs in fighting forest and brush fires with volunteers. The bill only pertains to municipalities in which there are state-owned lands such as state parks, forests and areas. The fiscal note in the original bill was in error as there is no change in cost to state or municipalities. Vote 15-0.

Referred to Appropriations.

**SB 316**, establishing a committee to study cable television rates and the possibility of introducing competition into the marketplace in order to lower rates. OUGHT TO PASS WITH AMENDMENT.

Rep. Philip M. Ackerman for Science, Technology and Energy: This bill establishes a study committee to determine if Cable TV rates can be controlled with measures to encourage competition. All testimony was favorable. The amendment added members from the telecommunications industry and satellite programmers, who may be competitors to Cable TV, to the makeup of the committee. Vote 8-2.

### REGULAR CALENDAR

**SB 324**, establishing a commission on the family and permitting Jewish Rabbis who are not citizens of the United States to solemnize marriages. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Dorothy C. Bowers for Children, Youth and Juvenile Justice: The amendment clarifies the problem of Jewish Rabbis being able to solemnize a marriage. **SB 378**, transferring duties under the uniform reciprocal enforcement of support act from county attorneys to the office of child support enforcement services. **OUGHT TO PASS WITH AMENDMENT.**

Rep. David R. Connell for Children, Youth and Juvenile Justice: All parties concerned agree that the function should be transferred from the county attorneys to the Division. The bill, as amended, creates a transition process with an oversight team. The bill should be referred to Appropriations despite the absence of a fiscal note. The Division estimates a cost of \$482,791 for FY '93, which is contained in the Senate supplemental budget. Of this, 60 percent or more would be reimbursed with federal funds. The Committee cannot precisely evaluate the Division's estimate. Counties would save some money also. Vote 12-0.

**SB 443-FN**, requiring the division for children and youth services to develop, implement and administer an automated case management system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. William F. McCain for Children, Youth and Juvenile Justice: The Committee endorses this project in the strongest terms. The establishment of the case management system is paramount to the state ever reaching an acceptable level of handling the needs of children. If this system were already in place, the potential multimillions of dollar liability of the "Eric L." lawsuit might have been avoided, or at least reduced. Each state that has settled a similar suit by consent has accepted implementation of a similar system. We need to do it under our control and management, rather than at the direction of a court which is always much more expensive. The Committee is appropriating \$100,000 for acquisition of professional consultants to assist in performing the RFP definition and initial phases of planning. The Division should proceed to bid, let the bid and complete all other necessary aspects, subject to final appropriation in January 1993 time frame. This will insure that the appropriation is adequate to cover the system requirements including hardware, software, line costs, maintenance, personnel needs and training. Once quantified, the project dollars should be of top priority in the budget. Vote 13-0.

**SB 393**, relative to infrastructure development and making appropriations therefor.  
**OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert H. Porter for Economic Development: The bill was heard by two policy committees in addition to the Economic Development Committee. Commerce, Small Business and Consumer Affairs heard sections 5-14 relative to the Pease Development Authority, and Public Works heard sections 19-30 relative to the Port Authority.

Sec. 2-4: The Economic Development Committee concurred with this section establishing a committee to study the feasibility of a technical college in Haverhill.

Sec. 5-14: Commerce Committee accepted Sec. 6 with a re-write, Sec. 10 as is, and Sec. 14 as is. Section 7, relative to financial disclosure of Pease Development Authority members, Commerce reduced the requirements to include income sources over \$10,000 and certain debts over \$5,000. Section 8, relative to requests for proposals, Commerce amended the Senate language to place a floor of \$10,000 on the bid requirements, and require a 5 vote majority for exemption instead of a unanimous vote. Section 9, Commerce generally concurred, but eliminated some language in Sections (c) and (d), which it believed unnecessary. Sections 11-13, Commerce eliminated this part completely, which would create and fund a committee to recommend three candidates to the Pease Development Authority for the Chief Executive Officer

position. Sections 5-14: The Economic Development Committee concurred with the Commerce Committee on Sections 6, 8, and 10-13. Section 7: the majority of the Economic Development Committee felt that all provisions of this section should be dropped pending a uniform policy for the state entities relative to disclosure. Section 8: Economic Development Committee agreed with the less restrictive language proposed by the Commerce Committee. Section 9: Economic Development Committee concurred with Commerce here, except that it reinstated a sentence which specifies the rights of certain parties to appeal in land use issues. Section 11-14: Economic Development Committee concurs with Commerce in eliminating Section 11-13, and went further to eliminate Section 14. The majority felt that these sections removed authority from the Pease Development Authority which it should retain in order to function effectively as a board. NEW SECTION: Strafford County Representative on Pease Development Authority. The majority of both Commerce and Economic Development argued that the Strafford County representative on the Pease Development Authority should be appointed by and accountable to the legislative delegation from that county. It is hoped that this change will improve the structural balances between state, local, and regional interests on the board, with resulting improvement in public relations. Section 15-18: The Economic Development Committee concurred with the Senate in establishing a committee to study the feasibility of a research facility in conjunction with UNH at Pease. The majority decided to add three members to the six-member committee proposed by the Senate; one person from the UNH, one from Pease Development Authority, and one from the public, all three to be appointed by Governor and Council. Economic Development further chose to reduce the state's appropriation of \$25 million to \$1.75 million (\$25 million X .07), to conform with standard public works procedures and commence the development process. Section 19-30, relative to the Port Authority. The Public Works Committee, by a vote of 19-2, voted to eliminate all of these sections, and amend the bill to include only a \$1.5 million appropriation to go forward with planning and design, and establish a dedicated fund. This Committee had serious concerns about several of the sections, and felt that many of the problems would be addressed as the project proceeds through the capital budget process. Sections 19-30: The Economic Development Committee concurred with Public Works, except that it voted to include Section 22, (I and II only), which increases the amount of payments in lieu of taxes payable by the Port Authority to the City of Portsmouth. Vote 14-0.

### Amendment

#### 1 Statement of Purpose Regarding Infrastructure Development.

I. The general court finds that public policies are urgently required to restore the strength and sustain the growth of the economy in order to increase the prosperity and enhance the opportunities of the people of New Hampshire. The general court finds that such public policies must be pursued in a coherent, consistent and comprehensive manner both to meet the immediate challenges and to serve the future interests of the state and its people. The general court also finds that measures to further capital formation, regulatory reform, business assistance, infrastructure development and strategic planning are legitimate, necessary and timely priorities for legislative initiatives. Therefore, the general court has addressed these aspects of public policy in 4 acts which together represent a program to revive and sustain economic growth in New Hampshire.

II. The general court finds that improvement, expansion, and development of the physical infrastructure of the state and the municipalities is necessary to promote and sustain economic activity in its state and its regions. In particular, the general court finds that expansion of the port of New Hampshire and investment at Pease Air Force Base should be undertaken in a timely manner in order to accelerate development of these important facilities.

2 Committee Established. There is hereby established a committee to study the feasibility of establishing a technical college in Haverhill, New Hampshire. The committee shall consist of the following members:

- I. Two senators, appointed by the president of the senate.
- II. Two house members, appointed by the speaker of the house.
- III. The commissioner of postsecondary education, or his designee.
- IV. A selectman from Haverhill, chosen by the selectmen.
- V. A member of the public, appointed by the governor.

3 Meetings; Compensation. The committee shall choose a chairperson from among its members. The members of the committee shall serve without compensation, except that the legislative members shall receive mileage at the legislative rate when attending to the duties of the committee. The first house appointed member shall call the first meeting prior to July 15, 1992.

4 Report. The committee shall make a report on the feasibility of locating a technical college in Haverhill, New Hampshire and submit its recommendations for improvements or changes to the governor, the speaker of the house, the president of the senate and the Haverhill selectmen, on or before November 1, 1992.

5 Statement of Purpose. The closure of Pease Air Force base has presented the seacoast and the state of New Hampshire with a significant opportunity. Successful development of the facility must consider the needs and concerns of the communities in which it is located while providing the vision needed to attract business and industry. Sections 6-13 of this act are intended to aid in the successful economic development of the Pease facility.

6 Approval of Municipality Required. Amend RSA 12-G:2, I(b) to read as follows:

(b)(1) Property conveyed, granted or otherwise transferred to the authority by the federal government or any agency thereof and declared or designated by the authority as the "airport district" in accordance with the procedures prescribed in RSA 12-G:10, II.

(2) Once the "airport district" is defined by the authority, the boundaries of the "airport district" may be expanded, provided, however, that such expanded property shall be taxable by the municipality in which it is located, subject to the provisions of RSA 12-G:11.

7 Requests for Proposal Required. Amend RSA 12-G:7, VIII to read as follows:

VIII. To make and execute agreements, contracts and other instruments necessary or convenient in the exercise of the powers and functions of the authority under this chapter, including contracts with any person, firm, corporation, municipality, state agency, governmental unit, or other entity, foreign or domestic, **provided that no contract in excess of \$10,000, including contracts under paragraphs III and XV, shall be made without requests for proposal. This requirement may be eliminated by an affirmative vote of 5 members of the board on any particular matter. Justification for eliminating the requirement shall be recorded in the minutes of the meeting.**

8 Land Use Controls. RSA 12-G:10, V is repealed and reenacted to read as follows:

V. With the exception of the airport zone and that portion of the airport industrial zone acquired by the Pease development authority pursuant to Surplus Property Act of 1944, section 13-G, in the enforcement of land use controls, the following shall apply:

(a) The authority shall delegate enforcement of the land use controls to the appropriate land use boards of the town of Newington and the city of Portsmouth for property within each municipality, respectively.

(b) If the town of Newington or the city of Portsmouth, as appropriate, rejects the enforcement on the basis of Part I, Art. 28-a of the New Hampshire constitution, the authority may delegate such enforcement to the community which did not reject it or to another community. If the town of Newington and/or the city of Portsmouth elects to perform said enforcement, the building inspection services, zoning enforcement services, and planning services of Portsmouth and/or Newington shall be made available to the authority for all land within the authority's control. In addition, the building code boards of appeal, the zoning boards of adjustment and the planning boards of the respective municipalities shall process building code appeals, administrative appeals, special exception and variance requests, as well as subdivision, site plan review and conditional use applications. The only charge that may be made for such services shall be the standard application fees charged by the municipalities for local permits.

(c) In all instances, the authority shall retain the power to make the final decision regarding applicability, interpretation, and enforcement of its land use controls.

(d) Any action of the authority in the exercise of its powers under this section shall be subject to a motion for rehearing and appeal in accordance with the appropriate provisions of RSA 677. In addition to any other person deemed to be an aggrieved person, the city of Portsmouth and the town of Newington and any abutters shall have standing to appeal land use decisions made by the authority.

(e) Any property located at the former Pease Air Force Base which is sold, leased or otherwise conveyed by the United States government to any person other than the state of New Hampshire or one of its political subdivisions shall be in full compliance with all applicable municipal land use regulations, building codes, electrical codes, plumbing codes and related codes prior to being occupied for any use by any person.

9 New Section; Exclusion for Military Bases. Amend RSA 33 by inserting after section 6-b the following new section:

33:6-c Exclusion from Debt Limit. Any municipality which has voted to acquire land from a United States military base may incur debt by the issuance of bonds or notes beyond the limit of indebtedness as set forth in RSA 33:4, provided that the purpose of the acquisition is to further the economic development of the municipality. Such debt shall at no time be included in the net indebtedness of the municipality for the purpose of ascertaining its borrowing capacity.

10 Strafford County Representative. RSA 12-G:4, I(g) is repealed and reenacted to read as follows:

(g) One member appointed by majority vote of the legislative delegation of Strafford county, including the senators whose districts include towns in Strafford county. The member appointed in this manner shall be a resident of Strafford county and shall serve an initial term of 2 years beginning June 1, 1993. Subsequent terms

shall be governed by the provisions of this section. The member appointed in this manner may be removed from office for cause after hearing by the Strafford county legislative delegation.

**11 Committee Established; Meetings; Report.**

**SB 450-FN**, relative to capital formation. OUGHT TO PASS WITH AMENDMENT.

Rep. Bonnie B. Packard for Economic Development: The purpose of the bill is to revive and sustain economic growth in New Hampshire. This is accomplished by expanding the authority and resources of the Industrial Development Authority (IDA) to be known henceforth as the Business Finance Authority (BFA).

The management of the authority is vested in a board of 14 directors, nine (9) appointed by Governor and Council, who shall hold office for three (3) years. The State treasurer, non-voting ex-officio and two (2) members of the House appointed by the Speaker, two (2) members of the Senate appointed by the President of the Senate, the latter four to serve as non-voting members and whose terms will end when the General Court dissolves each biennium. The bill introduces five (5) programs which advance the objectives set forth in the purpose statement.

1. Aid to local or regional development organizations.
2. Guarantees of loans to small business (as well as temporary loans to business).
3. Secondary market for loans made by local development organizations.
4. Capital Access Program.
5. Capital Asset Backed Guarantee Program.

RSA 162-A is repealed and re-enacted to provide for the Business Finance Authority but leaves intact the tax exempt portion to allow the authority to bundle or package tax exempt issues.

The Committee established under RSA 149:1 in 1991 has been extended through November 1, 1992 to allow for greater oversight as the Business Finance Authority moves into these new programs.

To provide a greater measure of accountability, the BFA is required to hire a consultant to assist in the development and implementation of programs as well as performance indicators and accountability standards.

Conflict of interest and a hearing process have been included in the House amendment. We have also reduced the Notice of Availability from 90 to 60 days.

The underlying principle is to minimize any risk to the State. This provides for our scarce resources to be used to leverage private capital and free up capital to business.

Guarantee of loans to small businesses is primarily designated to fill the gap not addressed by the SBA (Small Business Administration). Small business employs 80 percent of our citizens.

The Capital Asset Backed Guarantee Program is designed for larger companies with greater capital requirements and imposes "super collateral" of 150 percent of principal of any such loan.

The Committee on Executive Departments and Administration held a public hearing on Sections 31-32 of the original bill.

The Committee on Ways and Means held a public hearing on Sections 36-39 of the original bill. That committee recommends those sections be killed. While there is clearly a need for additional venture capital for New Hampshire businesses, the Committee doubts that the proposed deduction against the Business Profits Tax would be sufficient incentive for a company to contribute to a venture capital fund. Additionally, members were concerned about potential loss of state revenue through the "reasonable compensation loophole", as well as the lack of regulation of the qualified venture capital funds.

The Committee on Municipal and County Government held a public hearing on Sections 20-30 and Section 40 of the original bill. That committee's recommendations are included in the proposed amendment. Vote 14-0.

### **Amendment**

Amend the bill by replacing all after the enacting clause with the following:

#### **I Statement of Purpose Regarding Capital Formation.**

I. The general court finds that public policies are urgently required to restore the strength and sustain the growth of the economy in order to increase the prosperity and enhance the opportunities of the people of New Hampshire. The general court finds that such public policies must be pursued in a coherent, consistent and comprehensive manner both to meet the immediate challenges and to serve the future interests of the state and its people. The general court also finds that measures to further capital formation, regulatory reform, business assistance, infrastructure development and strategic planning are legitimate, necessary and timely priorities for legislative initiatives. Therefore, the general court has addressed these aspects of public policy in 4 acts which together represent a program to revive and sustain economic growth in New Hampshire.

II. The general court finds that a dearth of capital severely hinders investment required for the recovery and expansion of the economy. The general court also finds that the authority and credit of state and municipal government can be properly and prudently invoked to expand the supply of capital. Therefore, the general court expands the authority and resources of the industrial development authority to augment the capital for investment in commercial and industrial enterprise. The general court also expands the authority of municipal development agencies to engage in a wider range of activities as well as to strengthen the partnership between state and local government in pursuit of economic development. The general court also finds the want of venture capital for new enterprises especially marked. The general court

recognizes that tax incentives represent appropriate, legitimate, and effective means of marshaling and directing private capital to the establishment and development of new enterprise. Therefore, the general court grants incentives to private entities to contribute to a venture capital fund to invest and reinvested in enterprises operating in New Hampshire.

2 Purpose. The general court finds that the powers of the industrial development authority, to be known henceforth as the business finance authority, should be expanded and modified so that it can effectively serve the capital needs of business in coordination with federal programs and in a manner consistent with the goals and objectives of state government and its political subdivisions. It is hereby declared that the governor and council, the state treasurer, and business finance authority shall be performing a governmental function, advancing a public purpose, and conferring a public benefit in carrying out the provisions of sections 3 - 16 of this act.

III. In order to facilitate the resale of loans acquired under this section the governor and council, at the request of the authority, may award a state guarantee of up to 90 percent of the principal of and interest on such loans. The full faith and credit of the state shall be pledged for such guarantee, but the total amount guaranteed by the state under this section shall be subject to the limit specified in RSA 162-A:8, I and shall not cause the contingent credit limit under RSA 162-A:22 to be exceeded. The state's guarantee of loans under this section shall be evidenced by a guarantee agreement between the state and the purchaser of the loans. Such guarantee agreement shall be assignable to any subsequent purchaser or purchasers of the loans and shall contain such provisions as the authority and the governor and council may deem appropriate. In order to provide additional security to the state for any loan guarantees made under RSA 162-A:8, RSA 162-A:10, or RSA 162-A:13, there is hereby established a loan guarantee reserve fund, which shall be held by the authority apart from all of its other funds, and which shall be deemed

irrevocably pledged to secure all loans guaranteed under RSA 162-A:8, RSA 162-A:10, III, or RSA 162-A:13. Whenever a loan guarantee is awarded under RSA 162-A:8, RSA 162-A:10, III, or RSA 162-A the authority, the borrower, the lending financial institution, the local development organization, the purchaser of the loans, or any appropriate combination of them shall deposit in such fund an amount equal to not less than 10 percent guaranteed portion of the principal of the loan or loans. If a state guarantee is called upon to be honored, the authority, upon direction of its treasurer or assistant treasurer, shall draw upon such fund for the purpose of honoring such guarantee, and only when amounts in the fund are exhausted shall the governor be called upon to draw his warrant pursuant to RSA 162-A:8, II, RSA 162-A:10, III, or RSA 162-A:13, II. Interest earned on amounts invested in the fund shall be accumulated therein or paid to the authority upon its direction. If earnings are paid to the authority, they may be used by the authority for any of its purposes. If at any time the amount in the fund exceeds 10 percent of the guaranteed portion of the principal of all loans guaranteed under this section, or such higher amount as may be determined by the authority, the authority may withdraw the excess. Any loan guaranteed under this chapter shall be a permitted investment in this fund. The authority may enter into such trust agreements, depository agreements, or other arrangements with one or more state banks in order to carry out the purposes of this section.

V. The governor and council shall not award any state guarantee under this section unless after a hearing they have made the findings specified in RSA 162-A:18.

#### 162-A:12 Capital Access Program.

I. The authority may contribute money to funds, to be known as "CAP funds," that shall be held for the benefit of participating state banks. Each such fund shall be held by the authority separate and apart from all other funds of the authority and shall be held exclusively to secure principal of and interest on CAP loans made by a participating state bank.

II. The amount of the authority's contribution to a CAP fund shall not exceed 10 percent of the principal amount of the CAP loans to be secured by the CAP fund. As a condition of the authority making a contribution to a CAP fund, the authority may require the borrower or the participating state bank to make a contribution to the CAP fund and may impose such other conditions or requirements as the authority may deem necessary or desirable. All moneys contributed to a CAP fund shall be held in the name of the authority. Investment earnings on the CAP fund shall be credited to the fund, and such earnings shall be periodically paid to the authority unless the CAP participation agreement otherwise provides.

III. Prior to establishing a CAP fund at a participating state bank, the authority shall enter into a CAP participation agreement with the participating state bank. The CAP participation agreement shall specify:

- (a) The maximum amount of the authority's contributions to the CAP fund.
- (b) The conditions under which the authority will make contributions to the CAP fund.
- (c) The conditions under which the participating state bank may demand payment from a CAP fund to pay a defaulted CAP loan.
- (d) Minimum due diligence procedures for servicing CAP loans.
- (e) Conditions under which the participating state bank or a borrower will be required to contribute to the CAP fund.
- (f) Provision for the payment of authority fees, costs, and expenses from earnings on the CAP fund or otherwise.

(g) Provisions for the termination of the CAP fund, in whole or in part, and disbursement of any excesses in the CAP fund.

(h) Criteria and procedures for qualifying a loan as a CAP loan.

(i) Requirements that the participating state bank report to the authority not less often than annually regarding outstanding balances on CAP loans, delinquent CAP loans and such other information as the authority may deem appropriate.

(j) Permitted investments in the CAP fund.

(k) Other terms and conditions as the authority may deem necessary or desirable.

IV.(a) At a minimum, CAP loans shall meet the following requirements:

(1) The borrower is either a start-up business or did not have annual sales in its most recently completed fiscal year of greater than \$5,000,000.

(2) The total outstanding principal amount of CAP loans to the borrower does not exceed \$500,000.

(3) The proceeds of the CAP loan shall be used for business purposes.

(b) The authority may from time to time impose requirements on CAP loans in addition to those contained in subparagraph (a) or in a CAP participation agreement by written notice to participating state banks, but such additional requirements shall not apply to CAP loans already made, or to CAP loans for which written commitments exist, provided CAP loans from these written commitments are made within 3 months of the date of the written notice. Such notices shall not constitute rules within the meaning of RSA 541-A.

V. The authority shall not initially fund any CAP fund or enter into a CAP participation agreement or any material amendment to a CAP participation agreement, unless after a hearing the governor and council have made the findings specified in RSA 162-A:18.

162-A:13 Capital Asset Backed Guarantee Program.

I. Upon recommendation of the authority for the proper implementation of the declared purposes of this chapter, the governor and council may award a state guarantee of the principal of and interest on any loan made to a business that is or will be operating in the state, provided that the loan does not qualify for a state guarantee under RSA 162-A:8. Such state guarantee shall not at any time exceed 90 percent of the principal of the loan plus interest thereon. The full faith and credit of the state shall be pledged for any such guarantee, but the total outstanding amount guaranteed by the state under this section shall not exceed in the aggregate at any time \$20,000,000 plus interest and shall not cause the contingent credit limit of RSA 162-A:22 to be exceeded.

II. The state's guarantee of a loan under this section shall be evidenced by a guarantee agreement entered into by the state, the lender and the borrower. Such guarantee agreement shall contain such terms and conditions as the authority and the governor and council may impose, including, without limitation, restrictions on the use of loan proceeds, restrictions on the use and operation of any project financed or assisted by the loan, appropriate controls on the requisition of loan proceeds by the borrower, provisions for the state to demand acceleration of the payment of the loan in the event of a default by the borrower, provisions for payment to the authority of guarantee fees and reimbursement of costs and expenses, provisions for reimbursement of the state if the state is required to honor the guarantee, appropriate financial covenants, and provisions for the establishment of reserves. In addition, as a condition of awarding any guarantee, the state shall be subrogated to all of the rights and

security of the lender to the extent it honors the guarantee. Any guarantee agreement authorized in accordance with this section shall be executed on behalf of the state by the chairman, vice chairman, or executive director of the authority. The governor, with the advice and consent of the council, is authorized to draw his warrant for such sum as may be necessary out of money in the state treasury not otherwise appropriated, for the purpose of honoring any guarantee awarded under this section.

III. Any loan guaranteed under this section shall meet the following minimum requirements.

(a) The appraised fair market value of the collateral securing the loan shall not be less than 150 percent of the total principal amount of such loan.

(b) The maximum principal amount of the loan that may be used to finance working capital shall not exceed 20 percent of the total principal amount of such loan.

(c) The final maturity date of the loan shall not be later than the later of 5 years from the date the loan was made or 5 years from the date the project was placed in service, provided that each loan may be renewed or refinanced for up to 2 additional 5-year periods.

(d) After the project has been placed in service, the principal balance of the loan shall be scheduled to be reduced annually by an amount equal to not less than 6 percent of the original principal amount of the loan, provided that in connection with any renewal of a loan such principal reduction shall not be required.

(e) Nine months before the maturity date of any loan the borrower shall be required to give written notice to the authority of whether or not it intends to seek a renewal of the loan.

IV. The amount of any guarantee awarded under this section shall be reduced in proportion to any reduction in the principal balance of the loan.

V. The governor and council shall not award or renew any state guarantee under this section unless after a hearing they have made the findings specified in RSA 162-A:18.

162-A:14 Agreements Commercially Reasonable. Any agreements entered into by the state or the authority under this chapter shall be deemed to be on commercially reasonable terms.

162-A:15 Issuance of Bonds.

I. The authority may issue bonds pursuant to this section which shall be obligations of the authority and not general obligations of the state, except as provided in RSA 162-A:17. Such bonds may be issued from time to time consistent with the purposes and provisions of this chapter to make expenditures in aid of local development organizations under RSA 162-A:7, to make temporary loans to businesses under RSA 162-A:9, to acquire loans under RSA 162-A:10, to fund the guarantee fund established under RSA 162-A:11, to make contributions to CAP funds under RSA 162-A:12, to pay or refund any bonds issued pursuant to this section or interest thereon, or to pay the costs and expenses of the authority. The principal of, and premium, if any, and interest on all bonds shall be payable solely by the authority in accordance with the provisions of this chapter. The bonds shall be issued by the authority in such amounts as the board shall determine, not exceeding in the aggregate at any time \$25,000,000. Bonds of each issue shall be dated, shall bear interest at such rate or rates, including rates variable from time to time as determined by such index, banker's loan rate or other method as may be determined by the authority, and shall mature at such time or times as may be determined by the authority, except that no bonds shall mature more than 30 years from their date of issue. Bonds may be

made redeemable before maturity either at the option of the authority or at the option of the holder, or upon the occurrence of specified events, at such price or prices and under such terms and conditions as may be fixed by the authority prior to the issuance of the bonds. The authority shall determine the form and details of the bond. The bonds may be sold in such manner, either at public or private sale, for such price, at such rate or rates of interest, or at such discount in lieu of interest as the authority may determine.

II. Every bond shall be signed on behalf of the authority by 2 persons designated by the authority. One person shall be a member of the board who is also the chairman of the board, or the vice chairman of the board, or the treasurer of the authority, or an assistant treasurer of the authority. The other person shall be any member of the board or the executive director of the authority. The signatures may be manual or facsimile but at least one signature on every bond shall be manual, unless the bond bears a manual authentication or certification by a bank, trust company or other financial institution, in which case both signatures on behalf of the authority may be facsimile. Interest coupons, if any, shall bear the facsimile signature of one of the persons signing the bond on behalf of the authority. Bonds shall also bear the seal of the authority or a facsimile of the seal. Bonds executed as provided in this paragraph shall be valid notwithstanding that any or all of the persons whose signatures appear on the bond shall have ceased to hold office before delivery of and payment for the bond.

III. Any bonds issued under this chapter may be issued pursuant to and entitled to the benefits of a security document between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state, or by a security document directly between the authority and the purchasers of the bonds. Such security document shall be in such form and executed in such manner as may be determined by the board. Such security document may include the mortgage, pledge, or grant of a security interest in any property of the authority and may pledge or assign, in whole or in part, the revenues held or to be received by the authority, any contract or other rights to receive the revenues, whether then existing or thereafter coming into existence and whether then held or thereafter acquired by the authority, and any proceeds thereof. Such security documents may contain provisions for protecting and enforcing the rights, security, and remedies of the bondholders as may, in the discretion of the board, be reasonable and proper and not in violation of law. Such security documents may include provisions defining defaults and providing for remedies in the event of defaults, which may include the acceleration of maturities and the enforcement of any mortgage, pledge or security interest, and covenants setting forth the duties of, and limitations on, the authority in relation to the custody, safeguarding, investment, and application of moneys, the issue of additional or refunding bonds, the fixing, revision and collection of fees and other revenues, the use of bond proceeds, the establishment of reserves, the acquisition of any property or interest therein or undertaking of any project, any contracts relating thereto and subsequent amendments of such provisions and contracts. It shall be lawful for any bank or trust company to act as a depository or trustee of the proceeds of bonds, revenues, or other moneys under a security document and to furnish such indemnification or to pledge such securities and issue such letters or lines of credit or credit facilities as may be required by the authority acting under the paragraph. Any such security document may set forth the rights and remedies of bondholders and of the trustee and may restrict the individual right of action by bondholders.

IV. Any bonds issued under authority of this chapter may be issued pursuant to lines of credit or other banking arrangements under such terms and conditions not inconsistent with this chapter, and under such agreements with the purchasers or makers thereof, as the board may determine to be in the best interests of the authority. In addition to other security provided herein or otherwise by law, bonds issued by the authority under this section may be secured, in whole or in part, by insurance or by letters or lines of credit or other credit facilities issued to the authority by any bank, trust company or other financial institution, within or without the state, and the authority may make any pledge, mortgage, assignment or security interest in respect of its property and revenues as security for the reimbursement by the authority to the issuers of such letters or lines of credit, insurance or credit facilities, or any payments made thereunder.

V. Any mortgage, pledge or security interest made by the authority under this chapter shall be valid and binding and shall be deemed continuously perfected for the purposes of RSA 382-A and all other laws from the time when the mortgage, pledge, or security interest is made. The property or revenues so mortgaged, pledged, or subjected to a security interest then held or thereafter acquired or received by the authority shall immediately be subject to the lien of such mortgage, pledge, or security interest without any physical delivery or segregation thereof or further act. The lien of such mortgage, pledge, or security interest shall be valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice thereof. No such property or revenues may be used in a manner inconsistent with the terms governing such mortgage, pledge, or security interest. Any agreement by which a pledge or security interest in personal property is created under this chapter shall be filed or recorded in the records of the secretary of state. Any mortgage or other agreement by which a security interest in real property is created under this chapter shall be filed with the register of deeds for the county in which such property is located.

VI. Any owner of a bond issued under the provisions of this section and any trustee under a security document securing the same, except to the extent the rights given in this paragraph may be restricted by such security document, may bring suit upon the bonds and may, either at law or in equity, by suit, action, mandamus, or other proceeding for legal or equitable relief, protect and enforce any and all rights under the laws of the state granted hereunder or under such security document, and may enforce and compel performance of all duties required by this chapter or by such security document to be performed by the authority or by any director or officer of the authority.

VII. The authority may issue refunding bonds for the purpose of paying any bonds issued under the provisions of this section at or prior to maturity or upon acceleration or redemption. Refunding bonds may be issued at such times prior to the maturity or redemption of the bonds being refunded as the board may determine. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium thereon, any interest accrued or to accrue to the date of payment of such bonds, the expenses of issue of the refunding bonds, the expenses of redeeming the bonds being refunded, and such reserves for debt service or other expenses from the proceeds of such refunding bonds as may be required by a security document securing the bonds. The authorization and issue of refunding bonds, the maturities and other details thereof, the security therefor, the rights of the holders thereof, and the rights, duties and, obligations of the

authority in respect to the same shall be governed by the provisions of this chapter relating to the issue of bonds other than refunding bonds insofar as the same may be applicable.

VIII. Any debt service fund or debt service reserve fund established in connection with the issuance of bonds under this chapter shall be kept separate from other moneys of the authority. All proceeds of any bonds issued under this chapter, together with the income derived therefrom, shall be expended without further authorization or appropriation as provided for in the security document with respect to such bonds.

IX. Moneys in any fund or account created under the provisions of this section, subject to the terms and provisions of any security document applicable thereto, may be invested. Except as otherwise provided by any such security document, obligations so purchased as an investment of money in said fund or account shall be deemed at all times to be part of said fund or account, and the interest thereon and any profit arising from the sale thereof shall be credited to said fund or account, and any loss resulting on their sale shall be charged to said fund or account, respectively.

X. The state does hereby pledge to and agree with the holders of bonds issued under this chapter that the state shall not limit or alter the rights hereby vested in the authority to fulfill the terms of any agreements made with the holders of such bonds or in any way impair the rights and remedies of such holders until such bonds, together with the interest on them, with the interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of such bonds.

XI. Bonds issued under this section and their transfer and income, including any profit made on their sale or transfer, shall at all times be exempt from all taxation by or within the state.

XII. Notwithstanding any of the provisions of this chapter or any recitals in any bonds issued under this section, all such bonds shall be deemed to be investment securities under RSA 382-A.

162-A:16 Eligible Investments. Bonds issued under the provisions of this chapter are hereby made securities in which all public officers, agencies and authorities of the state and of its political subdivisions, insurance companies, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency, authority or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state or any political subdivision is now or may hereafter be authorized by law.

162-A:17 State Bond Guarantee.

I. In view of the general public benefits expected to be derived from the authority's activities under this chapter, and their contribution to the social welfare and economic prosperity of the state and its political subdivisions, the governor and council may award an unconditional state guarantee of the principal and interest thereon of bonds issued under this chapter. The full faith and credit of the state shall be pledged for any such guarantees of principal and interest, but the total outstanding amount of bonds guaranteed by the state under this section shall not exceed in the aggregate at any time \$25,000,000 plus interest. In addition, the state shall not award a guarantee under this section if it would cause the contingent credit limit under RSA 167-A:22 to

be exceeded. The governor, with the advice and consent of the council, is authorized to draw his warrant for such a sum out of any money in the treasury not otherwise appropriated, for the purpose of honoring any guarantee awarded under this section. The state's guarantee shall be evidenced on each guaranteed bond by an endorsement signed by the state treasurer in substantially the following form:

The state of New Hampshire hereby unconditionally guarantees the payment of the whole of the principal and interest thereon of the within bond, and for the performance of such guarantee the full faith and credit of the state are pledged.

---

State Treasurer

II. No state guarantee shall be awarded under this section unless the guaranteed bonds are secured by, among other things, any and all fees to be received by the authority in connection with bonds issued under RSA 162-I in an original principal amount equal to or greater than \$1,500,000. In connection with the award of a state guarantee, the governor and council may impose such other terms and conditions as they may deem appropriate concerning the bonds, the use of any property or revenues of the authority, and reimbursement to the state if any state funds are used to honor the guarantee. Such terms and conditions may be contained in an agreement between the state and the authority, to be executed on behalf of the state by the governor and the state treasurer and on behalf of the authority by its chairman, vice chairman, or executive director.

III. Before awarding any state guarantee of bonds under this section the governor and council, after a hearing, shall have made the following findings:

(a) The award of the state guarantee will contribute significantly to the success of the bond issue and the authority's programs under this chapter.

(b) Reasonable and appropriate measures have been taken to minimize the risk of loss to the state and to ensure that any private benefit from the award of the guarantee shall be only incidental to the public purpose served thereby.

IV. The signature of the state treasurer on an endorsement of a state guarantee may be manual or facsimile.

162-A:18 Programs for Public Purpose; Required Findings.

I. The authority shall not take any action described in RSA 162-A:7, IV, 162-A:9, III, 162-A:10, IV, or 162-A:12, V, and the governor and council shall not award any guarantee under RSA 162-A:8, 162-A:10, III or RSA 162-A:13 unless the governor and council have made the following findings:

(a) The proposed action will serve a public use and provide a public benefit.

(b) The proposed action is within the policy of, and the authority conferred by, this chapter.

(c) The proposed action will preserve or increase the social welfare or economic prosperity of the state and one or more of its political subdivisions, and will promote the general welfare of the state's citizens.

(d) The proposed action will promote the orderly development of business activities, create or preserve employment opportunities, or protect the physical environment.

(e) The applicable special findings in paragraph II of this section.

II. Before approving any action referred to in paragraph I, the governor and council shall also make the applicable special findings:

(a) If the action is the expenditure of money pursuant to RSA 162-A:7, the governor and council shall find that the expenditure is consistent with local or regional development plans and policies.

(b) If the action is the award or renewal of a state guarantee pursuant to RSA 162-A:8 or RSA 162-A:13, the governor and council shall find that:

(1) The award or renewal of the guarantee will contribute significantly to the success of the financing; and

(2) Reasonable and appropriate measures have been taken to minimize the risk of loss to the state and to ensure that any private benefit from the award of the guarantee will be only incidental to the public purpose served thereby.

(c) If the action is making of a temporary loan pursuant to RSA 162-A:9, the governor and council shall find that:

(1) The loan will be a significant factor in the continued operation, competitiveness, or expansion of the business receiving it;

(2) The business is of social or economic importance to the region or community in which it is located; and

(3) The risk of loss to the authority as a result of making the loan is reasonable under the circumstances.

(d) If the action is the acquisition of loans from local development organizations pursuant to RSA 162-A:10, the governor and council shall find that:

(1) Such acquisition will make available funds for the local or regional promotion, encouragement, or development of business activities in an area where such funds are needed; and

(2) The loans being acquired do not impose an undue risk of loss to the authority.

(e) If the action is the award of a state guarantee pursuant to RSA 162-A:10, III, the governor and council shall find that:

(1) The award of the guarantee is necessary to sell the loans at a reasonable price;

(2) The proposed use of the proceeds of sale by the authority will promote business activities within the state consistent with the purposes of this chapter; and

(3) Reasonable and appropriate measures have been taken to minimize the risk of loss to the state and to ensure that any private benefit from the award of the guarantee shall be only incidental to the public purpose served thereby.

(f) If the action is the establishment of a CAP fund or the execution or amendment of a CAP participation agreement pursuant to RSA 162-A:12, the governor and council shall find that:

(1) The proposed participating state bank is qualified to participate under the provision of this chapter;

(2) Appropriate measures have been taken to ensure that the participating state bank makes only CAP loans meeting the requirements of RSA 162-A:12, IV;

(3) The proposed CAP participation agreement complies with RSA 162-A:12, III; and

(4) Reasonable precautions have been taken to minimize the risk of loss to the CAP fund.

162-A:19 Hearings.

I. Promptly after the beginning of each calendar year the authority shall conduct a public hearing regarding the use of any available contingent credit limit under RSA 162-A:22. Such hearing may be held before a hearing officer appointed by the author-

ity who shall make a report of the hearing to the board before any final action is taken by the authority that uses a portion of the contingent credit limit.

II. Promptly after the beginning of each calendar year, before the authority makes its first assignment of state ceiling under RSA 162-M, the authority shall conduct a public hearing regarding the use of state ceiling by the authority for that year. Such hearing may be held before a hearing officer appointed by the authority who shall make a report of the hearing to the board before the authority assigns any state ceiling under RSA 162-M:2, III.

III. Any hearing required to be held by the governor and council under this chapter may be held by a single councillor as their designee, who shall make a report of the hearing to the governor and council prior to the making of any findings.

IV. Any hearings held under this chapter shall be for the information of the governor and council or the authority and shall not be treated as determining the rights, duties, or privileges of any entity or person. Neither the authority nor the governor and council shall be required to conduct adjudicative proceedings under RSA 541-A:16-21 in connection with any action taken under this chapter.

V. The authority shall hold the first hearings under RSA 162-A:19, I and II at the beginning of calendar year 1993.

162-A:20 Meetings. The authority shall hold its meetings in a building that is accessible to persons with disabilities. Five voting members of the board shall constitute a quorum, and the affirmative vote of 5 members shall be necessary for any action taken by the board. No vacancy in the membership of the board shall impair the power of a quorum to exercise all rights and perform all duties of the authority. Notwithstanding RSA 91-A or any other law to the contrary, members of the board shall be permitted to participate in meetings by telephone, provided that any board member so participating shall be able to be heard by and to hear every other member of the board participating in the meeting, and, unless the board is meeting in a non-public session as permitted by RSA 91-A:3, shall be able to be heard by all members of the public attending the meeting. Voting members of the board participating by telephone shall be treated as present at the meeting for all purposes, including the establishment of a quorum. Any meeting at which one or more board members are participating by telephone shall be recorded verbatim by magnetic tape or otherwise, and such recording shall be made available for public inspection to the same extent as minutes of the meeting, provided that the accidental destruction of a recording or the accidental failure to record any meeting shall not invalidate any action taken at that meeting.

162-A:21 Revenues of Authority. The revenues received by and due to the authority from any and all sources under this chapter and RSA 162-I shall be retained by the authority and shall be used in such manner as may be determined by the authority consistent with the provisions of this chapter. It is the intent of the legislature that the authority be self-funding and that payment of its operating expenses shall not require state appropriation.

162-A:22 Unified Contingent Credit Limit. The total amount of state guarantees in force under RSA 162-A:8, RSA 162-A:10, III, RSA 162-A:13, RSA 162-A:17, and RSA 162-I:9-a shall not exceed in the aggregate at any time \$40,000,000 plus interest, provided that such amount shall be increased to \$55,000,000 plus interest on January 1, 1993, to \$70,000,000 plus interest on January 1, 1994, to \$85,000,000 plus interest on January 1, 1995, and to \$95,000,000 plus interest on January 1, 1996.

162-A:23 Reports. The accounts of the authority shall be subject to an annual audit performed by an independent certified public accountant selected by the authority. The authority shall submit annually to the speaker of the house of representatives, the president of the senate, the committees on economic development of the house of representatives and the senate, and the governor and council a report on its operations and its audited financial statements for the preceding fiscal year.

162-A:24 Tax Exemption and Payment for Services in Lieu of Taxes. Any property while owned by the authority is declared to be public property and shall be exempt from all taxes and special assessments of the state or any political subdivision of the state. In lieu of such taxes and special assessments, the state or the political subdivision shall require any business that is a tenant, occupant or user of the property to make payments annually to the municipality in which the property is located, for its just share of the public expense, including, but not limited to, education, highway maintenance, fire and police protection and other similar public expenses and governmental services. The board of tax and land appeals shall determine, after a hearing, that the payments constitute a just share of the public expense.

162-A:25 Construction and Effect of Other Laws.

I. The powers conferred by this chapter are supplemental and alternative to other powers conferred by law, and this chapter is intended as an independent and comprehensive conferral of powers to accomplish the purposes set forth in RSA 162-A:1.

II. No notice, hearing, proceedings or approval shall be required with respect to any action taken under this chapter except as provided in this chapter.

III. Purchases and contracts required in connection with a project may be made or let without regard to any provision of law relating to public purchases or contracts.

IV. The provisions of this chapter shall be liberally construed in order to effect its purposes.

V. If any provision of this chapter shall be held invalid in any circumstance, such invalidity shall not affect any other provisions or circumstances.

VI. This chapter shall be construed in all respects so as to meet all constitutional requirements. In carrying out the purposes and provisions of this chapter, all steps shall be taken which are necessary to meet constitutional requirements whether or not such steps are required by statute.

VII. Notwithstanding RSA 541-A or any other provision of law to the contrary, the authority shall be required to adopt rules, under RSA 541-A, only on the topics described in RSA 162-A:6, IV. The authority shall not be required to set forth in rules its fees and charges, any form of agreement to which the authority may be a party, or any form of application. The authority may waive its rules whenever it deems it necessary to carry out the purposes of this chapter or RSA 162-I.

VIII. Neither the members of the board nor any officer or employee of the authority shall be personally liable in ordinary negligence by reason of the issuance of bonds under this chapter or RSA 162-I. The state shall indemnify a board member or officer or employee of the authority for expenses related to defense against an ordinary negligence action. Neither the state nor the authority nor any officer or employee of either of them shall be subject to any liability for actions taken to protect the interests of the state, the authority, or any owner of the authority's bonds, provided that such actions are not reckless or wanton.

162-A:26 Conflicts of Interest. Any person or entity acting as an independent contractor for the authority shall avoid any conflict of interests. No person or entity employed or retained by the authority as an independent contractor shall, while so

employed or retained, represent any interest before the authority other than those of the authority and the state. Any independent contractor who acts in a manner contrary to this section shall be dismissed by the authority unless such independent contractor takes prompt steps to eliminate any conflict of interest after receipt of notice from the authority that such a conflict exists. Nothing in this section shall prevent the authority from requiring any borrower to pay or reimburse the authority for the fees and expenses of any independent contractor in connection with the borrower obtaining assistance from the authority. Notwithstanding anything in this section to the contrary, an independent contractor may, with the written consent of the authority, represent a party other than the authority in connection with the issuance of bonds under RSA 162-I, provided the principal amount of the bond issue is not greater than \$20,000,000.

VI. The hearing required by this section may be held and the findings and determinations so required may be made in conjunction with the proceedings required by RSA 162-I:9.

5535L

#### Amendment

Amend the bill by replacing all after the enacting clause with the following:

1 Estimated Expenditures; Calculation of Catastrophic Aid Payments. Amend RSA 186-C:18, III to read as follows:

III. (a) [The state shall appropriate not less than \$1,000,000 for each fiscal year to assist school districts in meeting catastrophic cost increases in their special education programs.] The state board of education through the commissioner, department of education, shall distribute aid available under this paragraph as entitlement to such school districts as have a special education pupil for whose costs they are responsible, for whom the costs of special education in the fiscal year exceed 3-1/2 times the **estimated** state average expenditure per pupil for the school year preceding the year of distribution. If in any year, the amount appropriated for distribution as catastrophic special education aid in accordance with this section is insufficient therefor, the appropriation shall be prorated proportionally based on entitlement among the districts entitled to a grant[; provided that the amount of catastrophic special education aid per pupil for a district requiring such aid shall not be more than 80 percent of catastrophic costs exceeding 3-1/2 times the state expenditure per pupil for the school year preceding the year of distribution for that district]. If there are unexpended funds appropriated under this paragraph at the end of any fiscal year, such funds shall be distributed [according to the equalizing formula established in paragraph II] **for court-ordered placements under RSA 186-C:19-b**. The state may designate up to \$250,000 of the funds which are appropriated as required by this paragraph, for each fiscal year, to assist those school districts which, under guidelines established by rules of the state board of education, may qualify for emergency assistance for special education costs. Upon application to the commissioner of education, and approval by the commissioner, such funds may be accepted and expended by school districts in accordance with this chapter; provided, however, that if a school district has received emergency

assistance funds for certain educationally disabled children, it shall not receive catastrophic special education aid for those same educationally disabled children. If any of the funds designated for emergency assistance under this paragraph are not used for such emergency assistance purposes, the funds shall be used to assist school districts in meeting catastrophic cost increases in their special education programs as provided by this paragraph.

(b) **The school district shall be liable for 3-1/2 times the estimated state average expenditure per pupil, plus 20 percent of the additional cost, up to 10 times the estimated state average expenditure per pupil.**

(c) **The department of education shall be liable for 80 percent of the cost above the 3-1/2 times the estimated state average expenditure per pupil, up to 10 times the estimated state average expenditure per pupil.** The department of education shall be liable for all costs in excess of 10 times the estimated state average expenditure per pupil.

**2 Liability for Costs Changed. Amend RSA 186-C:7, IV to read as follows:**

**IV. The department of education, bureau of special education services, shall review any individualized education plan which includes a residential placement and for which the total cost of the placement exceeds [\$20,000] 10 times the estimated state expenditure per pupil. After review, the bureau of special education services may recommend an alternative appropriate placement to the local education agency, the superintendent, the individualized education plan placement team, and the parent.**

**3 New Paragraph; Costs of Catastrophic Special Education Aid. Amend RSA 186-C:18 by inserting after paragraph VII the following new paragraph:**

**VIII. A school district shall raise and appropriate funds reflecting the total cost in meeting catastrophic special education student costs as provided under RSA 186-C:18, including the school district and department of education liability. A school district may issue reimbursement anticipation notes as provided for in RSA 198:20-d to be redeemed upon receipt of reimbursement from the state. The department of education shall be liable for the cost of borrowing such funds.**

**4 New Section; Anticipation Notes. Amend RSA 198:20 by inserting after section 198:20-c the following new section:**

**198:20-d Reimbursement Anticipation Notes. Notwithstanding any other provision of law to the contrary, a school district may incur debt in anticipation of reimbursement under RSA 186-C:18.**

**5 Estimated State Average Cost Per Pupil. Amend RSA 186-C:19-b, II to read as follows:**

**II. The school district liability for expenses for special education or for special education and educationally related services for an educationally disabled child in placement for which the division for children and youth services has financial responsibility shall be limited to 3 times the estimated state average cost per pupil, as determined by the state board of education for the preceding school year. The liability of a school district under this section shall be prorated if the placement is for less than a full school year and the district shall be liable for only the prorated amount. This section shall not limit a school district's financial liability for children who receive special education or special education and educationally related services in a public school or program identified in RSA 186-C:10.**

(a) Any costs of special education or special education and educationally related services in excess of 3 times the estimated state average cost per pupil shall be

the liability of the department of education. Costs for which the department of education is liable under this section shall be paid to education service providers by the department of education. The department of education shall develop a mechanism for allocating the funds appropriated for the purposes of this section.

(b) The division for children and youth services shall be liable for all court-ordered costs pursuant to RSA 169-B:40, 169-C:27, and 169-D:29 other than for special education or special education and educationally related services.

6 Effective Date. This act shall take effect July 1, 1992.

#### AMENDED ANALYSIS

This bill allows payments to school districts using estimated expenditures of the school districts.

The school district will be liable for 3-1/2 times the estimated state average expenditure per pupil plus 20 percent of the additional cost up to 10 times the estimated state average expenditure per pupil. The department of education will be liable for 80 percent of the cost above 3-1/2 times the estimated expenditure per pupil up to 10 times the estimated state average expenditure per pupil. The department will be responsible for all costs in excess of 10 times the estimated state average expenditure per pupil.

The current law provides payments to school districts by calculating the state average expenditure per pupil for the school year preceding the year of distribution.

The bill deletes the state minimum appropriation to districts for special education catastrophic cost increases.

This bill requires any individual education plan which includes a residential placement, and for which total education costs exceed 10 times the estimated state average expenditure per pupil, to be approved by the special education bureau of the department of education.

This bill requires a school district to raise and appropriate funds reflecting the total cost of meeting catastrophic special education student costs and to issue reimbursement anticipation notes in anticipation of reimbursement from the state.

This bill also limits school district liability for expenses of special education for which the division of children and youth services has financial responsibility to 3 times the estimated state average cost per pupil. Current law limits such liability to 3 times the state average cost per pupil.

**SB 469-FN**, relative to service retirement allowances and continuing education conferences for retirement system board of trustees. REFER FOR INTERIM STUDY.

**SB 475-FN**, relative to retirement system benefits for withdrawing nongovernmental employees. OUGHT TO PASS WITH AMENDMENT.

Rep. Merton S. Dyer for Executive Departments and Administration: This bill was passed to the House of Representatives by the Senate under suspension of the Senate

rules. The Committee held the first hearing for this bill on March 18, 1992. The subject of this bill and the hearing revolved around the 1991 Legislative Session where the General Court amended the participation of units in the system to allow only governmental entities and units of political subdivisions to be part of NHRS. The original bill, SB 475, changed the conditions of the withdrawal after some of the ineligible units had withdrawn. The amendment proposed by the Committee further defines the conditions of withdrawal. The amendment was drawn by the Subcommittee with the assistance of the House Counsel, Senate Counsel, Retirement System Counsel and the representative of the Attorney General's Office. Legal assistance was requested because of the possible tax and legal implications to the system, the withdrawing unit and its members. The amendment will accomplish the following: 1. The withdrawing unit will receive an additional 3-1/2 percent per annum interest on the present value of the accumulated benefit obligation from February 1, 1992 to date of withdrawal. 2. On May 29, 1992 the assets of the employees' accumulated benefits will be transferred to the successor retirement plan of the non-governmental entity or, if no plan is in place, the funds will be distributed directly to the withdrawing non-governmental employee, subject to the applicable federal income tax withholding requirements. This will occur as soon as is practicable but not later than June 30, 1992. The original conditions of withdrawal allowed these eligible for early retirement on June 30, 1991 to elect this retirement option. This option is still available to them and will not prevent any employee electing this option, up to the time of actual transfer, from continuing or accepting employment with any employer not part of the New Hampshire Retirement System. Section 2 was amended to disallow buy-in of prior service credit with non-governmental employers. This is in keeping with current statutes. Vote 11-1.

#### Amendment

Proposed by the Committee on Executive Departments and Administration

Amend the bill by replacing sections 1 and 2 with the following:

1 Benefits Payable to Withdrawing, Nongovernmental Employees. Amend 1991, 358:2, II to read as follows:

II. All benefits accrued to the time of withdrawal from the system shall be fully vested in such withdrawing, nongovernmental employees and shall be no less than the accumulated benefit obligation. **The system shall pay interest at an annual rate of 3.5 percent on the accumulated benefit obligation of withdrawing, nongovernmental employees from February 1, 1992, to the date such benefits are transferred either directly to the withdrawing, nongovernmental employees or to the successor retirement plan of a withdrawing, nongovernmental employer covering such withdrawing employees.** The system shall cooperate with withdrawing, nongovernmental employers [in their establishing successor retirement plans and shall cooperate] **and employees** in arranging for the transfer of such **withdrawn** employee retirement benefits earned under the system to successor retirement plans [where practicable] **established by the withdrawing, nongovernmental employer, or, in the sole event no such transferee successor retirement plan is sponsored by the withdrawing nongovernmental employer and in effect on May 29, 1992, such transfer shall be made from the system directly to the withdrawing nongovernmental employees.** All benefits to be transferred to such employer-sponsored successor retirement plans shall be withdrawn from the system not later than May 29, 1992.

Those benefits of withdrawing nongovernmental employees then remaining in the system on said date and not so transferred to a successor retirement plan of the withdrawing, nongovernmental employer shall be paid, according to the terms set forth in this paragraph, and subject to applicable federal income tax withholding requirements, directly to the individual withdrawing nongovernmental employees as soon thereafter as is practicable for the system but not later than June 30, 1992.

**2 No Prior Service Credit; Nongovernmental Employer. Amend RSA 100-A:3, VI(e) to read as follows:**

**(e) A petition for prior service credit under subparagraph (a) shall be filed by a member and shall be filed prior to said member's retirement or death. No prior service credit shall be available for any periods of service rendered to a nongovernmental employer. A petition for prior service credit under subparagraph (d) shall be filed within 3 years after the end of the period for which prior service credit is requested.**

#### AMENDED ANALYSIS

During the 1991 legislative session, the general court amended the retirement system statutes to limit participation in the New Hampshire retirement system to governmental entities and political subdivisions of the state. Nongovernmental employers and their employees were required to withdraw from the retirement system no later than June 30, 1991, and the retirement system was required to cooperate with such employers in establishing successor retirement plans and in arranging for the transfer of such employee retirement benefits, where practicable.

This bill changes the requirements which the retirement system must meet as part of the transfer process to successor retirement plans established by the withdrawing, nongovernmental employer, or to the withdrawing, nongovernmental employee.

The bill requires the retirement system to pay interest at the rate of 3.5 percent on accumulated benefit obligation of withdrawing, nongovernmental employees from February 1, 1992, to the date these benefits are transferred either to a withdrawing, nongovernmental employee or to the successor retirement plan of a withdrawing, nongovernmental employer.

The bill also disallows prior service credit for any periods of service rendered to a nongovernmental employer.

**SB 376-FN-A**, relative to congregate services programs. OUGHT TO PASS.

Rep. Marion L. Copenhagen for Health, Human Services and Elderly Affairs: The Committee has been aware of the housing problems of the frail elderly and incapacitated adults for some time. This piece of legislation enables the state to qualify for federal funds under the National Affordable Housing Act and the Farmers Home Administration. It was the sense of the Committee that providing home health services in their homes for this population is a lot less expensive and more humane than putting these people in nursing homes. The Fiscal Note calls for state expenditures of \$200,000 in FY '92 and \$200,000 in FY '93. Vote 10-5.

**SB 471-FN**, authorizing child day care to certain AFDC clients. OUGHT TO PASS.

Rep. Katherine W. Wheeler for Health, Human Services and Elderly Affairs: Currently AFDC recipients enrolled in a four-year postsecondary education program are eligible for child day care assistance only during the third and fourth years of the program. This bill would allow these AFDC recipients to have child day care assistance during any two years of a four-year program. It does not increase the total number of years during which child day care assistance would be available. As there are only 24 AFDC recipients enrolled in four-year educational programs now, and as it requires great tenacity and determination by a single parent even to reach the point of applying to a four-year program, the Committee does not believe that there will be a significant increase in the number of people eligible for this child day care assistance. Vote 11-1.

### SUSPENSION OF RULES

Rep. Robert Foster moved that the Rules be so far suspended as to permit consideration at the present time of **SB 473-FN-A**, relative to a fund for organ transplantation and transferring responsibility from vocational rehabilitation to the division of human services.

**SB 473-FN-A**, relative to a fund for organ transplantation and transferring responsibility from vocational rehabilitation to the division of human services. OUGHT TO PASS.

Rep. Margaret A. Lynch for Health, Human Services and Elderly Affairs: This bill transfers the responsibility for administering the organ transplant program from the Office of Vocational Rehabilitation to the more appropriate Office of the Division of Human Services, Department of Health and Human Services. In addition to placing this responsibility where it logically belongs, it will free up the vocational rehabilitation budget to service 3,750 people currently waiting for assistance through the department. The Fiscal Note calls for state expenditures of \$0 in FY '92 and \$100,000 in FY '93. Vote 12-3.

### Amendment

Amend the title of the bill by replacing it with the following:

## AN ACT

relative to regular sessions of a district court in towns within the district and making a capital appropriation for the Lebanon district court.

Amend the bill by replacing section 2 with the following:

2 Department of Administrative Services; Lebanon District Court Capital Appropriation. The sum of \$500,000 is hereby appropriated to the department of administrative services for the sole purpose of acquiring, renovating, and furnishing a land and building suitable for the Lebanon district court. The department of administrative services is authorized to negotiate the purchase of such land and building within the limits of the appropriated amount. A resulting purchase contract shall receive such review and approval as required by state law. This appropriation is in addition to any other funds appropriated to the department of administrative services.

3 Bonds Authorized. To provide funds for the total of the appropriation of state funds made in section 2 of this act, the state treasurer is hereby authorized to borrow upon the credit of the state not exceeding the sum of \$500,000 and for said purpose may issue bonds and notes in the name and on behalf of the state of New Hampshire in accordance with the provisions of RSA 6-A. The payment of principal and interest on bonds and notes issued for such project shall be made when due from the general funds of the state.

## 4 Effective Date.

I. Section 1 of this act shall take effect January 1, 1993.

II. The remainder of this act shall take effect upon its passage.

## AMENDED ANALYSIS

This bill removes the requirement that certain district courts hold sessions of at least one day per week in certain towns. It imposes a requirement that no session of a district court shall be held in any building which does not meet the minimum standards prescribed by the New Hampshire court accreditation commission.

The bill makes a capital appropriation for the Lebanon district court.

Rep. Lown spoke against the amendment.

The amendment failed.

**SB 314-FN-A-L**, making a supplemental appropriation for the board of tax and land appeals and increasing filing fees for appeals to the board. **OUGHT TO PASS WITH AMENDMENT**

Rep. Karen O. Wadsworth for Municipal and County Government: The purpose of this legislation is to enable the Board of Tax and Land Appeals to handle appeals on a current basis. SB 314 as amended allows the Board of Tax and Land Appeals to increase the filing fee for an appeal from \$40 to \$65. The fee increase is needed to make the agency revenue neutral, and allow for more expeditious disposition of cases brought to the Board. The amendment also corrects a drafting error. Vote 8-4.

#### Amendment

Amend the bill by replacing sections 1-5 with the following:

1 Order for Reassessment; Fee Increased. Amend RSA 71-B:16, I to read as follows:

I. When a specific written complaint is filed with it, by a property owner, within 90 days of the date on which the last tax bill on the original warrant is sent by the collector of taxes of the taxing district, that a particular parcel of real estate or item of personal property not owned by him has been fraudulently, improperly, unequally or illegally assessed. The board shall consider only one complaint from a property owner for each parcel of land until such time as a reassessment has been made. The complainant shall pay a fee of [\$40] **\$65** for each specific particular parcel or specific item of personal property complained of. The board shall send notice by certified mail to the taxpayer against whose property the complaint is made; or

2 Payment of Filing Fee to Board of Tax and Land Appeals Increased. Amend RSA 76:16-a, I to read as follows:

I. After the selectmen neglect or refuse to so abate, in accordance with RSA 76:16, any person aggrieved, having complied with the requirements of RSA 74, upon payment of a [\$40] **\$65** filing fee, may, within 8 months after notice of such tax, and not afterwards, **unless the municipality shall have an additional 2 months to respond to the appeal as provided in RSA 76:16, II**, apply in writing to the board of tax and land appeals which, after inquiry and investigation, shall hold a hearing if requested as provided in this section and shall make such order thereon as justice requires; and such order shall be enforceable as provided hereafter. Property owners who have appealed a tax assessment to the board of tax and land appeals and who receive a tax bill for a subsequent year prior to the time the board of tax and land appeals has acted on the original appeal shall be automatically considered as having appealed the subsequent bill and no further filing fee shall be required. "Notice of such tax" means the date the board of tax and land appeals determines to be the last date of mailing of the final tax bill by the taxing district. The person aggrieved shall state in its appeal to the board either the date of the municipality's decision on the RSA 76:16 application, or that 6 months has passed since the notice of the tax and that the municipality failed to issue a decision in accordance with RSA 76:16.

3 Appeals to Board of Tax and Land Appeals; Filing Fee Increased. Amend RSA 79-A:9, I to read as follows:

I. If the assessing officials deny in whole or in part any application for classification as open space land, or grant a different classification than that applied for, the applicant, having complied with the requirements of RSA 79-A:5, II may, on or

before 6 months after any such action by the assessing officials, in writing and upon a payment of a [\$40] **\$65** filing fee, apply to such board for a review of the action of the assessing officials.

4 Application Fee for Abatement of Taxes Increased. Amend RSA 81:5 to read as follows:

81:5 Abatement of Taxes. The commissioners of the county in which the real estate is situated, for good cause shown, may abate any tax assessed by them in the unincorporated towns or unorganized places. All applications for abatement shall be in writing. If they neglect or refuse to abate, any person aggrieved, having complied with the requirements of RSA 74, may, within 6 months after notice of such tax and not afterwards, apply either by written application to the board of tax and land appeals, or by petition to the superior court in the county, accompanied by a [\$40] **\$65** filing fee, and said board or court, as the case may be, shall make such order thereon as justice requires.

5 Supplemental Appropriations; Board of Tax and Land Appeals. The sums of \$31,414 in general fund moneys and \$20,943 in highway fund moneys for the fiscal year ending June 30, 1992, and the sums of \$63,130 in general fund moneys and \$42,088 in highway fund moneys for the fiscal year ending June 30, 1993, are hereby appropriated to the board of tax and land appeals for the purpose of hiring and compensating one paralegal II, salary grade 18, and 2 executive secretaries, salary grade 10. The bill increases the filing fees for taking appeals before the board from \$40 to \$65. The bill also refers to the additional time a municipality has to respond to a taxpayer's appeal when a reevaluation was performed in the municipality.

**SB 399-FN-L**, requiring rabies shots for cats. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Martha Fuller Clark for the Majority of Municipal and County Government: Several hours of testimony at the hearings, subsequently documented by further research, alerted the committee to the advancing threat of a new strain of rabies approaching New Hampshire. Raccoons have been identified as the principal carriers, placing cats at a greatly increased risk of contacting this disease and transmitting it to humans. While by New Hampshire law RSA 436:99) dogs are required to be inoculated, cats are not. This bill requires that cats also be inoculated against rabies. Rhode Island, Massachusetts and Vermont are also considering similar legislation this session. The committee voted 14-4 Ought to Pass as Amended recognizing this enforcement, including quarantine, for violation of any threat to public health is already provided for under RSA 436:33. Vote 14-4.

Reps. Brungot, Golden and Eva Lawrence for the Minority of Municipal and County Government: The Majority, having voted in the affirmative on SB 399-FN-L, did not change the opinion of the Minority, which found this bill flawed in particular

areas, and, in the first mandated action to immunize cats against rabies, the bill will not increase the number of cats to receive rabies vaccinations. The caring pet owners will continue to have their pets vaccinated for rabies, but those who have not had their pets vaccinated before, due to the expense, will not be able to afford the expense because of this legislation, and the free roaming pets will continue to pose the same threat of uncontrolled rabies.

The prevailing RSAs support legislation that controls vaccination of dogs for rabies, and if the dictates of the statutes are enforced, the threat of rabies among dogs should be minimal.

There is no provision provided in this legislation for enforcement for cats, except in paragraph 436:108, directing the Commissioner of Agriculture to adopt rules pursuant to RSA 541-A.

The scope of Chapter 541-A is rather vague in relation to the Commissioner's authority and the particular action to be implemented. Authority delegated in RSA 436:106, relating to confinement of dogs after vaccination, is directed to the discretion of the local health authority, and amended in 436:108.

The Commissioner shall enforce the provisions of this subdivision for the control of rabies in dogs and cats. The legislation possesses merits of consideration, however, with the purported threat of rabies on the rise, the cat problem is not sufficiently addressed to prevent any increase within the cat population.

The fiscal impact is very unclear, and the methodology does not present a true procedure of licensing, or enforcement of immunization of cats.

Many municipalities now provide clinics for cat and dog vaccinations at a reasonable rate set by participating veterinarians.

In summation, this legislation fails to correct the existing problem of potential rabies outbreak in cats. A more in-depth analysis of the potential problem, coupled with expertise from the state level and Agricultural Department, should be addressed in the implementation of positive legislation relating to cats being immunized against rabies.

#### Amendment

Amend RSA 436:102 as inserted by section 5 of the bill by replacing it with the following:

436:102 Duties of Veterinarian. It shall be the duty of each veterinarian, at the time of vaccinating any dog **or cat**, to complete a certificate of rabies vaccination in duplicate which includes the following information: owner's name and address, description of dog **or cat** (breed, sex, markings, age, name), date of vaccination, rabies vaccination tag number, type of rabies vaccine administered, and manufacturer's serial number of vaccine. Distribution of copies of the certificate shall be: the original to the owner, and a copy retained by the issuing veterinarian. The veterinarian and the owner shall retain their copies for the interval between vaccinations specified in RSA 436:100. A metal or durable plastic tag, serially numbered, shall be securely attached to the collar or harness of the dog. Whenever the dog is out-of-doors, whether on or off the owner's premises, the collar or harness with the vaccination tag shall be worn. **Cats shall not be required to wear the collar or harness with the tag.**

Amend RSA 436:106, II(a) as inserted by section 9 of the bill by replacing it with the following:

(a) **The dog shall be** immediately revaccinated and confined for a period of 30 days following revaccination the owner of the animal [being] **shall be** responsible for any expense incurred. The type of confinement shall be at the discretion of the local health authority. At the completion of confinement, the [animal] **dog** shall be examined by a licensed veterinarian[,], and released if found by said veterinarian to be safe.

Amend the bill by replacing sections 11 and 12 with the following:

11 Cat Added. Amend RSA 436:108 to read as follows:

436:108 Enforcement. [It shall be the duty of] The commissioner [to] **shall** enforce the provisions of this subdivision for the control of rabies in dogs **and cats**, and he shall adopt such rules, **pursuant to RSA 541-A**, as he deems necessary to carry out the intent of this subdivision.

**SB 403-L**, requiring that dogs and cats placed by shelters and pounds be spayed or neutered. **INEXPEDIENT TO LEGISLATE**

Rep. Richard A. Grodin for Municipal and County Government: Testimony on this bill was highly emotional and sharply split. The question centers on the increasing number of feral pet animals. The solution offered by humane organizations would be mandatory neutering of all such animals placed in animal shelters and later adopted, with a fee paid by the adopter. Those opposing the legislation argued against this form of forced compliance. The Committee was unable to discern from the testimony answers to a number of questions about how widespread and how serious the problem is. It received conflicting testimony regarding the experience other states have had with programs similar to this proposal. The Commissioner of Agriculture, in response to our queries, pledged to study the problem and obtain the answers to our unanswered questions. Vote 12-1.

Adopted.

**SB 467-FN-L**, changing the interest rates on delinquent property taxes and subsequent taxes and requiring a certificate of tax payment prior to the moving of a building or structure. **OUGHT TO PASS WITH AMENDMENT**

Rep. John S. Barnes, Jr. for Municipal and County Government: There is a potential problem throughout the state when it comes to the moving of buildings or structures. This bill adds to RSA 80:2-A "any person who fails to comply with the provisions of this section shall be guilty of a misdemeanor." All testimony was favorable on this part of the bill. The amendment deletes a proposal to change the interest on delinquent tax bills from 12% to 8.5% or 5.5% above the average interest on 90-day treasury bills, a change which would have entailed both a \$5.5 million cost to

cities and towns and also an unfunded mandate of \$200-\$400 per year to each municipality. Vote 13-0.

The person or persons moving such building or structure shall hold the receipted tax bill or certificate from the tax collector or selectmen during the period of transit of said building or structure, and upon arrival at its destination, deliver the same to the owner of the building or structure. Rep. Roland A. Frechette for Public Works: This bill provides for the construction of Exit 10 on the Spaulding Turnpike. The project is already authorized on the 10-year plan. The amendment authorizes the Commissioner of the Department of Trans-

portation to separate this project from the east-west highway study after January 1, 1993. Section 2 reclassifies Salmon Falls Road in Somersworth and Rochester as a state highway. Vote 17-0.

### Amendment

Amend the bill by inserting after section 2 the following new section and renumbering the original sections 3 - 4 to read as 4 - 5, respectively:

3 Authority to Begin Studies. Notwithstanding any other provision of law, if the commissioner of transportation, upon review of the status and progress of the preliminary design plans and environmental impact study for the east-west highway provided in 1986, 203:8, as amended by 1988, 266:2; 1990, 244:2 and 3; and 1991, 255:3, determines on January 1, 1993, that substantial delay in completing the draft environmental impact statement or the determination of a recommended alternative for an east-west highway will likely occur beyond the March 31, 1993, completion deadline for an east-west highway, he may initiate preliminary engineering studies, environmental studies, and right-of-way acquisitions for the construction of exit 10 on the Spaulding turnpike. **SB 333**, relative to a Piscataqua River basin council. **INEXPEDIENT TO LEGISLATE.**

Rep. Howard C. Dickinson for Resources, Recreation and Development: The Committee believes that, while Senate Bill 333 is well intended, a number of agreements and compacts already exist in the seacoast/Great Bay area. These include the New England Interstate Water Pollution Control Compact, the Maine-NH Commission on Oceanography, the Commission to Study Uniform State Laws, the Commission on Interstate Regional Planning Compact, the Atlantic States Marine Fisheries Compact, the Interstate Flowage Compact, and the Interstate Sewage and Waste Disposal Compacts, as well as the Gulf of Maine Council on the Marine Environment and the New England Governor's Conference, Inc. There is no question that a number of opportunities already exist for cooperation, communication, and exchange of information, both formal and informal, in the Piscataqua River Basin. New Hampshire has been aggressive and effective in addressing the pollution, planning, harbor management and safety issues of this area. Any further proliferation of effort at this time is unjustified. It should be emphasized that this does not prevent interested parties from both Maine and New Hampshire from discussing points of mutual interest at any time and place. Vote 14-1.

Adopted.

**SB 375**, allowing the division of parks and recreation to give rewards for information leading to the recovery of stolen division property. **OUGHT TO PASS WITH AMENDMENT.**

Reps. Mary Ann Lewis and Leonard A. Smith for Resources, Recreation and Development: Senate Bill 375, as amended, authorizes rewards being paid by the Division of Parks and Recreation for information leading to the recovery of stolen Division property or information leading to the arrest of persons committing theft and vandal-

ism. Furthermore, it sets a policy whereby nonresident skiers over 70 years of age may ski free at the state ski areas, during the week and have free entrance to all state recreation facilities. At present, only residents over 65 can ski free on week days. This policy is consistent with that of all other states and European countries. Vote 14-2.

Persons qualifying under this section shall be allowed to use any state-owned facility within the recreation area without charge for the use of the facility, except persons qualifying under this section shall be charged the usual fee for the use of so-called "uphill devices" on Saturdays and Sundays. **SB 441-FN-A**, establishing a statewide enhanced 911 system and continually appropriating a special fund. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Charles C. Vogler for Science, Technology and Energy: This bill would establish a statewide Enhanced "911" emergency response system similar to that in 39 other states. Calls to the "911" system would be routed to a central State-run command post which would direct the appropriate local emergency response service to the scene. The "Enhanced" portion of the system would automatically provide caller identification and location through the telephone company data base. The "911" system would be funded through a surcharge on each telephone line in the state; with a cost, which when fully operational, of about 60 cents/month/line. **HB 1502**, relative to a non-binding state referendum question concerning a personal income tax. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Shawn N. Jasper for Ways and Means: This bill provides a mechanism for the voters to express their opinion directly on the issue of an income tax. Since the next Legislature will be facing a sizeable revenue shortfall, as well as continuing demands for property tax relief, the majority believes it would be helpful to know if our constituents consider an income tax as an acceptable revenue source. Voters will be asked if they oppose an income tax, favor an income tax without restriction, or favor an income tax on the condition that at least 75 percent of the money is guaranteed to be returned to cities, towns and school districts. We have provided what we believe is a well-balanced explanation of each question so that the voter will be better able to understand the implications of each choice. While the referendum is not legally binding, it will certainly provide clear direction for lawmakers in 1993. Vote 12-7.

5633L

**Amendment**

Amend subparagraphs II(b) and (c) as inserted by section 1 of the bill by replacing them with the following:

(b) I favor a state tax on personal income without restriction. (By selecting this choice you are indicating that you favor a state income tax, but wish to allow the legislature to determine both the tax rate and how the revenue raised will be used.)

(c) I favor a state tax on personal income, provided that at least 75 percent of the revenue raised from such a tax shall be returned to the cities, towns, and school districts. (By selecting this choice, you are indicating that you favor an income tax with the tax rate set by the legislature, but wish to guarantee that at least 75 percent of revenue raised is used for local purposes. Property taxes may go up or down, depending on local government decisions. The formula for returning these funds to local government will be determined by the legislature.)

**AMENDED ANALYSIS**

This bill requires a 3-part non-binding referendum question concerning a personal income tax to be placed on the November, 1992 general election ballot.

Adopted.

Reps. David Young and Welch offered a floor amendment.

5685L

**Floor Amendment**

Amend subparagraph II(c) as inserted by section 1 of the bill by replacing it with the following:

(c) I favor a state tax on personal income, provided that at least 75 percent of the revenue raised from such a tax shall be returned to the cities, towns, and school districts. (By selecting this choice, you are indicating that you favor an income tax with the tax rate set by the legislature, but wish to guarantee that at least 75 percent of revenue raised is used for local purposes. Property taxes may go up or down, depending on local government decisions. The formula for returning these funds to local government will be determined by the legislature. Depending on the distribution formula chosen by the legislature, each community may or may not receive 75 percent of the revenues raised in that community.)

Reps. Young, Welch and Donna Sytek spoke in favor.

Reps. Domaingue and Nielsen spoke against.

Roll call request sufficiently seconded.

The question being the adoption of the floor amendment.

Rep. Gross addressed the House by unanimous consent.

Thank you Mr. Speaker. I would like to read you a short list of names of members of the House. Richard Trelfa, Philip Rodgers, Fredrik Peyron, Bert Teague, Paul White, Patricia Dowling, Robert Porter, Charles Vaughn, Peter Burling, Marie Hawkinson, Bonnie Packard, Beaton Marsh, Arthur Klemm, William Tsiros, Mildred Beach, Robert Wheeler, David Cote, William McCann and Daniel Burnham.

When the Senate chose to take some twenty-odd separate Economic Development bills and combine them into three super bills that had to be acted on today in time to get to Appropriations, they created for this body, that did not until this year have an Economic Development Committee, an almost impossible task. We did not have the time to unravel those three super bills and send the separate pieces to the separate policy committees, among whom were the Commerce Committee, Municipal and County Government Committee, the Executive Departments and Administration Committee, the Public Works Committee and the Ways and Means Committee. In addition to grappling with these major new issues in Economic Development, this Committee had to coordinate with the other House policy committees on these bills and get a report to you in the Calendar in time for us to look at it today. With all the good intentions in the world, we were not sure that it could be done. They did it. On behalf of all of us I think we owe that Committee a vote of thanks.

Rep. Gross moved that the House stand in recess for the purpose of introduction of bills and enrolling reports only.

2 Non-Prescription Drug Sale or Possession. Amend RSA 318:42, V to read as follows:

V. The sale and distribution of [proprietary medicines] **nonprescription drugs** as defined in RSA 318:1, XVIII by **non-pharmacy retail stores and outlets. **SB 453-FN**, relative to involuntary commitment procedures. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Marion L. Copenhaver for Health, Human Services and Elderly Affairs: The purpose of this bill is to address a serious problem for families with adult children who are mentally ill. This bill gives community mental health centers or facilities legal authority to tell families that provide care for their adult members the basic facts about their illness, their treatment, medications and their side effects. It also allows mental health facilities or health care providers to exchange health information with the same safeguards to the client. Under the present confidentiality laws the right hand is prevented from knowing what the left is doing. This bill allows for limited guardianship only for health care reasons, as a result of involuntary emergency admission. Vote 14-0.

Prior to requesting such information the facility shall in writing request the person's consent for such request for information. If the consent cannot be obtained the facility shall inform the person in writing of the care providers who have been requested to provide information to the facility pursuant to this section. The facility may disclose such information as is necessary to identify the person and the facility which is requesting the information. No care provider who discloses otherwise confidential information to a designated receiving facility following a request made pursuant to this section shall be held civilly or criminally liable for disclosing such information.**

I. Within 3 days after an involuntary emergency admission, not including Sundays and holidays, and subject to the notice requirements of RSA 135-C:24, there shall be a probable cause hearing in the district court having jurisdiction to determine if there [is] was probable cause for involuntary emergency admission. The burden shall be on the petitioner to show that probable cause [exists] **existed**. The court shall render its written decision as soon as possible after the close of the hearing, but not later than the end of the court's next regular business day.

## REGULAR CALENDAR

**SB 363**, relative to health insurance coverage of autologous bone marrow transplants. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS.**

Rep. Patricia A. Fair for the Majority of Commerce, Small Business and Consumer Affairs: This is a very difficult and emotional issue since it affects the life and death of those with end stage breast cancer. The bill proposes to have insurers pay for autologous bone marrow transplants (ABMT) for breast cancer clinical trials done under protocols established the National Cancer Institute. Currently, ABMT is considered standard treatment for the leukemias, neuroblastomas and Hodgkin's disease. There is disagreement in the medical community about whether or not the procedure is experimental, investigatory or standard treatment in the case of breast cancer.

There are 24 sites nationwide that are conducting clinical trials on ABMT and breast cancer. Mary Hitchcock and Dana Farber are the regional clinical trial sites. A clinical trial (according to the National Cancer Institute) is designed to answer research questions on treatments such as surgery, radiation therapy, chemotherapy or biological therapy. Although the treatments being studied appear to be promising, they may be as effective, more effective, or less effective than standard therapy. The treatments described may also have side effects. Each study enrolls patients with certain types and stages of cancer and similar health status. These are called "entry criteria." ABMT for breast cancer can only be received at one of the 24 sites in the country. Those sites receive research grants from the National Cancer Institute for physicians costs, drugs, research assistants, data analysis and university overhead, but not patient costs. Women who meet the clinical entry criteria and wish to participate must obtain payment for their hospital costs from some other source such as insurance, donations, etc. Once accepted into the clinical trials, a detailed informed

consent (10 pages in the case of Dana Farber) is required and monitoring by the institution's Human Subjects (Research) Committee is required. The cost of the procedure averages \$120,000. The survival rate nationally, at this time, is 30%.

This bill would pay only for clinical trials for women who had health insurance through an insurance carrier. It is important to know who this bill does not cover: those who work for entities that self-insure (currently 65% of the insureds in the state); those on Medicaid, those on Medicare and the 100,000 women who lack health insurance in New Hampshire. The majority of those left to whom this bill applies would be small and moderate sized businesses who purchase their health insurance. Should one of these cases occur in a small business, such as the one in Amherst who had one high cost case resulting in annual premiums per employee of \$17,000, there is the risk of increasing the number of the uninsured.

The subcommittee held two additional meetings, solicited medical, financial and legal information from Mary Hitchcock Hospital, the Norris Cotton Cancer Center and the insurance industry. Unfortunately, all parties have a conflict as there are financial implications whichever way the decision is made. The two groups who could provide an independent opinion regarding the status of the ABMT (whether it is experimental or standard therapy), the New Hampshire Medical Society and the New Hampshire Chapter of the American Cancer Society could not take a position on the bill at this time. The New Hampshire Medical Society recommends further study and the American Cancer Society expects to have its formal opinion in June. What is being asked of lay people is to make a complex decision without sufficient, unbiased evidence. The committee in a vote of 13 to 5 determined that further information and time is needed on this bill prior to a final vote and therefore established a study committee to continue to look at this issue and make a final recommendation regarding legislation by November 1, 1992. The study committee is composed of members of the House and Senate, the Insurance Department, Mary Hitchcock Hospital, insurance companies, the public, the New Hampshire Medical Society, the New Hampshire Hospital Association and the New Hampshire Chapter of the American Cancer Society. This study is needed to determine the following:

1. Is ABMT for breast cancer still experimental/investigatory or is it standard treatment?;
2. If it is standard treatment, is it so in all cases or in some? What are those cases?;
3. What methods of funding should there be for women who agree to participate in clinical trials?;
4. What is the appropriate payment mechanism for experimental or investigatory procedures?;
5. Would this be considered an unfunded mandate on cities, towns, counties and school districts since we are mandating that a certain coverage be offered on health insurance policies? Vote 13-5.

Rep. Thea Braiterman for the Minority of Commerce, Small Business and Consumer Affairs: Lengthy and substantial testimony before the Committee clearly demonstrated that autologous bone marrow transplants are no longer experimental, but are considered a medical necessity. The cost to insurers, according to industry testimony, is only pennies per policy because only 9-12 women each year require this treatment. This is the same procedure that restored Senator Tsongas to health and is now found to be effective for certain breast cancers. Insurers in Maine, Massachusetts and Vermont reimburse policy holders for this procedure when medically required; but New Hampshire Blue Cross/Blue Shield and some other New Hampshire insurers refuse to

do so. The Minority believes that this glaring inequity in the payment for hospital costs of autologous bone marrow transplants for qualified breast cancer patients must be corrected. The amendment to SB 363 creates an elaborate and unnecessary study committee. The delay caused by such a study would cost lives, engender litigation and increase costs to all. We recommend that SB 363 ought to pass without amendment.

Rep. Burnham moved that the words Ought to Pass be substituted for the report of the Committee, Ought to Pass with Amendment spoke in favor and yielded to questions.

Rep. William Riley requested a quorum count.

The Speaker declared a quorum present.

**SB 385**, to provide insurance coverage for court-ordered psychiatric and psychological services. **OUGHT TO PASS**

Rep. Patricia A. Fair for Commerce, Small Business and Consumer Affairs: This bill prohibits health insurers from denying insurance benefits for psychiatric and psychological services solely because they are rendered in compliance with a court order. In some cases, coverage has been denied that normally would have been paid for if it had not been court ordered. This does not add a new mandate. Rather it requires coverage when services are provided within the terms and limitations of the policy. Vote 12-4.

Adopted.

Ordered to third reading.

**SB 327**, establishing a committee to study the effects of substance abuse on health care costs of the state. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Marilyn P. Senter for Health, Human Services and Elderly Affairs: Originally, the proposed study committee would have looked into only health care costs resulting from substance abuse. The Committee and sponsors, feel that all costs, including but not limited to educational, judicial, correctional and health care, should be looked into; therefore two additional members are to be included, one from New Hampshire DWI Prevention Council and one from the Administrative Office of the Courts. Vote 16-0.

Rep. Marion L. Copenhaver for Health, Human Services and Elderly Affairs: The Committee rejected an amendment to Senate Bill 327 that would have exempted the Pease Development Authority from abiding by the Certificate of Need Review Board process that determines need in New Hampshire. The Committee did not support the concept of circumventing a law that is working well to give special consideration to only one rehabilitation hospital from Massachusetts that is not even accredited by the

commission that oversees rehabilitation facilities. Furthermore, no one could substantiate the statement that about 500 jobs would be created in the Pease area. At best the few jobs generated would be at the entry level, i.e., housekeeping, janitorial, etc. The Committee supports the carefully planned development of Pease, but felt the amendment did not fulfill this goal. Vote 2-16.

### **Amendment**

Amend the title of the bill by replacing it with the following:

Adopted.

Report adopted.

Ordered to third reading.

### **RECONSIDERATION**

Having voted with the prevailing side, Rep. Warburton moved that the House reconsider its action whereby it read a third time and passed **SB 321**, repealing an exemption for town clerks relative to voter registration, and return the bill to second reading.

Reps. Warburton, Gross and Trombly spoke in favor.

Reconsideration prevailed and the question was to order the bill to third reading.

Rep. Warburton offered a floor amendment.

5745L

### **Floor Amendment**

Amend the bill by replacing section 5 with the following:

5 Permitting Changes in Party Affiliation with Town or City Clerk. Amend RSA 654:34-a, I to read as follows:

1. A town or city [may] **shall** permit changes in party affiliation to be registered with a town or city clerk.

6 Effective Date. This act shall take effect 60 days after its passage.

#### AMENDED ANALYSIS

This bill amends the election laws by:

(1) Repealing the provision in the election laws which permits a town to vote to have the supervisors of the checklist, rather than the town clerk, accept applications from persons to have their names added to the checklist.

(2) Requiring town and city clerks to accept applications from such persons according to certain conditions.

(3) Repealing the provision in the election laws which requires a city or town to vote to permit applications for changes in party affiliation to be made with the city or town clerk, and requiring that cities and towns shall permit such applications for changes in party affiliation.

Gross offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet April 21 at 1:00 p.m.

#### UNANIMOUS CONSENT

Rep. Lown moved that the remarks of Rep. Lozeau be printed in the Journal.

Adopted.

Rep. Lozeau addressed the House by unanimous consent.

Thank you Mr. Speaker. We passed two laws relative to habitual offenders this year. It has been brought to my attention by the Department of Corrections, that some counties, now that the law has passed, are assuming that they can send some of their inmates up to the State. This clearly was not our intent.

I have written a small blurb that I will read. If it is moved to be put in the Journal, it will allow the state correctional facility to show the counties what our intent clearly was.

Committee Intent Relative to HB 410:

The 1992 Legislative Session passed new laws relative to habitual offenders. This is meant as a clarification of the intent of the new language.

In HB 410, amending 651:2, V, a-f, the intent was simply to be specific in including the "county correction facilities," relative to alternative sentencing. It was brought to the attention of the House Judiciary Committee, that when the Legislature adopted the policy relative to alternative sentencing, while it intended the same options for the county, but it was not clearly stated.

The new language does not allow the county to pass on or include its inmates in alternative sentencing programs operated by the State Correctional System. Rather, the intent is to allow counties the opportunity to institute their own programs for their own inmates.

Rep. Guay addressed the House by unanimous consent.

Rep. Greenglass moved that the remarks of Rep. Searles be printed in the Journal. Adopted.

Rep. Searles addressed the House by unanimous consent.

### This is My Land

This is my land oh treasured pile oh hallowed ground I tread, the mornings greet me fresh with dew the noontimes quickly fled, the evenings are my twilight zone and nighttime is my bed.

Its cities in their glories rise to touch the clouds above, its sleepy towns lie quietly like the cooing of the dove, each one a kingdom by itself each one a work of love.

Her streams go roaring on their way like torrents crashing down, from might rivers to babbling brooks through hills and fields and towns, and the laughter of her splashing surf on beaches as it pounds.

She ruptures forth her spume of fire volcanos might roar, and geysers up her waters font into the sky to soar, them vomits from her bowels deep the richness of her core.

Her mountains rise in majesty then slip to lonesome plains, from snow-capped peaks of blinding white to miles of waving grains, and forests green with verdant life wet with tender rains.

Its might belching industries like giant statues stand, its heaven a canopy of blue that covers all the land, from the modes little bungalow to the shores of sun bleached sand.

I love this might land of mine its sorrows smiles and zest, I love the chance to stand for her to live her worst and best, and when at last my race is run to sleep within her breast.

Rep. Gross moved that the House stand in recess for the purpose of enrolling reports only.

Adopted.

The House recessed at 5:23 p.m.

#### RECESS

Rep. Michael Hill moved that the House adjourn.

Adopted.

### COMMITTEE REPORTS CONSENT CALENDAR

**SB 392**, relative to guardians ad litem, was removed at the request of Rep. Scott Green.

**SB 436-FN-L**, relative to aid to the permanently and totally disabled and the property tax exemption for the blind, was removed at the request of Rep. Baroody.

**SB 384**, relative to foreclosures and sale of mortgaged property, was removed at the request of Rep. Baroody.

Consent Calendar adopted.

**SB 397**, relative to long-term job supports for severely disabled persons. **INEXPEDIENT TO LEGISLATE**.

Rep. Pamela B. Bean for Appropriations: This bill would expand the supported employment program by providing long-term job support to severely disabled persons to enable them to maintain their employment. Since we only had testimony from one person at the public hearing and the committee found that at the present time there is no money for the existing program, we feel that it would be unwise to add more people to an unfunded program. Vote 18-0.

**SB 411-FN**, relative to special education catastrophic aid. **(A) OUGHT TO PASS WITH AMENDMENT**.

Rep. Mary Jane Wallner for Appropriations: The amendment would make the Department of Education liable for the cost of school district borrowing of funds for special education student costs in excess of 10 times the estimated state average expenditure per pupil. This bill and a similar bill, HB 1468, address a serious problem facing our local school districts which have very high cost special education placements. The estimated cost of interest to the state would potentially be a maximum of \$13,000 and would come from the Department of Education existing appropriations. Vote 18-0.

5806L

**Amendment**

Amend RSA 186-C:18, VIII as inserted by section 3 of the bill by replacing it with the following:

VIII. A school district shall raise and appropriate funds reflecting the total cost in meeting catastrophic special education student costs as provided under RSA 186-C:18, including the school district and department of education liability. A school district may issue reimbursement anticipation notes as provided for in RSA 198:20-d to be redeemed upon receipt of reimbursement from the state. The department of education shall be liable for the cost of the school districts borrowing of any funds for special education student costs over 10 times the estimated state average expenditure per pupil.

**SB 414-FN**, authorizing a pilot program in one county for investigative services for attorneys providing counsel to indigent defendants. OUGHT TO PASS.

Rep. Robert G. Holbrook for Appropriations: Appropriations agrees with the House that this pilot program to provide investigative services for counsel for indigent defense is a good idea to start in one county to be selected by the Judicial Council. There is no appropriation in this bill. Vote 18-0.

**SB 425-FN-L**, relative to statement of expenses for costs incurred for response to forest and brush fires. (A) OUGHT TO PASS.

Rep. David E. Cote for Appropriations: This bill requires fire wardens to include the cost of services rendered by volunteers in their statement of expenses incurred in fighting forest and brush fires. There is no fiscal impact on state, county, or local revenues or expenditures. Vote 20-0.

**SB 446-A**, authorizing construction of exit 10 on the Spaulding turnpike from bonds previously authorized and changing the classification of the Salmon Falls road in Rochester and Somersworth to class II. (A) OUGHT TO PASS.

Rep. Janet R. Pelley for Appropriations: No appropriation is involved in this bill that separates the construction of exit 10 on the Spaulding Turnpike from the East-West highway terminus study. This project is already authorized in the Department of Transportation 10-year plan. Section 4 reclassifies Salmon Falls Road in Rochester to the New Hampshire-Maine state line in Somersworth, approximately 6.99 miles, as a state highway. Vote 19-0.

**SB 462-FN**, relative to optional allowances and beneficiaries under the New Hampshire retirement system. (A) OUGHT TO PASS.

Rep. Channing T. Brown for Appropriations: This bill allows children of a member of the system to be named as beneficiaries. There is a time period for a retired member under certain conditions to nominate a child or children as beneficiaries. There is little or no effect on costs to the system. Vote 16-0.

**SB 471-FN**, authorizing child day care to certain AFDC clients. (A) OUGHT TO PASS.

Rep. John P. Chandler for Appropriations: While this bill extends the situations under which AFDC recipients are eligible to receive two years of child day care service payments, it should not increase the overall number of recipients. Consequently, no appropriation has been added to this bill. Vote 15-1.

**SB 472-FN**, relative to the victims' assistance fund, the definition of obscene material, modifying sexual assault statutes, and continuing a study committee.(A) OUGHT TO PASS.

Rep. Channing T. Brown for Appropriations: This bill modifies the sexual assault statutes and adds specific penalties for a person convicted of aggravated felonious sexual assault and continues the joint ad hoc committee to study the rape laws. Although there is no immediate fiscal note, stricter penalties in the future will impact the costs to the corrections system. Vote 19-0.

**SJR 1-FN**, requiring the department of education to develop a computer education program for public schools. OUGHT TO PASS.

Rep. Charles L. Vaughn for Appropriations: The Department of Education will prepare, develop and administer information about health and safety issues inherent in computer use in public schools. District superintendents, working with the Commissioner of Education, will then distribute booklets arranging instructional training sessions within their school districts. Any cost would be absorbed by the department or raised privately. Vote 18-2.

**SB 350**, expanding the membership of the task force on mental health and criminal justice and continuing the study of the interactions between the mental health and criminal justice systems. OUGHT TO PASS

Rep. Peter Hoe Burling for Judiciary: This bill continues the task force on mental health and criminal justice, and expands the membership by adding nine additional members. Vote 11-0.

**SB 353**, relative to copying recordings. INEXPEDIENT TO LEGISLATE

Rep. Peter Hoe Burling for Judiciary: The Committee could not discern a strong reason for adopting this bill, particularly since there is a better argument for adopting provisions relative to theft by copying which would cover all forms of media or printed material. Vote 11-1.

**SB 427-FN**, requiring the registration of sexual offenders. OUGHT TO PASS WITH AMENDMENT

Rep. Richard H. Campbell, Jr. for Judiciary: This bill requires registration of convicted sexual offenders with the state police, and requires them to report their addresses to local police. Registration lasts for life in case of felonious or aggravated felonious sexual assault; 10 years in case of misdemeanor sexual assault. The amendment is a re-draft to clarify confusing provisions, fill in gaps, and to add annual reporting - not just on change of address. Vote 10-2.

The division shall enter the information concerning the person's location in New Hampshire and notification in the LENS system.

632-A:14 Duty to Report. Any person required to be registered under this subdivision shall be required to report his current mailing address and place of residence or temporary domicile to the local law enforcement agency. Such report shall be made annually within 30 days after each anniversary of the person's date of release from custody following conviction, or after each anniversary of the person's date of establishment of residence in New Hampshire if convicted elsewhere, and additionally within 30 days after any change of address or place of residence. Forms for reporting shall be provided by the department to each municipal police and county sheriff department, and shall include a copy to be receipted and returned to the person filing the report and a copy to be forwarded to the division. The division shall include such address report information in the LENS system, and shall also use the information to maintain a current address in the person's criminal record as maintained under RSA 106-B:14.

632-A:15 Change of Address; Duty to Inform. When any person required to be registered under this subdivision changes his residence he shall give written notification of his new address to the local law enforcement agency to which he last reported under RSA 632-A:14 within 10 days of such change of residence. Such notice shall not relieve the person of his duty to report under RSA 632-A:14 at the new place of residence. The local law enforcement agency receiving such notice shall forward a copy to the division within 3 days after receipt. The division shall notify the local law enforcement agency at the new place of residence, or the appropriate out-of-state law enforcement agency if the new place of residence is outside New Hampshire, and shall include such change-of-address information in the LENS system.

632-A:16 Duration of Registration.

I. Any sexual offender convicted of a violation of RSA 632-A:2 or 632-A:3, or of an equivalent offense in an out-of-state jurisdiction, shall be registered for life.

II. Any sexual offender convicted of a violation of RSA 632-A:4, or of an equivalent offense in an out-of-state jurisdiction, shall be registered for a 10-year period from the date of release following conviction, provided that any such registration period shall not run concurrently with any registration period resulting from a subsequent conviction.

632-A:17 Confidentiality. Any records established or information collected pursuant to the provisions of this subdivision shall be classified as confidential under RSA 91-A:5, IV and shall be made available only to law enforcement officials and their authorized designees or to the individual requesting his own record in the LENS system. However, nothing in this section shall be construed to limit access to a person's criminal record under the provisions of RSA 106-B:14, including address information obtained under the provisions of this subdivision.

632-A:18 Rules. The department shall adopt rules, pursuant to RSA 541-A, relative to forms and procedures for the administration of this subdivision.

632-A:19 Penalty.

III. Any person who violates the provisions of RSA 632-A:17 shall be guilty of a violation.

2 Applicability. This act shall not apply to persons convicted of a sexual offense prior to the effective date of this act.

3 Effective Date. This act shall take effect January 1, 1993.

**HR 62**, urging the President of the United States and Congress to repeal the tax on unemployment compensation benefits at any level and rate. **OUGHT TO PASS.**

Rep. Peter Hoe Burling for State-Federal Relations: This Resolution calls upon Congress to do the right thing and repeal all taxation levied upon unemployment benefits. The Committee did the right thing and voted Ought to Pass unanimously. We ask the House to join us. Vote 14-0.

## REGULAR CALENDAR

**SB 306-FN-A**, allowing bonus payments in recognition of service during the Persian Gulf War and making an appropriation therefor. **OUGHT TO PASS WITH AMENDMENT.**

Reps. Charles W. Ferguson and Robert A. Johnson for Appropriations: Appropriations could not determine the number of bonuses that would be required and thus could not finalize a total figure. It was felt that when the Secretary of Defense finally declares the end of hostilities, we would be able to make this determination and then would appropriate the correct funds. Thus we have left intact the policy decision of paying a bonus, but postponing payment. Vote 19-1.

Rep. Thomas Christie moved that the words Refer for Interim Study be substituted for the report of the Committee, Ought to Pass with Amendment and spoke in favor.

Rep. Rubin spoke in favor.

Reps. Ferguson and Welch spoke against.

Roll call request sufficiently seconded.

The question being the adoption of the substitute motion.

5936L

### Floor Amendment

Amend the bill by replacing all after the enacting clause with the following:

1 Benefits Payable to Withdrawing, Nongovernmental Employees. Amend 1991, 358:2, II to read as follows:

II. All benefits accrued to the time of withdrawal from the system shall be fully vested in such withdrawing, nongovernmental employees and shall be no less than the [accumulated benefit obligation] **greater of the accepted actuarial benefit calculations. The system shall pay interest at the same rate which is actually earned on retirement system investments on all benefits from June 30, 1991, to the date these benefits are transferred or April 30, 1992, whichever is later.** The system shall cooperate with withdrawing, nongovernmental employers in their establishing successor retirement plans and shall cooperate in arranging for the transfer of such employee retirement benefits earned under the system to successor retirement plans where practicable. **When the transfer of such employee retirement benefits is not practicable, the system shall cooperate in the transfer of such employee retirement benefits to individual employee successor accounts or plans. All benefits not transferred by May 29, 1992, shall be paid to individual nongovernmental employees subject to applicable federal income tax withholding requirements, if any.**

2 Effective Date. This act shall take effect upon its passage.

### AMENDED ANALYSIS

During the 1991 legislative session, the general court amended the retirement system statutes to limit participation in the New Hampshire retirement system to governmental entities and political subdivisions of the state. Nongovernmental employers and their employees were required to withdraw from the retirement system no later than June 30, 1991, and the retirement system was required to cooperate with such employers in establishing successor retirement plans and in arranging for the transfer of such employee retirement benefits, where practicable.

This bill adds new requirements which the retirement system must meet as part of the transfer process, when the transfer of such employee retirement benefits earned under the system to successor retirement plans is not practicable.

In addition, the bill requires the retirement system to pay interest at the same rate which is actually earned on retirement system investments on all benefits from June 30, 1991, to the date these benefits are transferred or April 30, 1992, whichever is later.

Rep. Nardi spoke in favor and yielded to questions.

Rep. Lovejoy spoke in favor.

Rep. William Boucher spoke against.

Reps. Ward and Dyer spoke against and yielded to questions.

The floor amendment failed.

The Committee report was adopted.

Ordered to third reading.

**SB 437-FN**, relative to the New Hampshire Dental Service Corporation. OUGHT TO PASS WITH AMENDMENT.

Rep. John B. Hunt for Commerce, Small Business and Consumer Affairs: This bill brings Delta Dental out of 1961 session chapter law and into the RSAs. Delta now will be treated much like Blue Cross with Insurance Department oversight and regulation. The major and most controversial change is that the majority of the board must be members of the public and not members of the New Hampshire Dental Society. Vote 14-3.

#### Amendment

Amend the bill by replacing all after the enacting clause with the following:

1 New Chapter; Delta Dental Plan of New Hampshire. Amend RSA by inserting after chapter 420-D the following new chapter:

#### CHAPTER 420-E

#### DELTA DENTAL PLAN OF NEW HAMPSHIRE, INC.

420-E:1 Definitions; Scope of Chapter.

I. In this chapter:

(a) "Commissioner" means the New Hampshire insurance commissioner.

(b) "Contract holder" means any proprietorship, partnership, corporation, association, union or other organization which contracts or may contract for dental care for its employees or members and their dependents.

(c) "Delta" means Delta Dental Plan of New Hampshire, Inc., formerly known as New Hampshire Dental Service Corporation.

(d) "Dental care" means dental services ordinarily provided by licensed dentists in accordance with accepted standards of the dental practice of the community at the time the service is rendered.

(e) "Participating dentist" means a provider who has entered into a contract with Delta to provide dental care.

(f) "Provider" means any person duly authorized and licensed to practice dentistry under the laws of the state in which the dental care is provided.

(g) "Public member" means a resident of the state of New Hampshire who is not a dentist, or the spouse of a dentist, or an employee of an association of dentists, or the spouse of a director or officer of Delta or a person who has a significant financial interest in any entity or organization which provides dental or other health care services to Delta.

(h) "Subscriber" means an individual entitled to receive dental care pursuant to a written agreement between Delta and a contract holder.

II. In accordance with 1961, 345, Delta was incorporated as New Hampshire Dental Service Corporation on July 26, 1966, and has operated since the date of its incorporation, as a voluntary corporation under RSA 292. Delta received recognition from the Internal Revenue Service as a section 501(c)(4) tax-exempt organization on February 21, 1973, and has operated as a tax-exempt organization since that date. The articles of agreement, by-laws and all contracts between Delta and its participating

dentists and contract holders in effect on or before January 1, 1993, shall survive and be in full force and effect, except as modified by this chapter. Delta's principal place of business shall be in Concord, New Hampshire.

III. Delta shall be governed by this chapter and shall be exempt from this title, except for the provisions of RSA 400-A:39 and 1961, 345; provided, however, if any of the provisions of 1961, 345 are inconsistent with this chapter the provisions of this chapter shall prevail. Delta and its agents shall be subject to the fees prescribed for hospital and medical service corporations under RSA 400-A:29, VII.

420-E:2 Directors. The number of directors who shall manage the business and affairs of Delta shall be at least 12 and not more than 15, all of whom shall be residents of the state of New Hampshire, and a majority of whom shall be public members.

420-E:3 Agent License.

I. No person, for himself or in behalf of any person, shall sell or offer to sell any Delta benefit plan, as is provided for in this chapter, without being licensed by the commissioner.

II. Upon written notice by Delta of its appointment of a person to act as its agent, the commissioner shall issue, if he is first satisfied that the appointee is a suitable person and intends to hold himself out in good faith as an agent and upon payment of the proper fee by the applicant, to the appointee a license to act as such agent.

III. A license previously issued may be renewed upon the application of Delta upon payment of the proper fee.

IV. The commissioner, at any time after granting such license, for cause shown and after notice and hearing, may determine such licensee to be unsuitable to act as such agent, and shall thereupon revoke such license and notify both Delta and the agent of such revocation.

V. Unless revoked by the commissioner, or unless Delta by written notice to the commissioner cancels the agent's authority to act for it, such license issued to an agent, or any renewal thereof, shall expire on June 14 of the second year after its issue.

VI. If a person acts or aids in any manner in the negotiation of Delta contracts, or solicits or receives any application for such contracts, without a license from the commissioner, or if the license granted to him or Delta for whom he acts as agent has been revoked, he shall be guilty of a violation; but any contract issued on an application thus procured shall bind Delta if otherwise valid. This paragraph shall not apply to any clerical employee of Delta, or to any persons rendering their services without compensation.

420-E:4 Filing and Approval of Contracts. Delta shall not revise or modify any contract or issue a new contract to a contract holder until it shall have filed with the commissioner a copy of the form of such amendment, modification or contract, including all riders and endorsements, and until the commissioner's approval shall have been obtained. Any form of amendment, modification or contract not disapproved by the commissioner within 90 days after the filing, shall be deemed to have been approved as filed.

420-E:5 Contracts with Contract Holders. Every contract between Delta and a contract holder shall be in writing, a copy of which shall be furnished to the contract holder and shall contain the following provisions:

I. A statement of the amount payable to Delta by the contract holder and the manner in which such amount is payable.

II. A statement of the nature and extent of the benefits to be provided, and if any benefits are to be limited or excepted, an enumeration of such limitations or exceptions shall be printed with the same prominence as the statement of benefits conferred.

III. A statement of the terms and conditions upon which the contract may be cancelled or otherwise terminated at the option of either party.

IV. A statement that the contract includes endorsements and attached papers, if any, and that it comprises the entire contract.

V. A provision that no statement by the contract holder in its application for a contract shall void the contract or be used in any legal proceeding on the contract unless an exact copy of the application is included or attached to the contract.

VI. A statement of the grace period which will be allowed the contract holder for making any payment due under the contract. Such period shall be not less than 10 days.

420-E:6 Rates and Contracts to be Approved. Delta shall file with the insurance commissioner a full schedule of the rates to be paid by contract holders and shall obtain the commissioner's approval prior to implementing any rate changes. The commissioner may refuse such approval if he finds the rates are excessive, inadequate, or discriminatory.

420-E:7 Cancellation or Nonrenewal.

I. No contract with a contract holder authorized under this chapter shall be cancelled by Delta, except for nonpayment of premium, unless the contract holder receives a notice of cancellation in accordance with this section. Notice of cancellation for breach of the contract by the contract holder shall be delivered to the contract holder or mailed to the contract holder's last address as shown in the records of Delta at least 10 days prior to the effective date of the cancellation. Notice of cancellation for lack of participation shall be delivered to the contract holder or mailed to the contract holder's last address as shown in the records of Delta, at least 30 days prior to the effective date of the cancellation.

II. No contract with a contract holder authorized under this chapter shall be nonrenewed by Delta, except for nonpayment of premium, unless the contract holder receives either a notice of nonrenewal or an offer of renewal in accordance with this section. The notice of nonrenewal or offer of renewal shall be delivered to the contract holder or mailed to the contract holder's last address as shown in the records of Delta at least 30 days prior to the renewal date of the contract.

420-E:8 Investments. Delta shall invest its funds as provided for in RSA 411-A.

420-E:9 Financial Report and Examination.

I. Delta shall file with the commissioner, within 120 days of the close of this fiscal year, a report verified by an appropriate official of Delta, showing its financial condition on the last day of the preceding fiscal year.

II. Such report shall include:

**HR 63**, proclaiming October 12, 1992, as Native American Day, which day also commemorates the 500th anniversary of the arrival of Christopher Columbus. INEXPEDIENT TO LEGISLATE.

Rep. Lowell D. Apple for State-Federal Relations: While the Committee members were unanimous in supporting the intent of the resolution recognizing native Americans, the Majority of the Committee voted against passage based on opposition expressed by representatives of the Sioux nation and certain other Native Americans who appeared at the hearing. The Sioux spokesman said that his people do not celebrate the arrival of Columbus, and would find it offensive to have that date identified as a day for recognition of Native American peoples. They advised the Committee that the Native American Congress has not yet agreed on a date for recognition of Native Americans. They said that they will be sure to notify us when that happens so New Hampshire can participate in celebrating Native American cultures and contributions on a date on which all Native American Nations can agree. Vote 9-4.

Rep. McIlwaine spoke to the bill

Adopted.

**HR 67**, urging the President of the United States to formally recognize the free and sovereign republic of Croatia. OUGHT TO PASS.

Rep. George N. Katsakiores for State-Federal Relations: Additional information submitted by the sponsors and made available to anyone by the Committee chairman includes overwhelming documentation of the history of the Croatian struggle for freedom from Communistic control. Having been recognized as an independent state by most nations both in Europe and other countries around the globe, and citing the overwhelming support our nation has given to the cause of "human rights," the Committee supported the resolution. Vote 9-4.

Rep. Welch spoke in favor.

Rep. Scott Green spoke against.

**SB 436-FN-L**, relative to aid to the permanently and totally disabled and the property tax exemption for the blind. (A) REFER FOR INTERIM STUDY.

Rep. Robert E. Murphy for Appropriations: When this bill reached the House, it was assigned to the Committee on Municipal and County Government. This committee was faced with a completely new subject which resulted in confusing the policy as between the Senate Committee on Public Institutions/Health and Human Services and the House Committee on Municipal and County Government and the Committee on Health, Human Services and Elderly Affairs. A policy amendment was submitted by a senator which was serious in scope and should be addressed by the appropriate policy committee. Vote 17-2.

Rep. Baroody requested that the question be divided.

The Speaker ruled that the question was divisible.

Rep. Baroody moved that the words Ought to Pass for Sections 2 and 3 of the bill be substituted for the report of the Committee, Refer for Interim Study.

## COMMITTEE REPORTS

### CONSENT CALENDAR

Rep. Gross moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

**SB 382**, establishing a study committee on the selection, nomination and confirmation of judicial appointees, was removed at the request of Rep. Lougee.

Consent Calendar adopted.

**SB 445-FN**, establishing a committee to study issues relating to the fishing industry. **INEXPEDIENT TO LEGISLATE.**

Rep. Richard W. Lougee for Fish and Game: In testimony to the Committee, the Director of the Department of Resources and Economic Development (DRED) exhibited a willingness to work cooperatively with those groups affected by this bill. There already exists a Marine Use Advisory Committee to the department made up exactly of those constituent groups this bill seeks input from. The Committee did not find enough evidence of dissatisfaction with the department's stewardship of public piers and facilities (under its legislative mandate to operate in a business-like manner) to warrant a large study committee that is unlimited in scope, limited in time, and non-specific in its goals. Users are better served by working with the department or through their local representatives with specific legislation. Vote 17-0.

**SB 346**, relative to certain restraining orders and requiring arrest for certain violations of such restraining orders. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Donnalee M. Lozeau for Judiciary: This bill allows the court the same powers for divorce, annulment and separation that it has relative to domestic violence in the area of restraining orders. It also provides for a person violating the restraining order (by committing certain crimes) to be arrested. The amendment changes an inequity in the definition of a household member. Vote 11-1.

5893L

### Amendment.

Amend the title of the bill by replacing it with the following:

#### AN ACT

relative to certain orders of protection and to certain restraining orders and requiring arrest for certain violations of such restraining orders and modifying the definition of household member.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 5:

2 Child Protection Act; Household Members. Amend RSA 169-C:28-a, I and II to read as follows:

I. For the purposes of this section, "household member" shall mean any person living with the parent, guardian or custodian of a child from time to time or on a regular basis who [is involved] **interacts with the child either** occasionally or regularly [with the care of the child].

II. Any petition filed under RSA 169-C:7 shall include the name of any household member **who is alleged to have abused or neglected** [of] the child [who is the subject of the petition, if any].

3 New Subparagraph; Child Protection Act; Household Members. Amend RSA 169-C:28-a, III by inserting after subparagraph (c) the following new subparagraph:

(d) Stay away from the home, another party, or the child.

4 Child Protection Act; Objection to Order. Amend RSA 169-C:28-a, IV to read as follows:

IV. If a household member objects to any order issued under paragraph III, he shall object in writing to the court having jurisdiction within 5 days after receipt of notice of the order. The court shall hold a hearing to consider the objection [before requiring compliance with the order]. Upon good cause shown, the court may excuse the household member from the provisions of the order as they apply to him. **A request for hearing shall stay the effect of the order, unless the court finds that such a stay is not in the best interests of the child.**

#### AMENDED ANALYSIS

This bill permits the superior court to issue temporary or permanent restraining orders ex parte after the filing of a libel for divorce, annulment, separation or a decree of nullity.

This bill also requires that a person who violates a restraining order by committing certain crimes shall be arrested.

This bill also modifies the definition of "household member" under RSA 169-C and authorizes the court, upon the filing of a petition under the child protection act, to issue an order requiring a household member to stay away from the home, another party, or the child. The household member may appeal the order.

**SB 348**, establishing a committee to study the present and future needs of the correctional system. **OUGHT TO PASS WITH AMENDMENT**

Rep. Alf E. Jacobson for Judiciary: The bill establishes a committee to study the present and future needs. The amendment reduces the membership from 17 to 14 and changes some members so as to achieve a balance of members that also can focus on such areas as alcohol abuse, legal assistance and mental health services. The amendment also limits the study to the state correctional system and includes, as an objective of study, the special needs of women in prison. Vote 13-1.

5899L

#### Amendment

Amend the bill by replacing sections 1 and 2 with the following:

1 Statement of Purpose. The general court finds that it is in the public interest to have a correctional system capable of safely and humanely incarcerating those individuals placed in its custody. The general court also recognizes that for this to be accomplished a comprehensive study of the state correctional system is now needed to plan for the future demands that will be placed upon the system.

2 Study Committee Established; Membership. There is established a correctional system review committee to study all areas of state policy having an effect on the

ability of the state to serve its inmate population and to meet future demands upon the correctional system. The committee shall consist of the following members:

I. One senate member from the senate judiciary committee, appointed by the president of the senate.

II. One senate member from the senate capital budget committee, appointed by the president of the senate.

III. One house member from the house judiciary committee, appointed by the speaker of the house.

IV. One house member from the house public works committee, appointed by the speaker of the house.

V. One member of the public, appointed by the speaker of the house.

VI. One member of the public, appointed by the president of the senate.

VII. An attorney representing the New Hampshire public defender's office, appointed by the office.

VIII. A county attorney, appointed by the New Hampshire Association of Counties.

IX. One member representing the office of alcohol and drug abuse prevention, appointed by the director of such office.

X. One attorney appointed by New Hampshire Legal Assistance.

XI. One member representing the department of education, appointed by the commissioner of education.

XII. One member appointed by the director of the division of mental health services.

XIII. A member of the medical profession with expertise in medical services but not an employee of the prison system, appointed by the governor.

XIV. A representative of the New Hampshire State Employees Association, appointed by the association.

Amend section 3 of the bill by inserting after paragraph VIII the following new paragraph:

### REGULAR CALENDAR

**SB 304-FN-A**, relative to business assistance and institutional arrangements.(A) OUGHT TO PASS.

Rep. David E. Cote for Appropriations: This bill accomplishes the following: (1) authorizes the Industrial Research Center at UNH to enter into a research partnership with Dartmouth College, with a focus on bio-tech research and development; (2) extends the reporting date for the New Hampshire economic development commission's long-term strategic plan from June 30 to September 1, 1992; (3) changes the name of the administrator of federal-state financial information to the coordinator of federal funds; and (4) adds a member to the oversight committee at the Industrial Technology Research and Innovation Center at the Durham UNH campus. The sum of \$500,000 (which is in the supplemental budget) will be appropriated to the Economic Development Fund. Vote 19-1.

Adopted.

Ordered to third reading.

**SB 319**, separating the AFDC standard of need from the AFDC payment standard, increasing the AFDC standard of need and increasing medicaid eligibility for pregnant women and children.(A) OUGHT TO PASS WITH AMENDMENT.

Rep. Douglas E. Hall for Appropriations: The part of this bill dealing with the AFDC standard of need is identical to that already passed by both House and Senate in HB 1468. This bill also increases the eligibility level for Medicaid for pregnant women and infants from 133% of the poverty level to 150%. Approximately 215 individuals will become newly eligible for Medicaid health care. National studies show that extending services to this high risk population will result in lower expenditures for neo-natal intensive care (very expensive!) in subsequent years. Any such savings would occur only in FY 94 and later.

The committee amendment changes the effective date to July 1, 1992 and limits eligibility of children to those under age 1. The appropriation of \$492,093 in general funds, if it is to occur, will be dealt with by the conference committee on HB 1025.

Although, because of deadlines, the committee makes the above recommendation, we will ask that this bill be laid upon the table until the budget numbers are resolved in the committee of conference on HB 1025. Vote 16-2.

The expense of the program will now require general funds starting in FY 93; however, federal matching funds not available to the counties will be available to the state.

Although, because of deadlines, the committee makes the above recommendation, we will ask that this bill be laid upon the table until the budget numbers are resolved in the committee of conference on HB 1025. Vote 17-1.

## LAID ON THE TABLE

Adopted.

**SB 393**, relative to infrastructure development and making appropriations therefor. (A) OUGHT TO PASS.

Rep. Robert G. Holbrook for Appropriations: This is one of the three economic development bills designed to spur the development of New Hampshire and bring back a robust climate for business, industry and all citizens. The bill (1) establishes a committee to study the feasibility of a technical college in Haverhill, NH; (2) requires approval of a municipality before expansion of an airport district; (3) clarifies local jurisdiction with respect to land use control issues; (4) makes a contingent bonded appropriation to the University of New Hampshire for a research facility; (5) releases money appropriated for the expansion of the Port of New Hampshire; and (6) authorizes bonds for the UNH research facility preliminary design and site planning. Vote 19-0.

Rep. Holbrook yielded to questions.

**SB 438-FN-A**, relative to the department of transportation equipment inventory fund and making an appropriation therefor. (A) OUGHT TO PASS WITH AMENDMENT.

Rep. Merle W. Schotanus for Appropriations: This amendment proposes an alternative funding method to the Senate proposal to bond \$7,000,000. to match federal highway (ISTEA) funds and \$5,000,000. for highway betterments in HB 1025-A and HB 1026 respectively. The amendment proposes meeting the highway funding needs by increasing the gasoline tax 4¢ per gallon, phased as follows: 1.5¢ effective June 1, 1992; 1.5¢ effective January 1, 1993; and 1¢ as of July 1, 1993. This will provide

needed funds for highway betterment projects and federal ISTEA match in FY 93, and to increase municipal bridge aid and assist municipalities and charitable organizations in mass transit in FY 94. A 4¢ increase in the gas tax will ultimately yield \$19,200,000. for the highway fund and \$2,800,000. for towns and cities in FY 93 and FY 94. The basic subject of SB 438-FN-A, which establishes a revolving equipment fund in the Department of Transportation, will become an amendment to HB 1026. Vote 19-1.

Rep. Gross moved that the words Refer for Interim Study be substituted for the report of the Committee, Ought to Pass with Amendment, spoke to her motion and yielded to questions.

Reps. Hager, Schotanus, John Chandler, Kurk and Ferguson spoke in explanation of the proposed Committee amendment.

Rep. Guay spoke against the amendment and yielded to questions.

106-H:1 Statement of Purpose. The general court of the state of New Hampshire declares that the interests of the state's citizens will be served by a coordinated state-wide enhanced 911 system, utilizing 911 as the primary emergency telephone num-

ber, which will develop and improve emergency communication procedures and facilities with the objective of reducing the response time to emergency calls for law enforcement, fire, medical, rescue and other emergency services.

106-H:2 Definitions. In this chapter:

I. "Automatic location identification" or "ALI" means the system capability to identify automatically the geographical location of the telephone being used by the caller and to provide a display of that location at the public safety answering point.

II. "Automatic number identification" or "ANI" means the system capability to identify automatically the calling telephone number and to provide a display of that number at the public safety answering point.

III. "Bureau" means the bureau of emergency communications, established by the commission under RSA 106-H:3.

IV. "Commission" means the enhanced 911 commission established in RSA 106-H:3.

V. "Commissioner" means the commissioner of the department of administrative services.

VI. "Emergency services" means fire, police, ambulance, rescue and other service of an emergency nature identified by the bureau.

VII. "Enhanced 911 system" and "enhanced 911 services" means a system consisting of selective routing with the capability of automatic number and location identification at a public safety answering point, which enables users of the public telecommunications system to request emergency services by dialing the digits 911.

VIII. "Enhanced ANI/ALI" means the capability of a municipality or other political subdivision to receive ANI and ALI displays from 911 calls routed from the public safety answering point.

IX. "Private safety agency" means a private entity which provides emergency police, fire, ambulance, or medical services.

X. "Public agency" means the state government and any unit of municipal or county government located within the state which provides or has authority to provide firefighting, law enforcement, ambulance, medical or other emergency services.

XI. "Public safety agency" means a functional division of a public agency which provides firefighting, law enforcement, ambulance, medical, rescue or other emergency services.

XII. "Public safety answering point" means a facility with enhanced 911 capability, operated on a 24-hour basis, assigned the responsibility of receiving 911 calls and transferring or relaying emergency 911 calls to other public safety agencies or private safety agencies.

XIII. "Relay routing" means the method of responding to a telephone request for emergency service whereby a public safety answering point notes pertinent information and relays it by telephone to the appropriate public safety agency or private safety agency for dispatch of an emergency service unit.

106-H:9 Funding; Fund Established.

I. The enhanced 911 system shall be funded through a surcharge to be levied upon each residence and business telephone exchange line, including PBX trunks and Centrex lines, trunks and lines serving cellular communications towers in the state,

and semi-public coin and public access lines. No such surcharge shall be imposed upon more than 25 lines per customer billing account. The surcharge shall be contained within tariffs filed with the public utilities commission and shall be billed on a monthly basis by each local exchange telephone company. Each local exchange telephone company shall remit the surcharge amounts on a monthly basis to the enhanced 911 services bureau, which shall be forwarded to the state treasurer for deposit in the enhanced 911 system fund. Such fund shall be continually appropriated to the bureau and shall not lapse. The moneys in the account shall not be used for any purpose other than the development and operation of enhanced 911 services, in accordance with the terms of this chapter. Surcharge amounts shall be reviewed after the budget has been approved or modified, and if appropriate, new tariffs shall be filed with the public utilities commission reflecting the surcharge amount.

II. Imposition of the enhanced 911 services surcharge shall begin not later than 4 months from the approval of the budget, in order to provide adequate funding for the development of the enhanced 911 data base and other operations necessary to the development of the enhanced 911 system.

106-H:10 Municipal Cooperation. Each municipality is encouraged to establish a customer data base containing information to identify the location of each telephone number within the municipality. Customer information provided under this chapter may be used only for the purposes of responding to emergency calls or for the investigation of false or intentionally misleading reports of incidents requiring emergency services.

106-H:11 Enhanced ANI/ALI Capability. Municipalities or other political subdivisions may petition the bureau for the provision of equipment which will facilitate or expand the enhanced 911 capability of a dispatch office. The bureau shall review any application for enhanced ANI/ALI capability to determine if the requested equipment will be fully coordinated with the primary public safety answering point in operation and services.

106-H:12 Confidentiality.

I. Automatic number identification and automatic location identification information consisting of the address and telephone numbers of telephone subscribers whose listings are not published in directories or listed in directory assistance offices is confidential. Such confirmation will be provided on a call-by-call basis only for the purpose of handling emergency calls and any permanent record of such information shall be secured by the public safety answering point and disposed of in a manner which will retain that security except as otherwise required by applicable law.

II. Any telephone subscriber may notify the bureau that a member of the household or business served by the telephone line has a physical impairment or otherwise has special needs. This information shall be accorded the same confidentiality as all other identifying information, and shall be used only as necessary for the provision of emergency services.

106-H:13 Penalty for False Information. Any person who dials or otherwise causes 911 to be called for the purpose of making a false alarm or complaint or purposely reports false information which could result in the dispatch of emergency services shall be guilty of a misdemeanor.

2 New Subparagraph; Special Fund. Amend RSA 6:12, I by inserting after subparagraph (uu) the following new subparagraph:

(vv) Moneys received under RSA 106-H which shall be credited to the enhanced 911 system fund established in RSA 106-H:9.

3 New Paragraph; Duty Added. Amend RSA 21-P:6 by inserting after paragraph VI the following new paragraph:

**SB 443-FN**, requiring the division for children and youth services to develop, implement and administer an automated case management system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Douglas E. Hall for Appropriations: The bill requires the Division of Children and Youth to plan and design an automated case management system and appropriates \$100,000 for that purpose. The committee amendment (1) specifies more

tightly what is to be included in the planning; (2) ensures that all plans are submitted to the state's new Office of Information Technology Management for review; (3) removes the Fiscal Committee from the bill; and (4) prohibits any planning consultants from bidding on subsequent hardware or software purchases.

Although, because of deadlines, the committee makes the above recommendation, we will ask that this bill be laid upon the table until the budget numbers are resolved in the committee of conference on HB 1025. Vote 16-0.

This sum is in addition to any other sums appropriated to the division for fiscal year 1993. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

4 Effective Date. This act shall take effect upon its passage.

#### AMENDED ANALYSIS

This bill requires the division for children and youth services to develop, implement and administer an automated case management system in compliance with federal and state systems development requirements.

An appropriation is made to the division for the purpose of planning and design of the plan.

Adopted.

#### LAID ON THE TABLE

Rep. Hager moved that **SB 443-FN**, requiring the division for children and youth services to develop, implement and administer an automated case management system, be laid on the table.

Adopted.

**SB 450-FN**, relative to capital formation.(A) OUGHT TO PASS.

Rep. Charles L. Vaughn for Appropriations: When the House, in a voice vote on April 7, agreed with the policy recommendations authorized in SB 450-FN, it took an intrepid step to sustain and strengthen the economy of New Hampshire in perilous times.

The Appropriations Committee held a hearing to examine the funding measures necessary to carry out the following programs:

1. Aid to local or regional development organizations.
2. Guarantees of loans to small businesses as well as temporary loans to business.
3. Secondary market for loans made by local development organizations.
4. Capital Access Program.
5. Capital Asset Back Guarantee Program.

The contingent credit release is as follows:

First: The Business Finance Authority (BFA) \$40 million in 1992. \$25 million of the \$40 million is direct borrowing — cash — by the B.F.A. Parts of this money will be distributed to the five programs listed above.

Second: The remaining \$15 million is split into two sections: (a) \$10 million to Capital Asset Back Guarantee Program; (b) \$3 million to small business fund guarantee and \$2 million for tax-exempt bond programs.

Third: In 1993, a four year, \$50 million revolving bond program starts. All releases of credit will be developed through a public hearing process. Further, each loan is backed by bank letters of credit. In 1993, \$15 million of state guarantees are made available; in 1994, \$15 million; in 1995, \$15 million and lastly \$10, million in 1996.

Fourth: In both the Capital Asset Back Guarantee Program, and the SBA/Local fund program, each loan is backed by a 10% cash reserve pool established at its inception.

In sum, programs for capital formation are a straightforward way to manage a limited amount of public monies into a total finance package. Most importantly, the primary financing of these programs comes from sources none of which requires general fund appropriations. Vote 20-1.

Rep. Kurk spoke against.

Rep. Vaughn spoke in favor and yielded to questions.

Roll call request sufficiently seconded.

The question being the adoption of the Committee report.

and the Committee report was adopted.  
 Ordered to third reading.

**SB 473-FN-A**, relative to a fund for organ transplantation and transferring responsibility from vocational rehabilitation to the division of human services. (A) **INEXPEDIENT TO LEGISLATE**.

Rep. Douglas E. Hall for Appropriations: This bill would create a new organ transplant program in the division of human services. While such a program might most appropriately be assigned to that agency, the suggested appropriation of \$100,000 would be woefully inadequate. No data was submitted on how much such a program might actually cost if fully funded. The committee cannot agree to establishing a major new health care program funded entirely with general funds at this time. Vote 19-0.

Adopted.

**SB 339**, relative to regulatory reform. **OUGHT TO PASS WITH AMENDMENT**.

Rep. Robert S. Mercer for Commerce, Small Business and Consumer Affairs: The Judiciary Committee heard Sec. 2 which would have created a division of the Superior Court to hear cases involving corporate and commercial matters. It was the opinion of the Judiciary Committee that the courts are in no condition financially to have specialist as judges on special issues nor is there enough cases involving corporate and commercial matters that would warrant any such need and the Judges currently on the bench would be capable of handling any cases in this area therefore the vote was unanimous of 15-0 for Inexpedient to Legislate on Section 2. The Commerce Committee concurred with the Judiciary Committee recommendation.

The Executive Departments and Administration Committee heard section 31-32-33 which refers to regulatory reform changes under the Administrative Procedures Act. The Executive Departments and Administration Committee voted 10-4 Ought to Pass. Similar provisions were included in HB 477 passed by the House earlier. The Senate added a "Public Notice" procedure and a section on quorums required for the first public hearing on Rules. The Committee was of the opinion that these changes made by the Senate enhanced these sections.

The Commerce Committee concurred with these recommendations. These sections are 28-30 in the amendment. Sections 3 and 4 dealt with exemptions from state securities registration requirements for securities issued by investment companies which are subject to regulation by the U.S. Securities and Exchange Commission and which

have established a performance record in the mutual fund industry. The Committee voted Inexpedient to Legislate on both of these sections.

Section 5-26 would allow Mutual Insurance companies organized under the laws of New Hampshire to convert into stock insurance companies, make changes in the Insurance Laws required by the National Association of Insurance Commissioners and establish a new chapter which regulates business transacted with producer controlled property/casualty insurance. The Committee voted Ought to Pass with one clarifying amendment. These sections are 2-23 in the amendment.

Sec. 27 (now 24) requires the Attorney General to adopt rules allowing "ULOR" (Uniform Limited Offering Registration) securities offerings in the state and Sec. 28-30 which establishes a committee to study the impact of New Hampshire's Product Liability Laws on Manufacturers in New Hampshire. The Commerce Committee voted Ought to Pass on Sections 27-28-29-30 (now 24-27).

New Sections 31-57 in the amendment transfer certain responsibilities relative to Securities regulation and a related appropriation from the Department of Justice to the Secretary of State. The changes in responsibilities for securities regulation made in the last session was not working smoothly. This amendment should correct the delineation of duties and responsibilities and make the function more efficient and responsive. Clarifying language was added dealing with fees, fines and audits. Both the Attorney General and the Secretary of State are in agreement with the amendment. Vote 14-0.

dealer as to any matter relevant to the financial affairs or obligations of the broker-dealer, **investment adviser**, or issuer-dealer or any other fact relative to its business methods, management and its dealings with clients, as often and to the extent he deems advisable. Except as otherwise provided, he shall examine each domestic broker-dealer or issuer-dealer and domestic branches of foreign broker-dealers or issuer-dealers at least once every 2 years. Examination of an alien broker-dealer, **investment adviser**, or issuer-dealer shall be limited to its broker-dealer, **investment adviser**, or issuer-dealer transactions, assets, trust deposits, and affairs in the United States except as otherwise required by the [attorney general] **secretary of state**.

(a) The [attorney general] **secretary of state** shall in like manner examine each broker-dealer, **investment adviser**, or issuer-dealer applying for an initial license to transact securities business in this state.

(b) In lieu of making his own examination, the [attorney general] **secretary of state** may, in his discretion, accept a full report of the most recent examination of a foreign or alien broker-dealer, **investment adviser**, or issuer-dealer certified to by the securities supervisory official of another state or by the Securities Exchange Commission, or the National Association of Securities Dealers.

(c) As far as practical, the examination of a foreign or alien broker-dealer, **investment adviser**, or issuer-dealer shall be made in cooperation with the Securities Exchange Commission, the National Association of Securities Dealers and the securities supervisory officials of other states in which the broker-dealer, **investment adviser**, or issuer-dealer transacts business.

(c) Any rating bureau or organization;

(d) Any licensee or other person subject to this chapter; or

(e) If adequate information cannot be obtained, any broker-dealer [or], issuer-dealer, **investment adviser**, holding company or person holding the shares of voting stock or proxies of a broker-dealer, **investment adviser**, or issuer-dealer as voting trustee or otherwise, for the purpose of controlling the management thereof.

I. The [attorney general, on his own motion, or upon the] recommendation of the secretary of state[, ] may by order deny, suspend, or revoke any license or application if he finds:

(a) That the order is in the public interest, and

(b) That the applicant or licensee or, in the case of a broker-dealer, **issuer-dealer**, or investment adviser, any partner, officer or director, any person occupying a similar status or performing similar functions, or any person directly or indirectly controlling the broker-dealer, **issuer-dealer**, or investment adviser:

(10) Has failed reasonably to supervise his agents if he is a broker-dealer, **issuer-dealer**, or his employees if he is an investment adviser; or

(14) For other good cause shown.

43 Denial, Suspension, or Revocation of License. Amend RSA 421-B:10, IV to read as follows:

IV. If the [attorney general] **secretary of state** finds that any licensee or applicant for license is no longer in existence or has ceased to do business as a broker-dealer, **issuer-dealer**, agent, or investment adviser, or is subject to an adjudication of mental incompetence or to the control of a committee, conservator, or guardian, or cannot be located after reasonable search, the [attorney general] **secretary of state** may by order revoke the license or deny the application.

44 Provisions Applicable to Registration Generally. Amend RSA 421-B:15, IX to read as follows:

IX. So long as a registration statement is effective, the [attorney general] **secretary of state** may by rule or order require the person who filed the registration statement to file with [the secretary of state] **him** reports, not more often than quarterly, to keep reasonably current the information contained in the registration statement, to disclose the process of the offering and the use of any proceeds received from the offering, and to submit reports of sales. Failure to file the annual report within 30 days after its request may be deemed a request for withdrawal.

46 Denial, Suspension, and Revocation of Registration. Amend the introductory paragraph of RSA 421-B:16, I to read as follows:

I. The [attorney general, on his own motion, or on the] recommendation of the secretary of state, may issue a stop order denying effectiveness to, or suspending or revoking the effectiveness of, any registration statement if he finds:

47 Unlawful Representations. Amend RSA 421-B:20, I to read as follows:

I. Neither the fact that a registration statement or an application for a license has been filed under this chapter with the state of New Hampshire nor the fact that a security is effectively registered or a person is licensed in the state of New Hampshire constitutes a finding by the [attorney general or the] secretary of state that any document filed under RSA 421-B is true, complete and not misleading. Neither any such fact nor the fact that an exemption or exception is available for a security or a transaction means that the [attorney general] **secretary of state** has passed in any way upon the merits or qualifications of, or recommended or given approval to, any person, security, or transaction. It is unlawful to make, or cause to be made, to any prospective purchaser, customer, or client any representation inconsistent with the provisions of this paragraph.

48 Administration. Amend RSA 421-B:21 to read as follows:

421-B:21 Administration.

I. This chapter shall be administered by the [attorney general, with the assistance of the] secretary of state [who shall receive and maintain all documents which are required to be filed under this chapter]. The secretary of state shall, to the greatest extent practical, physically and substantively consolidate the activities and functions related to corporations, limited partnerships, and other business organizations and

entities administered by the department of state with the activities and functions related to the registration of securities [which are performed by the attorney general and secretary of state under this chapter].

II. The [attorney general] **secretary of state** shall have all powers specifically granted or reasonably implied in order to perform the substantive responsibilities imposed by this title[, and may, by rule, after consultation with and approval from the secretary of state, impose duties upon the secretary of state with regard to the receipt, maintenance and review of documents required to be filed under this chapter and the coordination of activities between the department of justice and the office of secretary of state].

**II-a.** The secretary of state shall collect all fees and charges required under this chapter and shall pay them to the state treasurer to be deposited in the general fund as unrestricted revenue, except as provided in paragraphs II-b and II-c.

**II-b.** The state treasurer shall pay the expenses of conducting examinations pursuant to RSA 421-B:9 out of any money in the treasury not otherwise appropriated until the funds collected pursuant to RSA 421-B:9, VII and VIII have been received by him. Thereafter, he shall pay the expenses of conducting such examinations out of the funds collected under RSA 421-B:9, VII and VIII and shall reimburse the treasury for previous expenses paid by him. The governor is authorized to draw his warrant for the sums authorized by this paragraph out of any money in the treasury not otherwise appropriated.

**II-c.** The state treasurer shall pay the expenses of investor education conducted pursuant to RSA 421-B:26, IV out of any money in the treasury not otherwise appropriated until the funds collected pursuant to RSA 421-B:26, I, II, and III have been received by him. Thereafter, he shall pay the expenses of conducting investor education out of funds collected under RSA 421-B:26, I, II, and III and shall reimburse the treasury for previous expenses paid by him. The governor is authorized to draw his warrant for the sums authorized by this paragraph out of any money in the treasury not otherwise appropriated.

III. It is unlawful for the [attorney general, the] secretary of state or any officers or employees of the [department of justice or the] secretary of state to use for personal benefit any information which is filed with or obtained by the [attorney general or the] secretary of state and which is not made public. No provision of this chapter authorizes the [attorney general, the] secretary of state or any officers or employees of the [department of justice or the] secretary of state to disclose any such information except among themselves or when necessary or appropriate in a proceeding or investigation under this chapter. No provision of this chapter either creates or derogates from any privilege which exists at common law or otherwise when documentary or other evidence is sought under a subpoena directed to the [attorney general, the] secretary of state or any officers or employees of the [department of justice or the] secretary of state.

49 Investigations and Subpoenas. Amend RSA 421-B:22 to read as follows:

421-B:22 Investigations and Subpoenas.

I. The [attorney general] **secretary of state** may:

(a) Make such public or private investigations within or without this state as he deems necessary to determine whether any person has violated or is about to violate this title or any rule or order under this title, or to aid in the enforcement of this title or in the adopting of rules and forms under this title;

(b) Require or permit any person to file a statement in writing, under oath or otherwise as the [attorney general] **secretary of state** determines, as to all the facts and circumstances concerning the matter being investigated;

(c) Publish information which is contained in any order issued by the [attorney general] **secretary of state**;

(d) Hold hearings, upon reasonable notice, in respect to any matter arising out of the administration of this chapter;

(e) Conduct investigations and hold hearings for the purpose of compiling information with a view to recommending changes in this title to the legislature; and

(f) Require an issuer, broker-dealer, or agent to report to him all transactions as they pertain to any security. Such reports shall be made within 10 days after demand therefor by the [attorney general] **secretary of state** and shall be open for public inspection only upon a court order. The [attorney general] **secretary of state** shall not make known, in any manner not provided by law, any information contained in such reports.

II. For the purpose of any investigation, hearing or proceeding under this title, the [attorney general] **secretary of state** or any officer designated by him may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the [attorney general] **secretary of state** deems relevant or material to the inquiry. [Any delegation by the attorney general of power of subpoena shall be in writing.]

III. In the event that a person refuses to obey a subpoena issued to him or any order or determination the [attorney general] **secretary of state** is authorized to make, the superior court, upon application by the attorney general, may issue to the person an order directing him to appear before the attorney general, or the officer designated by him, thereto to produce documentary evidence if so ordered or to give evidence touching the matter under investigation or in question. Failure to obey the order of the court may be punished by the court as a contempt of court.

50 Cease and Desist Orders, Injunctions, Receivers Amend RSA 421-B:23 to read as follows:

421-B:23 Cease and Desist Orders; Injunctions; Receivers. Whenever it appears to the [attorney general] **secretary of state** that any person has engaged or is about to engage in any act or practice constituting a violation of this chapter or any rule or order under this chapter:

I. [He] **The secretary of state** shall have the power to issue and cause to be served upon such person an order requiring the person to cease and desist from violations of this chapter. The order shall be calculated to give reasonable notice of the rights of the person to request a hearing on the order and shall state the reasons for the entry of the order. A hearing shall be held not later than 10 days after the request for such hearing is received by the [attorney general] **secretary of state** after which and within 20 days of the date of the hearing the [attorney general] **secretary of state** shall issue a further order vacating the cease and desist order or making it permanent as the facts require. The court may not require the attorney general to post a bond; and

III. The attorney general may bring an action in the name of the state for injunctive relief and civil penalties for violations of any provision of this chapter. The action may be brought in the superior court of the county in which the defendant resides or has his principal place of business, or, with the consent of the parties or if the defendant is a nonresident and has no place of business within the state, in the superior court of Merrimack county.

## AMENDED ANALYSIS

I. Section 1 of this bill is a general purpose statement.

II. Sections 2-23 allow mutual insurance companies organized under the laws of New Hampshire to convert into stock insurance companies, make changes in the insurance laws required by the National Association of Insurance Commissioners and establish a new chapter which regulates business transacted with producer controlled property/casualty insurance.

III. Section 24 requires the attorney general to adopt rules allowing "ULOR" securities offerings in this state. These securities offerings are exempt from federal registration and regulation under Rule 504 of Regulation D of the Securities and Exchange Commission, and include offerings of up to \$1,000,000 per year. Small companies desiring to make such offerings would be required to file a Form ULOR-C form, which is designed to be used by companies whose lawyers and accountants are not necessarily specialists in securities laws.

IV. Sections 25-27 establish a committee to study the impact of New Hampshire's product liability laws on manufacturers in New Hampshire.

V. Sections 28-30 require at least 20 days' notice of proposed rules changes, under the administrative procedure act, to be given before the first required agency public hearing. Such notice shall be given to all persons who hold or have applied for occupational licenses from the agency in addition to those entitled to notice under current law.

VI. Sections 31-57 transfer certain responsibilities relative to securities regulation and a related appropriation from the department of justice to the secretary of state.

Adopted.

Report adopted.

Ordered to third reading.

**SB 351**, prohibiting the sale of certain products containing phosphorus. REFER FOR INTERIM STUDY.

Rep. Bonnie L. McCann for Environment and Agriculture: The Committee received much technical testimony on the issue of the contribution of phosphates to algae formation in New Hampshire waters. The Majority of the Committee would like to take the time to consolidate the information it has received and determine the most appropriate course of action. Vote 10-7.

Referred for Interim Study.

**SB 409-FN**, relative to misrepresentations of weight by commercial packagers. INEXPEDIENT TO LEGISLATE.

Rep. Marilyn R. Campbell for Environment and Agriculture: Much discussion on this bill resulted in this vote. Under RSA 358-A of the Consumer Protection Act, a commercial packer can be held liable for misrepresentation of weights. All agreed that a more positive attitude should be created between the grocers and the state inspectors and a letter sent to both groups urging cooperation.

Vote 10-1.

Adopted.

**SB 308**, revising the business corporation act. OUGHT TO PASS WITH AMENDMENT.

Rep. Peter Hoe Burling for Judiciary: This bill is an appropriate re-write of New Hampshire's Corporation Act. It is based in great part upon the Model Uniform Corporations Act, and it provides persons interested in forming or operating corpora-

tions with a clear and manageable set of rules. The fundamental principles which tie the act into a whole are (1) a corporation is a democracy in which the majority rules, and (2) shareholders delegate the operation of the corporation to the directors and officers, unless they provide otherwise in shareholder agreements. Vote 14-0.

Interrogatories shall be answered within 30 days after the mailing, or within such additional time as shall be fixed by the secretary of state. The answers to the interrogatories shall be full and complete and shall be made in writing and under oath. If the interrogatories are directed to an individual they shall be answered by him, and if directed to a corporation they shall be answered by its president, vice president, secretary or assistant secretary. The secretary of state shall not need to record any document to which the interrogatories relate until the interrogatories are answered as provided in this section, and then not if the answers to the interrogatories disclose that the document is not in conformity with the provisions of this chapter. The secretary of state shall certify to the attorney general, for such action as the attorney general may deem appropriate, all interrogatories and answers to interrogatories which disclose a violation of any of the provisions of this chapter.

(b) The attorney general may petition the superior court of the county in which the individual to whom interrogatories are directed resides, or in which the corporation has its registered office, or of Hillsborough county if the individual or corporation does not reside in or maintain a registered office in this state to seek enforcement of the interrogatories. To the extent that they are not in conflict with this section, all rules of the superior court relating to interrogatories shall be applicable to the interrogatories propounded by the secretary of state pursuant to this section.

(c) Interrogatories propounded by the secretary of state and the answers to the interrogatories shall not be open to public inspection nor shall the secretary of state disclose any facts or information obtained from the answers except insofar as his official duty may require it to be made public or in the event the interrogatories or their answers are required for evidence in any criminal proceedings or in any other action by the state.

If more than one class of shares is authorized, the articles of incorporation must prescribe a distinguishing designation for each class, and, prior to the issuance of shares of a class, the preferences, limitations, and relative rights of that class must be described in the

articles of incorporation. All shares of a class must have preferences, limitations, and relative rights identical with those of other shares of the same class except to the extent otherwise permitted by RSA 293-A:6.02.

(b) The articles of incorporation must authorize:

(c) The articles of incorporation may authorize one or more classes of shares that:

(1) Have special, conditional, or limited voting rights, or no right to vote, except to the extent prohibited by this chapter.

(2) One or more series within a class before the issuance of any shares of that series.

(b) Each series of a class must be given a distinguishing designation.

(c) All shares of a series must have preferences, limitations, and relative rights identical with those of other shares of the same series and, except to the extent otherwise provided in the description of the series, with those of other series of the same class.

(d) Before issuing any shares of a class or series created under this section, the corporation must deliver to the secretary of state for filing articles of amendment, which are effective without shareholder action, that set forth:

(1) The name of the corporation;

(2) The text of the amendment determining the terms of the class or series of shares.

(3) The date it was adopted.

(4) A statement that the amendment was duly adopted by the board of directors.

#### 293-A:6.03 Issued and Outstanding Shares.

(a) A corporation may issue the number of shares of each class or series authorized by the articles of incorporation. Shares that are issued are outstanding shares until they are reacquired, redeemed, converted, or cancelled.

(1) Issue fractions of a share or pay in money the value of fractions of a share.

(2) Arrange for disposition of fractional shares by the shareholders.

(3) Issue scrip in registered or bearer form entitling the holder to receive a full share upon surrendering enough scrip to equal a full share.

(b) Each certificate representing scrip must be conspicuously labeled "scrip" and must contain the information required by RSA 293-A:6.25(b).

(c) The holder of a fractional share is entitled to exercise the rights of a shareholder, including the right to vote, to receive dividends, and to participate in the assets of the corporation upon liquidation. The holder of scrip is not entitled to any of these rights unless the scrip provides for them.

(d) The board of directors may authorize the issuance of scrip subject to any condition considered desirable, including:

(1) That the scrip will become void if not exchanged for full shares before a specified date.

(2) That the shares for which the scrip is exchangeable may be sold and the proceeds paid to the scripholders.

(a) A subscription for shares entered into before incorporation is irrevocable for 6 months, unless the subscription agreement provides a longer or shorter period or all the subscribers agree to revocation.

(b) The board of directors may determine the payment terms of subscriptions for shares that were entered into before incorporation, unless the subscription agreement specifies them. A call for payment by the board of directors must be uniform so far as practicable as to all shares of the same class or series, unless the subscription agreement specifies otherwise.

(c) Shares issued pursuant to subscriptions entered into before incorporation are fully paid and nonassessable when the corporation receives the consideration specified in the subscription agreement.

(d) If a subscriber defaults in payment of money or property under a subscription agreement entered into before incorporation, the corporation may collect the amount owed as any other debt. Alternatively, unless the subscription agreement provides otherwise, the corporation may rescind the agreement and may sell the shares if the debt remains unpaid more than 20 days after the corporation sends written demand for payment to the subscriber.

(e) A subscription agreement entered into after incorporation is a contract between the subscriber and the corporation subject to RSA 293-A:6.21.

(b) The board of directors may authorize shares to be issued for consideration consisting of any tangible or intangible property or benefit to the corporation, including cash, promissory notes, services performed, contracts for services to be performed, or other securities of the corporation.

(c) Before the corporation issues shares, the board of directors must determine that the consideration received or to be received for shares to be issued is adequate. That determination by the board of directors is conclusive insofar as the adequacy of consideration for the issuance of shares relates to whether the shares are validly issued, fully paid, and nonassessable.

(d) When the corporation receives the consideration for which the board of directors authorized the issuance of shares, the shares issued therefor are fully paid and nonassessable.

(e) The corporation may place in escrow shares issued for a contract for future services or benefits or a promissory note, or make other arrangements to restrict the transfer of the shares, and may credit distributions in respect of the shares against their purchase price, until the services are preformed, the note is paid, or the benefits received. If the services are not performed, the note is not paid, or the benefits are not received, the shares escrowed or restricted and the distributions credited may be cancelled in whole or in part.

**293-A:6.22 Liability of Shareholders.**

(a) A purchaser from a corporation of its own shares is not liable to the corporation or its creditors with respect to the shares except to pay the consideration for which the shares were authorized to be issued under RSA 293-A:6.21 or specified in the subscription agreement under RSA 293-A:6.20.

(b) Unless otherwise provided in the articles of incorporation, a shareholder of a corporation is not personally liable for the acts or debts of the corporation except that he may become personally liable by reason of his own acts or conduct.

**293-A:6.23 Share Dividends.**

(a) Unless the articles of incorporation provide otherwise, shares may be issued pro rata and without consideration to the corporation's shareholders or to the shareholders of one or more classes or series. An issuance of shares under this subsection is a share dividend.

(b) Shares of one class or series may not be issued as a share dividend in respect of shares of another class or series unless:

(1) The articles of incorporation so authorize.

(2) A majority of the votes entitled to be cast by the class or series to be issued approve the issue.

(3) There are no outstanding shares of the class or series to be issued.

(c) If the board of directors does not fix the record date for determining shareholders entitled to a share dividend, it is the date the board of directors authorizes the share dividend.

**293-A:6.24 Share Options.** A corporation may issue rights, options, or warrants for the purchase of shares of the corporation. The board of directors shall determine the terms upon which the rights, options, or warrants are issued, their form and content, and the consideration for which the shares are to be issued.

**293-A:6.25 Form and Content of Certificates.**

(a) Shares may, but need not be represented by certificates. Unless this chapter or another statute expressly provides otherwise, the rights and obligations of shareholders are identical whether or not their shares are represented by certificates.

(b) At a minimum each share certificate must state on its face:

(1) The name of the issuing corporation and that it is organized under the law of this state.

(2) The name of the person to whom issued.

(3) The number and class of shares and the designation of the series, if any, the certificate represents.

(c) If the issuing corporation is authorized to issue different classes of shares or different series within a class, the designations, relative rights, preferences, and limitations applicable to each class and the variations in rights, preferences, and limitations determined for each series, and the authority of the board of directors to determine variations for future series, must be summarized on the front or back of each certificate. Alternatively, each certificate may state conspicuously on its front or back that the corporation will furnish the shareholder this information on request in writing and without charge.

(d) Each share certificate:

(1) Must be signed, either manually or in facsimile, by 2 officers designated in the bylaws or by the board of directors; and

(2) May bear the corporate seal or its facsimile.

(e) If the person who signed, either manually or in facsimile, a share certificate no longer holds office when the certificate is issued, the certificate is nevertheless valid.

#### 293-A:6.26 Shares Without Certificates.

(a) Unless the articles of incorporation or bylaws provide otherwise, the board of directors of a corporation may authorize the issue of some or all of the shares or any or all of its classes or series without certificates. The authorization does not affect shares already represented by certificates, until they are surrendered to the corporation.

(b) Within a reasonable time after the issue or transfer of shares without certificates, the corporation shall send the shareholder a written statement of the information required on certificates by RSA 293-A:6.25(b) and (c), and, if applicable, RSA 293-A:6.27.

#### 293-A:6.27 Restriction on Transfer of Shares and Other Securities.

(a) The articles of incorporation, bylaws, an agreement among shareholders, or an agreement between shareholders and the corporation may impose restrictions on the transfer or registration of transfer of shares of the corporation. A restriction does not affect shares issued before the restriction was adopted, unless the holders of the shares are parties to the restriction agreement or voted in favor of the restriction.

(b) A restriction on the transfer or registration of transfer of shares is valid and enforceable against the holder or a transferee of the holder if the restriction is authorized by this section and its existence is noted conspicuously on the front or back of the certificate or is contained in the information statement required by RSA 293-A:6.26(b). Unless so noted, a restriction is not enforceable against a person without knowledge of the restriction.

(c) A restriction on the transfer or registration of transfer of shares is authorized:

(1) To maintain the corporation's status when it is dependent on the number or identity of its shareholders.

(2) To preserve exemptions under federal or state securities law.

(3) For any other reasonable purpose.

(d) A restriction on the transfer or registration of transfer of shares may:

(1) Obligate the shareholder first to offer the corporation or other persons separately, consecutively, or simultaneously an opportunity to acquire the restricted shares.

(2) Obligate the corporation or other persons (separately, consecutively, or simultaneously) to acquire the restricted shares.

(3) Require the corporation, the holders of any class of its shares, or any other person to approve the transfer of the restricted shares, if the requirement is not manifestly unreasonable.

(4) Prohibit the transfer of the restricted shares to designated persons or classes of persons, if the prohibition is not manifestly unreasonable.

(e) For purposes of this section, "shares" includes a security convertible into or carrying a right to subscribe for or acquire shares.

293-A:6.28 Expense of Issue. A corporation may pay the expenses of selling or underwriting its shares, and of organizing or reorganizing the corporation, from the consideration received for shares.

### C. Subsequent Acquisition of Shares by Shareholders and Corporation

#### 293-A:6.30 Shareholder's Preemptive Rights.

(a) The shareholders of a corporation do not have a preemptive right to acquire the corporation's unissued shares except to the extent the articles of incorporation so provide.

(b) A statement included in the articles of incorporation that "the corporation elects to have preemptive rights", or words of similar import, means that the following principles apply except to the extent the articles of incorporation expressly provide otherwise:

(1) The shareholders of the corporation have a preemptive right, granted on uniform terms and conditions prescribed by the board of directors to provide a fair and reasonable opportunity to exercise the right, to acquire proportional amounts of the corporation's unissued shares upon the decision of the board of directors to issue them.

(2) A shareholder may waive his preemptive right. A waiver evidenced by a writing is irrevocable even though it is not supported by consideration.

(3) There is no preemptive right with respect to:

(i) Shares issued as compensation to directors, officers, agents, or employees of the corporation, its subsidiaries or affiliates.

(ii) Shares issued to satisfy conversion or option rights created to provide compensation to directors, officers, agents, or employees of the corporation, its subsidiaries or affiliates.

(iii) Shares authorized in articles of incorporation that are issued within 6 months from the effective date of incorporation.

(iv) Shares sold otherwise than for money.

(4) Holders of shares of any class without general voting rights but with preferential rights to distributions or assets have no preemptive rights with respect to shares of any class.

(5) Holders of shares of any class with general voting rights, but without preferential rights to distributions or assets, have no preemptive rights with respect to shares of any class with preferential rights to distributions or assets, unless the shares with preferential rights are convertible into or carry a right to subscribe for or acquire shares without preferential rights.

(6) Shares subject to preemptive rights that are not acquired by shareholders may be issued to any person for a period of one year after being offered to shareholders at a consideration set by the board of directors that is not lower than the consideration set for the exercise of preemptive rights. An offer at a lower consideration or after the expiration of one year is subject to the shareholders' preemptive rights.

(c) For purposes of this section, "shares" includes a security convertible into or carrying a right to subscribe for or acquire shares.

#### 293-A:6.31 Corporation's Acquisition of its Own Shares.

(a) A corporation may acquire its own shares and shares so acquired constitute authorized but unissued shares.

(b) If the articles of incorporation prohibit the reissue of acquired shares, the number of authorized shares is reduced by the number of shares acquired, effective upon amendment of the articles of incorporation.

(c) The board of directors may adopt articles of amendment under this section without shareholder action and deliver them to the secretary of state for filing. The articles must set forth:

(1) The name of the corporation.

(2) The reduction in the number of authorized shares, itemized by class and series.

(3) The total number of authorized shares, itemized by class and series, remaining after reduction of the shares.

#### D. Distributions

##### 293-A:6.40 Distributions to Shareholders.

(a) A board of directors may authorize, and the corporation may make, distributions to its shareholders, subject to restriction by the articles of incorporation and the limitation in subsection (c).

(b) If the board of directors does not fix the record date for determining shareholders entitled to a distribution, other than one involving a purchase, redemption, or other acquisition of the corporation's shares, it is the date the board of directors authorizes the distribution.

(c) No distribution may be made if, after giving it effect:

(1) The corporation would not be able to pay its debts as they become due in the usual course of business.

(2) The corporation's total assets would be less than the sum of its total liabilities plus, unless the articles of incorporation permit otherwise, the amount that would be needed, if the corporation were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution.

(d) The board of directors may base a determination that a distribution is not prohibited under subsection (c) either on financial statements prepared on the basis of accounting practices and principles that are reasonable in the circumstances or on a fair valuation or other method that is reasonable in the circumstances.

(e) Except as provided in subsection (g), the effect of a distribution under subsection (c) is measured:

(1) In the case of distribution by purchase, redemption, or other acquisition of the corporation's shares, as of the earlier of:

(i) The date money or other property is transferred or debt incurred by the corporation; or

(ii) The date the shareholder ceases to be a shareholder with respect to the acquired shares.

(2) In the case of any other distribution of indebtedness, as of the date the indebtedness is distributed.

(3) In all other cases, as of:

(i) The date the distribution is authorized if the payment occurs within 120 days after the date of authorization; or

(ii) The date the payment is made if it occurs more than 120 days after the date of authorization.

(f) A corporation's indebtedness to a shareholder incurred by reason of a distribution made in accordance with this section is at parity with the corporation's indebtedness to its general, unsecured creditors except to the extent subordinated by agreement.

(g) Indebtedness of a corporation, including indebtedness issued as a distribution, is not considered a liability for purposes of determinations under subsection (c) if its terms provide that payment of principal and interest are made only if and to the extent that payment of a distribution to shareholders could then be made under this section. If the indebtedness is issued as a distribution, each payment of principal or interest is treated as a distribution, the effect of which is measured on the date the payment is actually made.

## Shareholders

### A. Meetings

#### 293-A:7.01 Annual Meeting.

(a) A corporation shall hold a meeting of shareholders annually at a time stated in or fixed in accordance with the bylaws.

(b) Annual shareholders' meetings may be held in or out of this state at the place stated in or fixed in accordance with the bylaws. If no place is stated in or fixed in accordance with the bylaws, annual meetings shall be held at the corporation's principal office.

(c) The failure to hold an annual meeting at the time stated in or fixed in accordance with a corporation's bylaws does not affect the validity of any corporate action.

#### 293-A:7.02 Special Meeting.

(a) A corporation shall hold a special meeting of shareholders:

(1) on call of its board of directors or the person or persons authorized to do so by the articles of incorporation or bylaws; or

(2) if the holders of at least 10 percent of all the votes entitled to be cast on any issue proposed to be considered at the proposed special meeting sign, date, and deliver to the corporation's secretary one or more written demands for the meeting describing the purpose or purposes for which it is to be held.

(b) If not otherwise fixed under RSA 293-A:7.03 or RSA 293-A:7.07, the record date for determining shareholders entitled to demand a special meeting is the date the first shareholder signs the demand.

(c) Special shareholders' meetings may be held in or out of this state at the place stated in or fixed in accordance with the bylaws. If no place is stated or fixed in accordance with the bylaws, special meetings shall be held at the corporation's principal office.

(d) Only business within the purpose or purposes described in the meeting notice required by RSA 293-A:7.05(c), may be conducted at a special shareholders' meeting.

#### 293-A:7.03 Court-Ordered Meeting.

(a) The superior court of the county where a corporation's principal office, or, if none in this state, its registered office, is located may summarily order a meeting to be held:

(1) on application of any shareholder of the corporation entitled to participate in an annual meeting if an annual meeting was not held within the earlier of 6 months after the end of the corporation's fiscal year or 15 months after its last annual meeting; or

(2) on application of a shareholder who signed a demand for a special meeting valid under RSA 293-A:7.02, if:

(i) notice of the special meeting was not given within 30 days after the date the demand was delivered to the corporation's secretary; or

(ii) the special meeting was not held in accordance with the notice.

(b) The court may fix the time and place of the meeting, determine the shares entitled to participate in the meeting, specify a record date for determining shareholders entitled to notice of and to vote at the meeting, prescribe the form and content of the meeting notice, fix the quorum required for specific matters to be considered at the meeting, or direct that the votes represented at the meeting constitute a quorum for action on those matters, and enter other orders necessary to accomplish the purpose or purposes of the meeting.

#### 293-A:7.04 Action Without Meeting.

I.(a) Action required or permitted by this chapter to be taken at a shareholders' meeting may be taken without a meeting if the action is taken by all the shareholders entitled to vote on the action. The action must be evidenced by one or more written consents describing the action taken, signed by all the shareholders entitled to vote on the action, and delivered to the corporation for inclusion in the minutes or filing with the corporate records.

(b) If not otherwise determined under RSA 293-A:7.03 or RSA 293-A:7.07, the record date for determining shareholders entitled to take action without a meeting is the date the first shareholder signs the consent under RSA 293-A:7.04, I(a).

(c) A consent signed under RSA 293-A:7.04, I has the effect of a meeting vote and may be described as such in any document.

(d) If this chapter requires that notice of proposed action be given to nonvoting shareholders and the action is to be taken by unanimous consent of the voting shareholders, the corporation must give its nonvoting shareholders written notice of the proposed action at least 10 days before the action is taken. The notice must contain or be accompanied by the same material that, under this chapter, would have been required to be sent to nonvoting shareholders in a notice of meeting at which the proposed action would have been submitted to the shareholders for action.

II. The articles of incorporation may allow action without meeting under the following as an alternative to RSA 293-A:7.04, I:

(a) Unless otherwise provided in the articles of incorporation, any action required or permitted by this chapter to be taken at a shareholders' meeting may be taken without a meeting without prior notice and without a vote, if the action is taken by all the number of shareholders having not less than the minimum number of votes that would be necessary to take such action at a meeting at which all shares entitled to vote thereon were present and voted. The action must be evidenced by one or more written consents describing the action taken, signed by the number of shareholders necessary to take such action, indicating the date of signature of each shareholder, and delivered by hand or by certified or registered mail, return receipt requested, to the corporation for inclusion in the minutes or filing with the corporate records. No written consent shall be effective to take the corporate action referred to therein unless, within 60 days of the earliest dated consent, it is delivered in the manner required by this paragraph to the corporation. The date of the corporate action shall be the date of delivery to the corporation as required by this paragraph.

(b) If not otherwise fixed under RSA 293-A:7.03 or RSA 293-A:7.07, the record date for determining shareholders entitled to take action without a meeting is the date the first shareholder signs the consent under subsection (a).

(c) A consent signed under RSA 293-A:7.04, II has the effect of a meeting vote and may be described as such in any document.

(d) The corporation must give the shareholders who did not consent in writing prompt written notice of the action. The notice must contain or be accompanied by the same material that, under this chapter, would have been required to be sent to nonvoting shareholders in a notice of meeting at which the proposed action would have been submitted to the shareholders for action, including when appropriate, the dissenters' notice required by RSA 293-A:13.22. The dissenters' notice must be sent no later than 10 days after the corporate action was taken.

#### 293-A:7.05 Notice of Meeting.

(a) A corporation shall notify shareholders of the date, time, and place of each annual and special shareholders' meeting no fewer than 10 nor more than 60 days before the meeting date. Unless this chapter or the articles of incorporation require otherwise, the corporation is required to give notice only to shareholders entitled to vote at the meeting.

(b) Unless this chapter or the articles of incorporation require otherwise, notice of an annual meeting need not include a description of the purpose or purposes for which the meeting is called.

(c) Notice of a special meeting must include a description of the purpose or purposes for which the meeting is called.

(d) If not otherwise fixed under RSA 293-A:7.03 or RSA 293-A:7.07, the record date for determining shareholders entitled to notice of and to vote at an annual or special shareholders' meeting is the day before the first notice is delivered to shareholders.

(e) Unless the bylaws require otherwise, if an annual or special shareholders' meeting is adjourned to a different date, time, or place, notice need not be given of the new date, time, or place if the new date, time, or place is announced at the meeting before adjournment. If a new record date for the adjourned meeting is or must be fixed under RSA 293-A:7.07, however, notice of the adjourned meeting must be given under this section to persons who are shareholders as of the new record date.

#### 293-A:7.06 Waiver of Notice.

(a) A shareholder may waive any notice required by this chapter, the articles of incorporation, or bylaws before or after the date and time stated in the notice. The waiver must be in writing, be signed by the shareholder entitled to the notice, and be delivered to the corporation for inclusion in the minutes or filing with the corporate records.

(b) A shareholder's attendance at a meeting:

(1) waives objection to lack of notice or defective notice of the meeting, unless the shareholder at the beginning of the meeting objects to holding the meeting or transacting business at the meeting; and

(2) waives objection to consideration of a particular matter at the meeting that is not within the purpose or purposes described in the meeting notice, unless the shareholder objects to considering the matter when it is presented.

#### 293-A:7.07 Record Date.

(a) The bylaws may fix or provide the manner of fixing the record date for one or more voting groups in order to determine the shareholders entitled to notice of a shareholders' meeting, to demand a special meeting, to vote, or to take any other action. If the bylaws do not fix or provide for fixing a record date, the board of directors of the corporation may fix a future date as the record date.

(b) A record date fixed under this section may not be more than 70 days before the meeting or action requiring a determination of shareholders.

(c) A determination of shareholders entitled to notice of or to vote at a shareholders' meeting is effective for any adjournment of the meeting unless the board of directors fixes a new record date, which it must do if the meeting is adjourned to a date more than 120 days after the date fixed for the original meeting.

(d) If a court orders a meeting adjourned to a date more than 120 days after the date fixed for the original meeting, it may provide that the original record date continues in effect or it may fix a new record date.

### B. Voting

#### 293-A:7.20 Shareholders' List for Meeting.

(a) After fixing a record date for a meeting, a corporation shall prepare an alphabetical list of the names of all its shareholders who are entitled to notice of a shareholders' meeting. The list must be arranged by voting group, and within each voting group by class or series of shares, and show the address of and number of shares held by each shareholder.

(b) The shareholders' list must be available for inspection by any shareholder, beginning 2 business days after notice of the meeting is given for which the list was prepared and continuing through the meeting, at the corporation's principal office or at a place identified in the meeting notice in the city where the meeting will be held. A shareholder, his agent, or attorney is entitled on written demand to inspect and, subject to the requirements of RSA 293-A:16.02(c), to copy the list, during regular business hours and at his expense, during the period it is available for inspection.

(c) The corporation shall make the shareholders' list available at the meeting, and any shareholder, his agent, or attorney is entitled to inspect the list at any time during the meeting or any adjournment.

(d) If the corporation refuses to allow a shareholder, his agent, or attorney to inspect the shareholders' list before or at the meeting, or copy the list as permitted by subsection (b), the superior court of the county where a corporation's principal office, or, if none in this state, its registered office, is located, on application of the share-

holder, may summarily order the inspection or copying at the corporation's expense and may postpone the meeting for which the list was prepared until the inspection or copying is complete.

(e) Refusal or failure to prepare or make available the shareholders' list does not affect the validity of action taken at the meeting.

293-A:7.21 Voting Entitlement of Shares.

(a) Except as provided in subsections (b) and (c), or unless the articles of incorporation provide otherwise, each outstanding share, regardless of class, is entitled to one vote on each matter voted on at a shareholders' meeting. Only shares are entitled to vote.

(b) Absent special circumstances, the shares of a corporation are not entitled to vote if they are owned, directly or indirectly, by a second corporation, domestic or foreign, and the first corporation owns, directly or indirectly, a majority of the shares entitled to vote for directors of the second corporation.

(c) Subsection (b) does not limit the power of a corporation to vote any shares, including its own shares, held by it in a fiduciary capacity.

(d) Redeemable shares are not entitled to vote after notice of redemption is mailed to the holders and a sum sufficient to redeem the shares has been deposited with a bank, trust company, or other financial institution under an irrevocable obligation to pay the holders the redemption price on surrender of the shares.

293-A:7.22 Proxies.

(a) A shareholder may vote his shares in person or by proxy.

(b) A shareholder may appoint a proxy to vote or otherwise act for him by signing an appointment form, either personally or by his attorney-in-fact.

(c) An appointment of a proxy is effective when received by the secretary or other officer or agent authorized to tabulate votes. An appointment is valid for 11 months, unless a longer period is expressly provided in the appointment form.

(d) An appointment of a proxy is revocable by the shareholder, unless the appointment form conspicuously states that it is irrevocable and the appointment is coupled with an interest. Appointments coupled with an interest include the appointment of:

(1) a pledgee;

(2) a person who purchased or agreed to purchase the shares;

(3) a creditor of the corporation who extended it credit under terms requiring the appointment;

(4) an employee of the corporation whose employment contract requires the appointment; or

(5) a party to a voting agreement created under RSA 293-A:7.31.

(e) The death or incapacity of the shareholder appointing a proxy does not affect the right of the corporation to accept the proxy's authority unless notice of the death or incapacity is received by the secretary or other officer or agent authorized to tabulate votes before the proxy exercises his authority under the appointment.

(f) An appointment made irrevocable under subsection (d) is revoked when the interest with which it is coupled is extinguished.

(g) A transferee for value of shares subject to an irrevocable appointment may revoke the appointment if he did not know of its existence when he acquired the shares and the existence of the irrevocable appointment was not noted conspicuously on the certificate representing the shares or on the information statement for shares without certificates.

(h) Subject to RSA 293-A:7.24 and to any express limitation on the proxy's authority appearing on the face of the appointment form, a corporation is entitled to accept the proxy's vote or other action as that of the shareholder making the appointment.

293-A:7.23 Shares Held by Nominees.

(a) A corporation may establish a procedure by which the beneficial owner of shares that are registered in the name of a nominee is recognized by the corporation as the shareholder. The extent of this recognition may be determined in the procedure.

(b) the procedure may set forth:

- (1) the types of nominees to which it applies;
- (2) the rights or privileges that the corporation recognizes in a beneficial owner;
- (3) the manner in which the procedure is selected by the nominee;
- (4) the information that must be provided when the procedure is selected;
- (5) the period for which selection of the procedure is effective; and
- (6) other aspects of the rights and duties created.

293-A:7.24 Corporation's Acceptance of Votes.

(a) If the name signed on a vote, consent, waiver, or proxy appointment corresponds to the name of a shareholder, the corporation if acting in good faith is entitled to accept the vote, consent, waiver, or proxy appointment and give it effect as the act of the shareholder.

(b) If the name signed on a vote, consent, waiver, or proxy appointment does not correspond to the name of its shareholder, the corporation if acting in good faith is nevertheless entitled to accept the vote, consent, waiver, or proxy appointment and give it effect as the act of the shareholder if:

- (1) the shareholder is an entity and the name signed purports to be that of an officer or agent of the entity;
- (2) the name signed purports to be that of an administrator, executor, guardian, or conservator representing the shareholder and, if the corporation requests, evidence of fiduciary status acceptable to the corporation has been presented with respect to the vote, consent, waiver, or proxy appointment;
- (3) the name signed purports to be that of a receiver or trustee in bankruptcy of the shareholder and, if the corporation requests, evidence of this status acceptable to the corporation has been presented with respect to the vote, consent, waiver, or proxy appointment;
- (4) the name signed purports to be that of a pledgee, beneficial owner, or attorney-in-fact of the shareholder and, if the corporation requests, evidence acceptable to the corporation of the signatory's authority to sign for the shareholder has been presented with respect to the vote, consent, waiver, or proxy appointment; or
- (5) two or more persons are the shareholder as cotenants or fiduciaries and the name signed purports to be the name of at least one of the co-owners and the person signing appears to be acting on behalf of all the co-owners.

(c) The corporation is entitled to reject a vote, consent, waiver, or proxy appointment if the secretary or other officer or agent authorized to tabulate votes, acting in good faith has reasonable basis for doubt about the validity of the signature on it or about the signatory's authority to sign for the shareholder.

(d) The corporation and its officer or agent who accepts or rejects a vote, consent, waiver, or proxy appointment in good faith and in accordance with the standards

of this section are not liable in damages to the shareholder for the consequences of the acceptance or rejection.

(e) Corporate action based on the acceptance or rejection of a vote, consent, waiver, or proxy appointment under this section is valid unless a court of competent jurisdiction determines otherwise.

**293-A:7.25 Quorum and Voting Requirements for Voting Groups.**

(a) Shares entitled to vote as a separate voting group may take action on a matter at a meeting only if a quorum of those shares exists with respect to that matter. Unless the articles of incorporation or this chapter provide otherwise, a majority of the votes entitled to be cast on the matter by the voting group constitutes a quorum of that voting group for action on that matter.

(b) Once a share is represented for any purpose at a meeting, it is deemed present for quorum purposes for the remainder of the meeting and for any adjournment of that meeting unless a new record date is or must be set for that adjourned meeting.

(c) If a quorum exists, action on a matter, other than the election of directors, by a voting group is approved if the votes cast within the voting group favoring the action exceed the votes cast opposing the action, unless the articles of incorporation or this chapter require a greater number of affirmative votes.

(d) An amendment of articles of incorporation adding, changing, or deleting a quorum or voting requirement for a voting group greater than specified in subsections (a) or (c) is governed by RSA 293-A:7.27.

(e) The election of directors is governed by RSA 293-A:7.28.

**293-A:7.26 Action by Single and Multiple Voting Groups.**

(a) If the articles of incorporation or this chapter provide for voting by a single voting group on a matter, action on that matter is taken when voted upon by that voting group as provided in RSA 293-A:7.25.

(b) If the articles of incorporation or this chapter provide for voting by 2 or more voting groups on a matter, action on that matter is taken only when voted upon by each of those voting groups counted separately as provided in RSA 293-A:7.25. Action may be taken by one voting group on a matter even though no action is taken by another voting group entitled to vote on the matter.

**293-A:7.27 Greater Quorum or Voting Requirements.**

(a) The articles of incorporation may provide for a greater quorum or voting requirement for shareholders, or voting groups of shareholders, than is provided for by this chapter.

(b) An amendment to the articles of incorporation that adds, changes, or deletes a greater quorum or voting requirement must meet the same quorum requirement and be adopted by the same vote and voting groups required to take action under the quorum and voting requirements then in effect or proposed to be adopted, whichever is greater.

**293-A:7.28 Voting for Directors; Cumulative Voting.**

(a) Unless otherwise provided in the articles of incorporation, directors are elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present.

(b) Shareholders do not have a right to cumulate their votes for directors unless the articles of incorporation so provide.

(c) A statement included in the articles of incorporation that "all or a designated voting group of shareholders are entitled to cumulate their votes for directors," or words of similar import, means that the shareholders designated are entitled to multi-

ply the number of votes they are entitled to cast by the number of directors for whom they are entitled to vote and cast the product for a single candidate or distribute the product among 2 or more candidates.

(d) Shares otherwise entitled to vote cumulatively may not be voted cumulatively at a particular meeting unless:

(1) the meeting notice or proxy statement accompanying the notice states conspicuously that cumulative voting is authorized; or

(2) a shareholder who has the right to cumulate his votes gives notice to the corporation not less than 48 hours before the time set for the meeting of his intent to cumulate his votes during the meeting, and if one shareholder gives this notice all other shareholders in the same voting group participating in the election are entitled to cumulate their votes without giving further notice.

### C. Voting Trusts and Agreements

#### 293-A:7.30 Voting Trusts.

(a) One or more shareholders may create a voting trust, conferring on a trustee the right to vote or otherwise act for them, by signing an agreement setting out the provisions of the trust, which may include anything consistent with its purpose, and transferring their shares to the trustee. When a voting trust agreement is signed, the trustee shall prepare a list of the names and addresses of all owners of beneficial interests in the trust, together with the number and class of shares each transferred to the trust, and deliver copies of the list and agreement to the corporation's principal office.

(b) A voting trust becomes effective on the date the first shares subject to the trust are registered in the trustee's name. A voting trust is valid for not more than 10 years after its effective date, unless extended under subsection (c).

(c) All or some of the parties to a voting trust may extend it for additional terms of not more than 10 years each by signing an extension agreement and obtaining the voting trustee's written consent to the extension. An extension is valid for 10 years from the date the first shareholder signs the extension agreement. The voting trustee must deliver copies of the extension agreement and list of beneficial owners to the corporation's principal office. An extension agreement binds only those parties signing it.

#### 293-A:7.31 Voting Agreements.

(a) Two or more shareholders may provide for the manner in which they will vote their shares by signing an agreement for that purpose. A voting agreement created under this section is not subject to the provisions of RSA 293-A:7.30.

(b) A voting agreement created under this section is specifically enforceable.

#### 293-A:7.32 Shareholder Agreements.

(a) An agreement among the shareholders of a corporation that complies with this section is effective among the shareholders and the corporation even though it is inconsistent with one or more other provisions of this chapter in that it:

(1) eliminates the board of directors or restricts the discretion or powers of the board of directors;

(2) governs the authorization or making of distributions whether or not in proportion to ownership of shares, subject to the limitations in RSA 293-A:6.40;

(3) establishes who shall be directors or officers of the corporation, or their terms of office or manner of selection or removal;

(4) governs, in general or in regard to specific matters, the exercise or division of voting power by or between the shareholders and directors or by or among any of them, including use of weighted voting rights or director proxies;

(5) establishes the terms and conditions of any agreement for the transfer or use of property or the provision of services between the corporation and any shareholder, director, officer or employee of the corporation or among any of them;

(6) transfers to one or more shareholders or other persons all or part of the authority to exercise the corporate powers or to manage the business and affairs of the corporation, including the resolution of any issue about which there exists a deadlock among directors or shareholders;

(7) requires dissolution of the corporation at the request of one or more of the shareholders or upon the occurrence of a specified event or contingency; or

(8) otherwise governs the exercise of the corporate powers or the management of the business and affairs of the corporation or the relationship among the shareholders, the directors and the corporation, or among any of them, and is not contrary to public policy.

(b) An agreement authorized by this section shall be;

(1) Set forth: (A) in the articles of incorporation or bylaws and approved by all persons who are shareholders at the time of the agreement; or (B) in a written agreement that is signed by all persons who are shareholders at the time of the agreement and is made known to the corporation.

(2) Subject to amendment only by all persons who are shareholders at the time of the amendment, unless the agreement provides otherwise; and

(3) Valid for 10 years, unless the agreement provides otherwise.

(c) The existence of an agreement authorized by this section shall be noted conspicuously on the front or back of each certificate for outstanding shares or on the information statement as required by RSA 293-A:6.26(b). If at the time of the agreement the corporation has shares outstanding represented by certificates, the corporation shall recall the outstanding certificates and issue substitute certificates that comply with this subsection. The failure to note the existence of the agreement on the certificate or information statement shall not affect the validity of the agreement or any action taken pursuant to it. Any purchaser of shares who, at the time of purchase, did not have knowledge of the existence of the agreement shall be entitled to rescission of the purchase. A purchaser shall be deemed to have knowledge of the existence of the agreement if its existence is noted on the certificate or information statement for the shares in compliance with this subsection and, if the shares are not represented by a certificate, the information statement is delivered to the purchaser at or prior to the time of purchase of the shares. An action to enforce the right of rescission authorized by this subsection must be commenced within the earlier of 90 days after discovery of the existence of the agreement or 2 years after the time of purchase of the shares.

(d) An agreement authorized by this section shall cease to be effective when shares of the corporation are listed on a national securities exchange or regularly traded in a market maintained by one or more members of a national or affiliated securities association. If the agreement ceases to be effective for any reason, the board of directors may, if the agreement is contained or referred to in the corporation's articles of incorporation or bylaws, adopt an amendment to the articles of incorporation or bylaws, without shareholder action, to delete the agreement and any references to it.

(e) An agreement authorized by this section that limits the discretion or powers of the board of directors shall relieve the directors of, and impose upon the person or persons in whom such discretion or powers are vested, liability for acts or omissions imposed by law on directors to the extent that the discretion or powers of the directors are limited by the agreement.

(f) The existence or performance of an agreement authorized by this section shall not be a ground for imposing personal liability on any shareholder for the acts or debts of the corporation even if the agreement or its performance treats the corporation as if it were a partnership or results in failure to observe the corporate formalities otherwise applicable to the matters governed by the agreement.

(g) Incorporators or subscribers for shares may act as shareholders with respect to an agreement authorized by this section if no shares have been issued when the agreement is made.

#### D. Derivative Proceedings

293-A:7.40 Definitions. For the purposes of this subdivision:

(1) "Derivative proceeding" means a civil suit in the right of a domestic corporation or, to the extent provided in RSA 293-A:7.47, in the right of a foreign corporation.

(2) "Shareholder" includes a beneficial owner whose shares are held in a voting trust or held by a nominee on the beneficial owner's behalf.

293-A:7.41 Standing. A shareholder may not commence or maintain a derivative proceeding unless the shareholder:

(1) was a shareholder of the corporation at the time of the act or omission complained of or became a shareholder through transfer by operation of law from one who was a shareholder at that time; and

(2) fairly and adequately represents the interests of the corporation in enforcing the right of the corporation.

293-A:7.42 Demand. No shareholder may commence a derivative proceeding until:

(1) a written demand has been made upon the corporation to take suitable action; and

(2) ninety days have expired from the date the demand was made unless the shareholder has earlier been notified that the demand has been rejected by the corporation or unless irreparable injury to the corporation would result by waiting for the expiration of the 90-day period.

293-A:7.43 Stay of Proceedings. If the corporation commences an inquiry into the allegations made in the demand or complaint, the court may stay any derivative proceeding for such period as the court deems appropriate.

293-A:7.44 Dismissal.

(a) A derivative proceeding shall be dismissed by the court on motion by the corporation if one of the groups specified in subsections (b) or (f) has determined in good faith after conducting a reasonable inquiry upon which its conclusions are based that the maintenance of the derivative proceeding is not in the best interests of the corporation.

(b) Unless a panel is appointed pursuant to subsection (f), the determination in subsection (a) shall be made by:

(1) a majority vote of independent directors present at a meeting of the board of directors if the independent directors constitute a quorum; or

(2) a majority vote of a committee consisting of 2 or more independent directors appointed by majority vote of independent directors present at a meeting of the board of directors, whether or not such independent directors constituted a quorum.

(c) None of the following shall by itself cause a director to be considered not independent for purposes of this section:

(1) the nomination or election of the director by persons who are defendants in the derivative proceeding or against whom action is demanded;

(2) the naming of the director as a defendant in the derivative proceeding or as a person against whom action is demanded; or

(3) the approval by the director of the act being challenged in the derivative proceeding or demand if the act resulted in no personal benefit to the director.

(d) If a derivative proceeding is commenced after a determination has been made rejecting a demand by a shareholder, the complaint shall allege with particularity facts establishing either:

(1) that a majority of the board of directors did not consist of independent directors at the time the determination was made; or

(2) that the requirements of subsection (a) have not been met.

(e) If a majority of the board of directors does not consist of independent directors at the time the determination is made, the corporation shall have the burden of proving that the requirements of subsection (a) have been met. If a majority of the board of directors consists of independent directors at the time the determination is made, the plaintiff shall have the burden of proving that the requirements of subsection (a) have not been met.

(f) The court may appoint a panel of one or more independent persons upon motion by the corporation to make a determination whether the maintenance of the derivative proceeding is in the best interests of the corporation. In such case, the plaintiff shall have the burden of proving that the requirements of subsection (a) have not been met.

293-A:7.45 Discontinuance or Settlement. A derivative proceeding may not be discontinued or settled without the court's approval. If the court determines that a proposed discontinuance or settlement will substantially affect the interests of the corporation's shareholders or a class of shareholders, the court shall direct that notice be given to the shareholders affected.

293-A:7.46 Payment of Expenses. On termination of the derivative proceeding the court may:

(1) order the corporation to pay the plaintiff's reasonable expenses, including counsel fees, incurred in the proceeding if it finds that the proceeding has resulted in a substantial benefit to the corporation;

(2) order the plaintiff to pay any defendant's reasonable expenses, including counsel fees, incurred in defending the proceeding if it finds that the proceeding was commenced or maintained without reasonable cause or for an improper purpose; or

(3) order a party to pay an opposing party's reasonable expenses, including counsel fees, incurred because of the filing of a pleading, motion or other paper, if it finds that the pleading, motion or other paper was not well-grounded in fact, after reasonable inquiry, or warranted by existing law or a good faith argument for the extension, modification or reversal of existing law and was interposed for an improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

293-A:7.47 Applicability to Foreign Corporations. In any derivative proceeding in the right of a foreign corporation, the matters covered by this subdivision shall be governed by the laws of the jurisdiction of incorporation of the foreign corporation except for RSA 293-A:7.43, 293-A:7.45 and 293-A:7.46.

#### Directors and Officers

##### A. Board of Directors

293-A:8.01 Requirement for and Duties of Board of Directors.

(a) Except as provided in RSA 293-A:7.32, each corporation shall have a board of directors.

(b) All corporate powers must be exercised by or under the authority of, and the business and affairs of the corporation managed under the direction of, its board of directors, subject to any limitation set forth in the articles of incorporation or in an agreement authorized under RSA 293-A:7.32.

(c) A corporation having 50 or fewer shareholders may dispense with or limit the authority of a board of directors by describing in its articles of incorporation who will perform some or all of the duties of a board of directors.

293-A:8.02 Qualifications of Directors. The articles of incorporation or bylaws may prescribe qualifications for directors. A director need not be a resident of this state or a shareholder of the corporation unless the articles of incorporation or bylaws so prescribe.

293-A:8.03 Number and Election of Directors.

(a) A board of directors must consist of one or more individuals, with the number specified in or fixed in accordance with the articles of incorporation or bylaws.

(b) If a board of directors has power to fix or change the number of directors, the board may increase or decrease by 30 percent or less the number of directors last approved by the shareholders, but only the shareholders may increase or decrease by more than 30 percent the number of directors last approved by the shareholders.

(c) The articles of incorporation or bylaws may establish a variable range for the size of the board of directors by fixing a minimum and maximum number of directors. If a variable range is established, the number of directors may be fixed or changed from time to time, within the minimum and maximum, by the shareholders or the board of directors. After shares are issued, only the shareholders may change the range for the size of the board or change from a fixed to a variable-range size board or vice versa.

(d) Directors are elected at the first annual shareholders' meeting and at each annual meeting thereafter, unless their terms are staggered under RSA 293-A:8.06.

293-A:8.04 Election of Directors by Certain Classes of Shareholders. If the articles of incorporation authorize dividing the shares into classes, the articles may also authorize the election of all or a specified number of directors by the holders of one or more authorized classes of shares. A class, or classes, of shares entitled to elect one or more directors is a separate voting group for purposes of the election of directors.

293-A:8.05 Terms of Directors Generally.

(a) The terms of the initial directors of a corporation expire at the first shareholders' meeting at which directors are elected.

(b) The terms of all other directors expire at the next annual shareholders' meeting following their election unless their terms are staggered under RSA 293-A:8.06.

(c) A decrease in the number of directors does not shorten an incumbent director's term.

(d) The term of a director elected to fill a vacancy expires at the next shareholders' meeting at which directors are elected.

(e) Despite the expiration of a director's term, he continues to serve until his successor is elected and qualified or until there is a decrease in the number of directors.

293-A:8.06 Staggered Terms for Directors. If there are 9 or more directors, the articles of incorporation may provide for staggering their terms by dividing the total number of directors into 2 or 3 groups, with each group containing 1/2 or 1/3 of the total, as near as may be. In that event, the terms of directors in the first group expire at the first annual shareholders' meeting after their election, the terms of the second group expire at the second annual shareholders' meeting after their election, and the terms of the third group, if any, expire at the third annual shareholders' meeting after their election. At each annual shareholders' meeting held thereafter, directors shall be chosen for a term of 2 years or 3 years, as the case may be, to succeed those whose terms expire.

293-A:8.07 Resignation of Directors.

(a) A director may resign at any time by delivering written notice to the board of directors, its chairman, or to the corporation.

(b) A resignation is effective when the notice is delivered unless the notice specifies a later effective date.

293-A:8.08 Removal of Directors by Shareholders.

(a) The shareholders may remove one or more directors with or without cause unless the articles of incorporation provide that directors may be removed only for cause.

(b) If a director is elected by a voting group of shareholders, only the shareholders of that voting group may participate in the vote to remove him.

(c) If cumulative voting is authorized, a director may not be removed if the number of votes sufficient to elect him under cumulative voting is voted against his removal. If cumulative voting is not authorized, a director may be removed only if the number of votes cast to remove him exceeds the number of votes cast not to remove him.

(d) A director may be removed by the shareholders only at a meeting called for the purpose of removing him and the meeting notice must state that the purpose, or one of the purposes, of the meeting is removal of the director.

293-A:8.09 Removal of Directors by Judicial Proceeding.

(a) The superior court of the county where a corporation's principal office, or, if none in this state, its registered office, is located may remove a director of the corporation from office in a proceeding commenced either by the corporation or by its shareholders subject to the provisions of RSA 293-A:7.40 through RSA 293-A:7.47, holding at least 10 percent of the outstanding shares of any class if the court finds that:

(1) The director engaged in fraudulent or illegal conduct with respect to the corporation; and

(2) Removal is in the best interest of the corporation.

(b) The court that removes a director may bar the director from reelection for a period prescribed by the court.

(c) If shareholders commence a proceeding under subsection (a), they shall make the corporation a party defendant.

293-A:8.10 Vacancy on Board.

(a) Unless the articles of incorporation provide otherwise, if a vacancy occurs on a board of directors, including a vacancy resulting from an increase in the number of directors:

(1) The shareholders may fill the vacancy.

(2) The board of directors may fill the vacancy.

(3) If the directors remaining in office constitute fewer than a quorum of the board, they may fill the vacancy by the affirmative vote of a majority of all the directors remaining in office.

(b) If the vacant office was held by a director elected by a voting group of shareholders, only the holders of shares of that voting group are entitled to vote to fill the vacancy if it is filled by the shareholders.

(c) A vacancy that will occur at a specific later date by reason of a resignation effective at a later date under RSA 293-A:8.07(b) or otherwise, may be filled before the vacancy occurs, but the new director may not take office until the vacancy occurs.

293-A:8.11 Compensation of Directors. Unless the articles of incorporation or bylaws provide otherwise, the board of directors may fix the compensation of directors.

#### B. Meetings and Action of the Board

##### 293-A:8.20 Meetings and Action of the Board.

(a) The board of directors may hold regular or special meetings in or out of this state.

(b) Unless the articles of incorporation or bylaws provide otherwise, the board of directors may permit any or all directors to participate in a regular or special meeting by, or conduct the meeting through the use of, any means of communication by which all directors participating may simultaneously hear each other during the meeting. A director participating in a meeting by this means is deemed to be present in person at the meeting.

##### 293-A:8.21 Action without Meeting.

(a) Unless the articles of incorporation or bylaws provide otherwise, action required or permitted by this chapter to be taken at a board of directors' meeting may be taken without a meeting if the action is taken by unanimous consent of all members of the board. The action must be evidenced by one or more written consents describing the action taken, signed by each director, and included in the minutes or filed with the corporate records reflecting the action taken.

(b) Action taken under this section is effective when the last director signs the consent, unless the consent specifies a different effective date.

(c) A consent signed under this section has the effect of a meeting vote and may be described as such in any document.

##### 293-A:8.22 Notice of Meeting.

(a) Unless the articles of incorporation or bylaws provide otherwise, regular meetings of the board of directors may be held without notice of the date, time, place, or purpose of the meeting.

(b) Unless the articles of incorporation or bylaws provide for a longer or shorter period, special meetings of the board of directors shall be preceded by at least 2 days' notice of the date, time, and place of the meeting. The notice need not describe the purpose of the special meeting unless required by the articles of incorporation or bylaws.

##### 293-A:8.23 Waiver of Notice.

(a) A director may waive any notice required by this chapter, the articles of incorporation, or bylaws before or after the date and time stated in the notice. Except as provided by subsection (b), the waiver must be in writing, signed by the director entitled to the notice, and filed with the minutes or corporate records.

(b) A director's attendance at or participation in a meeting waives any required notice to him of the meeting unless the director at the beginning of the meeting, or promptly upon his arrival, objects to holding the meeting or transacting business at the meeting and does not thereafter vote for or assent to action taken at the meeting.

293-A:8.24 Quorum and Voting.

(a) Unless the articles of incorporation or bylaws require a greater number, a quorum of a board of directors consists of either:

(1) A majority of the fixed number of directors if the corporation has a fixed board size.

(2) A majority of the number of directors prescribed, or if no number is prescribed the number in office immediately before the meeting begins, if the corporation has a variable-range size board.

(b) The articles of incorporation or bylaws may authorize a quorum of a board of directors to consist of no fewer than 1/3 of the fixed or prescribed number of directors determined under subsection (a).

(c) If a quorum is present when a vote is taken, the affirmative vote of a majority of directors present is the act of the board of directors, unless the articles of incorporation or bylaws require the vote of a greater number of directors.

(d) A director who is present at a meeting of the board of directors or a committee of the board of directors when corporate action is taken is deemed to have assented to the action taken unless:

(1) he objects at the beginning of the meeting, or promptly upon his arrival, to holding it or transacting business at the meeting;

(2) his dissent or abstention from the action taken is entered in the minutes of the meeting; or

(3) he delivers written notice of his dissent or abstention to the presiding officer of the meeting before its adjournment or to the corporation immediately after adjournment of the meeting. The right of dissent or abstention is not available to a director who votes in favor of the action taken.

293-A:8.25 Committees.

(a) Unless the articles of incorporation or bylaws provide otherwise, a board of directors may create one or more committees and appoint members of the board of directors to serve on them. Each committee must have 2 or more members, who serve at the pleasure of the board of directors.

(b) The creation of a committee and appointment of members to it must be approved by the greater of:

(1) a majority of all the directors in office when the action is taken; or

(2) the number of directors required by the articles of incorporation or bylaws to take action under RSA 293-A:8.24.

(c) RSA 293-A:8.20 through 293-A:8.24, which govern meetings, action without meetings, notice and waiver of notice, and quorum and voting requirements of the board of directors, apply to committees and their members as well.

(d) To the extent specified by the board of directors or in the articles of incorporation or bylaws, each committee may exercise the authority of the board of directors under RSA 293-A:8.01.

(e) A committee may not, however:

- (1) authorize distributions;
- (2) approve or propose to shareholders action that this chapter requires be approved by the shareholders;
- (3) fill vacancies on the board of directors or on any of its committees;
- (4) amend articles of incorporation pursuant to RSA 293-A:10.02;
- (5) adopt, amend, or repeal bylaws;
- (6) approve a plan of merger not requiring shareholder approval;
- (7) authorize or approve reacquisition of shares, except according to a formula or method prescribed by the board of directors; or
- (8) authorize or approve the issuance or sale or contract for sale of shares, or determine the designation and relative rights, preferences, and limitations of a class or series of shares, except that the board of directors may authorize a committee, or a senior executive officer of the corporation, to do so within limits specifically prescribed by the board of directors.

(f) The creation of, delegation of authority to, or action by a committee does not alone constitute compliance by a director with the standards of conduct described in RSA 293-A:8.30.

### C. Standards of Conduct

#### 293-A:8.30 General Standards for Directors.

(a) A director shall discharge his duties as a director, including his duties as a member of a committee:

- (1) in good faith;
- (2) with the care an ordinarily prudent person in a like position would exercise under similar circumstances; and
- (3) in a manner he reasonably believes to be in the best interests of the corporation.

(b) In discharging his duties a director is entitled to rely on information, opinions, reports, or statements, including financial statements and other financial data, if prepared or presented by:

- (1) one or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented;
- (2) legal counsel, public accountants, or other persons as to matters the director reasonably believes are within the person's professional or expert competence; or
- (3) a committee of the board of directors of which he is not a member if the director reasonably believes the committee merits confidence.

(c) A director is not acting in good faith if he has knowledge concerning the matter in question that makes reliance otherwise permitted by subsection (b) unwarranted.

(d) A director is not liable for any action taken as a director, or any failure to take any action, if he performed the duties of his office in compliance with this section.

#### 293-A:8.31 Director Conflict of Interest.

(a) A conflict of interest transaction is a transaction with the corporation in which a director of the corporation has a direct or indirect interest. A conflict of interest transaction is not voidable by the corporation solely because of the director's interest in the transaction if any one of the following is true:

- (1) the material facts of the transaction and the director's interest were disclosed or known to the board of directors or a committee of the board of directors or a

committee of the board of directors and the board of directors or committee authorized, approved, or ratified the transaction;

(2) the material facts of the transaction and the director's interest were disclosed or known to the shareholders entitled to vote and they authorized, approved, or ratified the transaction; or

(3) the transaction was fair to the corporation.

(b) For purposes of this section, a director of the corporation has an indirect interest in a transaction if (1) another entity in which he has a material financial interest or in which he is a general partner is a party to the transaction or (2) another entity of which he is a director, officer, or trustee is a party to the transaction and the transaction is or should be considered by the board of directors of the corporation.

(c) For purposes of subsection (a)(1), a conflict of interest transaction is authorized, approved, or ratified if it receives the affirmative vote of a majority of the directors on the board of directors (or on the committee) who have no direct or indirect interest in the transaction, but a transaction may not be authorized, approved, or ratified under this section by a single director. If a majority of the directors who have no direct or indirect interest in the transaction vote to authorize, approve, or ratify the transaction, a quorum is present for the purpose of taking action under this section. The presence of, or a vote cast by, a director with a direct or indirect interest in the transaction does not affect the validity of any action taken under subsection (a)(1) if the transaction is otherwise authorized, approved, or ratified as provided in that subsection.

(d) For purposes of subsection (a)(2), a conflict of interest transaction is authorized, approved, or ratified if it receives the vote of a majority of the shares entitled to be counted under this subsection. Shares owned by or voted under the control of a director who has a direct or indirect interest in the transaction, and shares owned by or voted under the control of an entity described in subsection (b)(1), may not be counted in a vote of shareholders to determine whether to authorize, approve, or ratify a conflict of interest transaction under subsection (a)(2). The vote of those shares, however, is counted in determining whether the transaction is approved under other sections of this chapter. A majority of the shares, whether or not present, that are entitled to be counted in a vote on the transaction under this subsection constitutes a quorum for the purpose of taking action under this section.

#### 293-A:8.32 Loans to Directors.

(a) Except as provided by subsection (c), a corporation may not lend money to or guarantee the obligation of a director of the corporation unless:

(1) the particular loan or guarantee is approved by a majority of the votes represented by the outstanding voting shares of all classes, voting as a single voting group, except the votes of shares owned by or voted under the control of the benefited director; or

(2) the corporation's board of directors determines that the loan or guarantee benefits the corporation and either approves the specific loan or guarantee or a general plan authorizing loans and guarantees.

(b) The fact that a loan or guarantee is made in violation of this section does not affect the borrower's liability on the loan.

(c) This section does not apply to loans and guarantees authorized by statute regulating any special class or corporations.

#### 293-A:8.33 Liability for Unlawful Distributions.

(a) A director who votes for or assents to a distribution made in violation of RSA 293-A:6.40 or the articles of incorporation is personally liable to the corporation for the amount of the distribution that exceeds what could have been distributed without violating RSA 293-A:6.40 or the articles of incorporation if it is established that he did not perform his duties in compliance with RSA 293-A:8.30. In any proceeding commenced under this section, a director has all of the defenses ordinarily available to a director.

(b) A director held liable under subsection (a) for an unlawful distribution is entitled to contribution:

(1) from every other director who could be held liable under subsection (a) for the unlawful distribution; and

(2) from each shareholder for the amount the shareholder accepted knowing the distribution was made in violation of RSA 293-A:6.40 or the articles of incorporation.

(c) A proceeding under this section is barred unless it is commenced within 2 years after the date on which the effect of the distribution was measured under RSA 293-A:6.40 (e) or (g).

#### D. Officers

##### 293-A:8.40 Required Officers.

(a) A corporation has the officers described in its bylaws or appointed by the board of directors in accordance with the bylaws.

(b) A duly appointed officer may appoint one or more officers or assistant officers if authorized by the bylaws or the board of directors.

(c) The bylaws or the board of directors shall delegate to one of the officers responsibility for preparing minutes of the directors' and shareholders' meetings and for authenticating records of the corporation.

(d) The same individual may simultaneously hold more than one office in a corporation.

293-A:8.41 Duties of Officers. Each officer has the authority and shall perform the duties set forth in the bylaws or, to the extent consistent with the bylaws, the duties prescribed by the board of directors or by direction of an officer authorized by the board of directors to prescribe the duties of other officers.

##### 293-A:8.42 Standards of Conduct for Officers.

(a) An officer with discretionary authority shall discharge his duties under that authority:

(1) in good faith;

(2) with the care an ordinarily prudent person in a like position would exercise under similar circumstances; and

(3) in a manner he reasonably believes to be in the best interests of the corporation.

(b) In discharging his duties an officer is entitled to rely on information, opinions, reports, or statements, including financial statements and other financial data, if prepared or presented by:

(1) one or more officers or employees of the corporation whom the officer reasonably believes to be reliable and competent in the matters presented; or

(2) legal counsel, public accountants, or other persons as to matters the officer reasonably believes are within the person's professional or expert competence.

(c) An officer is not acting in good faith if he has knowledge concerning the matter in question that makes reliance otherwise permitted by subsection (b) unwarranted.

(d) An officer is not liable for any action taken as an officer, or any failure to take any action, if he performed the duties of his office in compliance with this section.

#### 293-A:8.43 Resignation and Removal of Officers.

(a) An officer may resign at any time by delivering notice to the corporation. A resignation is effective when the notice is delivered unless the notice specifies a later effective date. If a resignation is made effective at a later date and the corporation accepts the future effective date, its board of directors may fill the pending vacancy before the effective date if the board of directors provides that the successor does not take office until the effective date.

(b) A board of directors may remove any officer at any time with or without cause.

#### 293-A:8.44 Contract Rights of Officers.

(a) The appointment of an officer does not itself create contract rights.

(b) An officer's removal does not affect the officer's contract rights, if any, with the corporation. An officer's resignation does not affect the corporation's contract rights, if any, with the officer.

### E. Indemnification

#### 293-A:8.50 Definitions. In this subdivision:

(1) "Corporation" includes any domestic or foreign predecessor entity of a corporation in a merger or other transaction in which the predecessor's existence ceased upon consummation of the transaction.

(2) "Director" means an individual who is or was a director of a corporation or an individual who, while a director of a corporation, is or was serving at the corporation's request as a director, officer, partner, trustee, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, employee benefit plan, or other enterprise. A director is considered to be serving an employee benefit plan at the corporation's request if his duties to the corporation also impose duties on, or otherwise involve services by, him to the plan or to participants in or beneficiaries of the plan. "Director" includes, unless the context requires otherwise, the estate or personal representative of a director.

(3) "Expenses" include counsel fees.

(4) "Liability" means the obligation to pay a judgment, settlement, penalty, fine, including an excise tax assessed with respect to an employee benefit plan, or reasonable expenses incurred with respect to a proceeding.

(5) "Official capacity" means:

(i) when used with respect to a director, the office of director in a corporation; and

(ii) when used with respect to an individual other than a director, as contemplated in RSA 293-A:8.56, the office in a corporation held by the officer or the employment or agency relationship undertaken by the employee or agent on behalf of the corporation. "Official capacity" does not include service for any other foreign or domestic corporation or any partnership, joint venture, trust, employee benefit plan, or other enterprise.

(6) "Party" includes an individual who was, is, or is threatened to be made a named defendant or respondent in a proceeding.

(7) "Proceeding" means any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative and whether formal or informal.

**293-A:8.51 Authority to Indemnify.**

(a) Except as provided in subsection (d), a corporation may indemnify an individual made a party to a proceeding because he is or was a director, against liability incurred in the proceeding if:

- (1) he conducted himself in good faith; and
- (2) he reasonably believed:

(i) in the case of conduct in his official capacity with the corporation, that his conduct was in its best interests; and

(ii) in all other cases, that his conduct was at least not opposed to its best interests; and

(3) in the case of any criminal proceeding, he had no reasonable cause to believe his conduct was unlawful.

(b) A director's conduct with respect to an employee benefit plan for a purpose he reasonably believed to be in the interests of the participants in and beneficiaries of the plan is conduct that satisfies the requirement of subparagraph (a)(2)(ii).

(c) The termination of a proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent is not, of itself, determinative that the director did not meet the standard of conduct described in this section.

(d) A corporation may not indemnify a director under this section:

(1) in connection with a proceeding by or in the right of the corporation in which the director was adjudged liable to the corporation; or

(2) in connection with any other proceeding charging improper personal benefit to him, whether or not involving action in his official capacity, in which he was adjudged liable on the basis that personal benefit was improperly received by him.

(e) Indemnification permitted under this section in connection with a proceeding by or in the right of the corporation is limited to reasonable expenses incurred in connection with the proceeding.

**293-A:8.52 Mandatory Indemnification.** Unless limited by its articles of incorporation, a corporation shall indemnify a director who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which he was a party because he is or was a director of the corporation against reasonable expenses incurred by him in connection with the proceeding.

**293-A:8.53 Advance for Expenses.**

(a) A corporation may pay for or reimburse the reasonable expenses incurred by a director who is a party to a proceeding in advance of final disposition of the proceeding if:

(1) the director furnishes the corporation a written affirmation of his good faith belief that he has met the standard of conduct described in RSA 293-A:8.51;

(2) the director furnishes the corporation a written undertaking, executed personally or on his behalf, to repay the advance if it is ultimately determined that he did not meet the standard of conduct; and

(3) a determination is made that the facts then known to those making the determination would not preclude indemnification under this subdivision.

(b) The undertaking required by subparagraph (a)(2) must be an unlimited general obligation of the director but need not be secured and may be accepted without reference to financial ability to make repayment.

(c) Determinations and authorizations of payments under this section shall be made in the manner specified in RSA 293-A:8.55.

293-A:8.54 Court-Ordered Indemnification. Unless a corporation's articles of incorporation provide otherwise, a director of the corporation who is a party to a proceeding may apply for indemnification to the court conducting the proceeding or to another court of competent jurisdiction. On receipt of an application, the court after giving any notice the court considers necessary may order indemnification if it determines:

(1) the director is entitled to mandatory indemnification under RSA 293-A:8.52, in which case the court shall also order the corporation to pay the director's reasonable expenses incurred to obtain court-ordered indemnification; or

(2) the director is fairly and reasonably entitled to indemnification in view of all the relevant circumstances, whether or not he met the standard of conduct set forth in RSA 293-A:8.51 or was adjudged liable as described in RSA 293-A:8.51(d), but if he was adjudged so liable his indemnification is limited to reasonable expenses incurred.

293-A:8.55 Determination and Authorization of Indemnification.

(a) A corporation may not indemnify a director under RSA 293-A:8.51, unless authorized in the specific case after a determination has been made that indemnification of the director is permissible in the circumstances because he has met the standard of conduct set forth in RSA 293-A:8.51.

(b) The determination shall be made:

(1) by the board of directors by majority vote of a quorum consisting of directors not at the time parties to the proceeding;

(2) if a quorum cannot be obtained under subparagraph (b)(1) by majority vote of a committee duly designated by the board of directors, in which designation directors who are parties may participate, consisting solely of 2 or more directors not at the time parties to the proceeding;

(3) by special legal counsel:

(i) selected by the board of directors or its committee in the manner prescribed in subparagraphs (1) or (2); or

(ii) if a quorum of the board of directors cannot be obtained under subparagraph (b)(3)(i) and a committee cannot be designated under subparagraph (b)(2), selected by majority vote of the full board of directors in which selection directors who are parties may participate.

(4) by the shareholders, but shares owned by or voted under the control of directors who are at the time parties to the proceeding may not be voted on the determination.

(c) Authorization of indemnification and evaluation as to reasonableness of expenses shall be made in the same manner as the determination that indemnification is permissible, except that if the determination is made by special legal counsel, authorization of indemnification and evaluation as to reasonableness of expenses shall be made by those entitled under subparagraph (b)(3) to select counsel.

293-A:8.56 Indemnification of Officers, Employees, and Agents. Unless a corporation's articles of incorporation provide otherwise:

(1) an officer of the corporation who is not a director is entitled to mandatory indemnification under RSA 293-A:8.52, and is entitled to apply for court-ordered indemnification under RSA 293-A:8.54, in each case to the same extent as a director;

(2) the corporation may indemnify and advance expenses under this subdivision to an officer, employee or agent of the corporation who is not a director, to the same extent as to a director; and

(3) a corporation may also indemnify and advance expenses to an officer, employee, or agent who is not a director to the extent, consistent with public policy, that may be provided by its articles of incorporation, bylaws, general or specific action of its board of directors, or contract.

293-A:8.57 Insurance. A corporation may purchase and maintain insurance on behalf of an individual who is or was a director, officer, employee, or agent of the corporation, or who, while a director, officer, employee, or agent of the corporation, is or was serving at the request of the corporation as a director, officer, partner, trustee, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust, employee benefit plan, or other enterprise, against liability asserted against or incurred by him in that capacity or arising from his status as a director, officer, employee, or agent, whether or not the corporation would have power to indemnify him against the same liability under RSA 293-A:8.51 or 293-A:8.52.

293-A:8.58 Application of this subdivision.

(a) A provision treating a corporation's indemnification of or advance for expenses to directors that is contained in its articles of incorporation, bylaws, a resolution of its shareholders or board of directors, or in a contract or otherwise, is valid only if and to the extent the provision is consistent with this subdivision. If articles of incorporation limit indemnification or advance for expenses, indemnification and advance for expenses are valid only to the extent consistent with the articles.

(b) This subdivision does not limit a corporation's power to pay or reimburse expenses incurred by a director in connection with his appearance as a witness in a proceeding at a time when he has not been made a named defendant or respondent to the proceeding.

(2) The shareholders entitled to vote on the amendment shall approve the amendment as provided in subsection (e).

(c) The board of directors may condition its submission of the proposed amendment on any basis.

(d) The corporation shall notify each shareholder, whether or not entitled to vote, of the proposed shareholders' meeting in accordance with RSA 293-A:7.05. #### 293-A:10.04 Voting on Amendments by Voting Groups.

(9) cancel or otherwise affect rights to distributions or dividends that have accumulated but not yet been declared on all or part of the shares of the class.

(c) If a proposed amendment that entitles 2 or more series of shares to vote as separate voting groups under this section would affect those 2 or more series in the same or a substantially similar way, the shares of all the series so affected shall vote together as a single voting group on the proposed amendment.

(d) A class or series of shares is entitled to the voting rights granted by this section although the articles of incorporation provide that the shares are nonvoting shares.

(a) If after a hearing the court determines that one or more grounds for judicial dissolution described in RSA 293-A:14.30 exist, it may enter a decree dissolving the corporation and specifying the effective date of the dissolution, and the clerk of the court shall deliver a certified copy of the decree to the secretary of state, who shall file it and at the same time shall mail notice of such decree upon the department of revenue administration, but such notice shall not constitute written or published notice to claimants otherwise required under RSA 293-A:14.06 or RSA 293-A:14.07.

(b) After entering the decree of dissolution, the court shall direct the winding up and liquidation of the corporation's business and affairs in accordance with RSA 293-A:14.05 and the notification of claimants in accordance with RSA 293-A:14.06 and 293-A:14.07.

#### 293-A:14.34 Election to Purchase in Lieu of Dissolution.

(a) In a proceeding under RSA 293-A:14.30(b) to dissolve a corporation that has no shares listed on a national securities exchange or regularly traded in a market maintained by one or more members of a national or affiliated securities association, the corporation may elect or, if it fails to elect one or more shareholders may elect to purchase all shares owned by the petitioning shareholder at the fair value of the shares. An election pursuant to this section shall be irrevocable, unless the court determines that it is equitable to set aside or modify the election.

(b) An election to purchase pursuant to this section may be filed with the court at any time within 90 days after the filing of the petition under RSA 293-A:14.30(2) or at such later time as the court in its discretion may allow. If the election to purchase is filed by one or more shareholders, the corporation shall, within 10 days thereafter,

give written notice to all shareholders other than the petitioner. The notice shall state the name and number of shares owned by the petitioner and the name and number of shares owned by each electing shareholder and shall advise the recipients of their right to join in the election to purchase shares in accordance with this section. Shareholders who wish to participate shall file notice of their intention to join in the purchase no later than 30 days after the effective date of the notice to them. All shareholders who have filed an election or notice of their intention to participate in the election to purchase thereby become parties to ownership of shares as of the date the first election was filed, unless they otherwise agree or the court otherwise directs. After an election has been filed by the corporation or one or more shareholders the proceeding under RSA 293-A:14.30(2) shall not be discontinued or settled, nor may the petitioning shareholder sell or otherwise dispose of his shares, unless the court determines that it would be equitable to the corporation and the shareholders other than the petitioner to permit such discontinuance, settlement, sale, or other disposition.

(c) If, within 60 days of the filing of the first election, the parties reach agreement as to the fair value and terms of purchase of the petitioner's shares, the court shall enter an order directing the purchase of petitioner's shares upon the terms and conditions agreed to by the parties.

(d) If the parties are unable to reach an agreement as provided for in subsection (c), the court, upon application of any party, shall stay the RSA 293-A:14.30(2) proceedings and determine the fair value of the petitioner's shares as of the day before the date on which the petition under RSA 293-A:14.30(2) was filed or as of such other date as the court deems appropriate under the circumstances.

(e) Upon determining the fair value of the shares, the court shall enter an order directing the purchase upon such terms and conditions as the court deems appropriate, which may include payment of the purchase price in installments, where necessary in the interests of equity, provision for security to assure payment of the purchase price any additional costs, fees, and expenses as may have been awarded, and, if the shares are to be purchased by shareholders, the allocation of shares among them. In allocating petitioner's shares among holders of different classes of shares, the court shall attempt to preserve the existing distribution of voting rights among holders of different classes insofar as practicable and may direct that holders of a specific class or classes shall not participate in the purchase. Interest may be allowed at the rate and from the date determined by the court to be equitable, but if the court finds that the refusal of the petitioning shareholder to accept an offer of payment was arbitrary or otherwise not in good faith, no interest shall be allowed.

(f) Upon entry of an order under subsections (c) or (e), the court shall dismiss the petition to dissolve the corporation under RSA 293-A:14.30, and the petitioning shareholder shall no longer have any rights or status as a shareholder of the corporation, except the right to receive the amounts awarded to him by the order of the court which shall be enforceable in the same manner as any other judgment.

(g) The purchase ordered pursuant to subsection (e), shall be made within 10 days after the date the order becomes final, unless before that time the corporation files with the court a notice of its intention to adopt articles of dissolution pursuant to RSA 293-A:14.02 and RSA 293-A:14.03, which articles shall then be adopted and filed within 50 days thereafter. Upon filing of such articles of dissolution, the corporation shall be dissolved in accordance with the provisions of RSA 293-A:14.05 through 293-A:14.07 and the order entered pursuant to subsection (e) shall no longer

be of any force or effect, except that the court may award the petitioning shareholder reasonable fees and expenses in accordance with the provisions of the last sentence of subsection (e) and the petitioner may continue to pursue any claims previously asserted on behalf of the corporation.

(h) Any payment by the corporation pursuant to an order under subsections (c) or (e), other than an award of fees and expenses pursuant to subsection (e) is subject to the provisions of RSA 293-A:6.40.

#### D. Miscellaneous

293-A:14.40 Deposit with State Treasurer. Assets of a dissolved corporation that should be transferred to a creditor, claimant, or shareholder of the corporation who cannot be found or who is not competent to receive them shall be reduced to cash and deposited with the state treasurer or other appropriate state official for safekeeping. When the creditor, claimant, or shareholder furnishes satisfactory proof of entitlement to the amount deposited, the state treasurer or other appropriate state official shall pay him or his representative that amount.

### SUSPENSION OF RULES

Rep. Donna Sytek moved that the rules be so far suspended as to permit consideration at the present time of **CACR 26**, relating to a personal income tax. Providing that if an income tax is enacted in the state, it shall be limited to a rate no higher than 4 percent.

Rep. Donna Sytek spoke in favor.

Adopted by the necessary two-thirds.

**CACR 26**, relating to a personal income tax. Providing that if an income tax is enacted in the state, it shall be limited to a rate no higher than 4 percent. **INEXPEDIENT TO LEGISLATE**.

Rep. Shawn N. Jasper for Ways and Means: Both opponents and proponents of income tax opposed this CACR, although for different reasons. One side felt that a 4 percent rate was too limiting on the future needs of the state and that the rate should not be placed in the State Constitution. Others on the Committee saw this CACR as a double-edged sword. While it can be seen as an effort to limit any future income tax, its passage could easily be seen as voter approval of such a tax. As a matter of fact any number of conclusions would and could be drawn, either from its passage or defeat, none of which may in fact be the correct one. This type of limit may be best passed after the legislature adopts an income tax, when and if that happens. Vote 14-0.

Adopted.

Adopted.

Rep. Peter Burling addressed the House by unanimous consent.

In Sullivan County, District 1, there is a long tradition among those of us who have served, to do our best to try and find solutions. It is my privilege to serve with Merle Schotanus. I want to stand here and tell you that I think in bringing forward the gas tax proposal, he did his constituents, his party and this House very proud. I am proud to serve with him. If we do not begin to address the real issues that confront this state in a reasoned and appropriate way, pretty soon, we are all going to be in big trouble. Some of our cities and towns are in big trouble already. There will be plenty of heat

for Mr. Schotanus to feel in the next few days. We all know that to be a political truth. But, I for one, think that he and the people who worked with him in bringing that idea forward did us a service. I want to congratulate them. I want to say that I will stand with them the next time that idea comes within shooting range. It is very rare in here that we see a live round of ammunition shoved into the breach. There is only one other revenue issue that I've seen come even close. Colonel, you did us a service. Thank you.

## HOUSE JOURNAL No. 24

Thursday, April 23, 1992

The House assembled at 10:00 a.m., the hour to which it stood adjourned and was called to order by the Speaker.

Prayer was offered by Guest Chaplain, the Reverend Carolyn Keilig, Assistant Pastor, First Congregational Church, Concord.

Throughout the centuries, Almighty God, Your people have debated over and argued about policies, personal and otherwise. We have such strong feelings about who controls our spending, and such wonderful ideas on how we would like our money spent.

We acknowledge, O God, that the decisions made this day will effect thousands of lives. It has been said in ages past, that one should render to Caesar the things that are Caesar's, and to God the things that are God's. Help these legislators, to determine with your wisdom and compassion, where our earnings should go. Grant that in all business brought before this body this day, each person may reflect integrity and justice in his and her vote.

We pray these things this day. Amen.

Rep. William Boucher led the Pledge of Allegiance.

Whereas, the implementation of deadlines for the filing of bills in the current session, as approved by the house of representatives in House Resolution 23 on June 9, 1991, has proven to be a significant development in the legislative process; and

Whereas, the schedule in HR 23 permitted House committees to know the full extent of their subjective and quantative bill load prior to the first day of the session; and

Whereas, that allowed the committees to be in full stride with committee hearings the first week of the session; and

Whereas, the schedule assured a measured and steady work flow in the office of legislative services and provided members prompt and ample consideration of their drafting requests; now, therefore, be it:

Resolved by the House of Representatives:

That the following procedures and schedule be adopted for the filing of bills for the 1993 session until the organization of the 1993 general court.

I.(a) In the first-year session, there shall be no limitation on the type of legislation. (House Rule 34(a))

(From House Rule 34(d)(2))

(c) However, the name of the House member whose LSR request was denied due to duplication may be substituted on request for that of the original sponsor should the original sponsor withdraw his or her drafting request prior to the deadline for sign-off of the bill. (From House Rule 34(d)(2))

(d) The speaker of the house shall adjudicate any disagreement concerning the publication of LSRs that may arise between bill sponsors and the office of legislative services. (From House Rule 34 (d)(2))

II. The deadlines for filing legislation for the 1993 session shall be as follows:

Tuesday, September 8, 1992 - First day to file bill-drafting requests for state-agencies.

Thursday, September 10, 1992 - First day that incumbents winning nomination can file, with the office of legislative services, requests for drafting of bills, complete with all supplementary or necessary drafting information for introduction. The office of legislative services shall identify each LSR in language which makes clear the intent of the bill. LSRs, with the name(s) of the sponsor(s), shall be published periodically by the office of legislative services in the house calendar.

Thursday, October 1, 1992 - Final day to file bill-drafting requests for state agencies.

**GOVERNOR'S VETO MESSAGE ON HB 1407**

April 16, 1992

To The Honorable Members of the General Court:

I have this day vetoed House Bill 1407, An Act regulating abortions.

Today, State Law on abortion is superceded by the federal decision in Roe vs. Wade. However, should Roe vs. Wade be overturned, New Hampshire law would once again be applicable. Up until the finding of Roe vs. Wade abortions were illegal in New Hampshire except where the life of the mother was in danger. The Legislature has now passed legislation which would repeal the prior New Hampshire law. The effect of this action would be to eliminate all laws governing abortion in New Hamp-

shire thus allowing abortions at any time during a pregnancy for any reason, making New Hampshire the most liberal state in the nation in this area should Roe vs. Wade be overturned.

Although our present laws have problems and should be amended to remove their antiquated approach relative to criminal penalties and to include addressing the issues of rape and incest, thus substantially improving them, I do believe they are better than leaving the state without any laws. Thus I have vetoed this bill.

Judd Gregg, GOVERNOR

Reps. Hager, Burling, Katherine Wheeler and Lown offered the following:

#### HOUSE RESOLUTION NO. 70

requesting an opinion of the justices concerning the constitutionality of certain laws relative to abortion.

Whereas, House Bill 1407, "An act repealing laws relative to abortion", RSA 585:12, 13, and 14, is currently before the House of Representatives for reconsideration following passage by the House, passage by the senate, and veto by the governor; and

Whereas, since the United States Supreme Court's decision in Roe v. Wade, 410 U.S. 113 (1973), these statutes have been unenforceable; and

Whereas, for 19 years abortions have been available in New Hampshire, and during this time abortions have been regulated as part of the practice of medicine, but not prohibited; and

Whereas, for 19 years there have been no prosecutions brought under these statutes, and the people of New Hampshire have relied on the lack of prosecutions in shaping their conduct; and

Whereas, the factual basis underlying these statutes has changed so that the conditions the statute was enacted to address no longer exist, see State v. Millette, 299 A.2d 150, 154 (N.H. 1972); now, therefore, be it

Resolved by the House:

That the Justices of the Supreme Court be respectfully requested to give their opinion on the following question of law:

Are RSA 585:12, 13, and 14 invalid, unenforceable and unconstitutional under any provision of the United States Constitution or the New Hampshire Constitution?

That the clerk of the house of representatives transmit copies of this resolution and HB 1407 to the Justices of the New Hampshire Supreme Court.

Rep. Hager spoke in favor and yielded to questions.

Reps. Donna Sytek and Burling spoke in favor.

Roll call request sufficiently seconded.

The question being the adoption of the resolution.

### GOVERNOR'S VETO MESSAGE ON HB 1350

April 30, 1992

To the Honorable Members of the General Court:

I have this day vetoed House Bill 1350, An Act Revising the Laws that Require a Prescription to Purchase a Hypodermic Needle.

House Bill 1350 would make hypodermic syringes and needles legal for anyone over 18. The purpose of the bill is to provide a ready supply of needles to illegal intravenous (IV) drug users. The sponsors of House Bill 1350 hope that AIDS cases will be reduced because drug users will stop sharing needles if needles can be purchased legally at pharmacies. The HIV virus is frequently spread by intravenous drug users who share needles.

If I believed that House Bill 1350 would reduce the spread of AIDS, I would sign the bill. However, I do not believe House Bill 1350 will reduce AIDS. Therefore, for the following practical, legal, and philosophical reasons, I have vetoed the bill:

1. There is no substantial evidence that making hypodermic needles available at pharmacies will reduce needle sharing by IV drug users and reduce the spread of AIDS. House Bill 1350 would provide an unlimited supply of hypodermic needles to illegal drug dealers and illegal drug users. The Sponsors and supporters of the bill hope that drug users will stop sharing needles when they inject heroin, cocaine and methamphetamine (speed) into their systems, but will instead use clean needles purchased at their local pharmacy. There is no documented evidence that this will occur.

2. Massachusetts and Maine both provide criminal penalties for the possession and sale of hypodermic needles without prescription. If House Bill 1350 were enacted, New Hampshire pharmacies would provide unlimited access to drug users and dealers from those states. Those individuals would ultimately use, sell and rent New Hampshire needles illegally in their own states. After discussion of this issue with Governor Weld, it is likely that Massachusetts will be reviewing its policies relative to the distribution of hypodermic needles at the end of the year. I believe any action in this area should be done in concert with our sister states, especially Massachusetts, where IV drug use is more significant problem than in New Hampshire.

3. If unlimited access is provided to hypodermic needles, then it is likely that more people will use the needles and possible that more people will use IV drugs. It is altogether possible that "legal" needles could result in more IV drug use and actually increase rather than decrease the spread of AIDS within the drug community.

4. The New Hampshire people, through their elected representatives, have decided that drugs such as heroin, cocaine and methamphetamine (speed) should be illegal and their marketing and use should result in severe criminal penalties. House Bill 1350 directly contradicts the purpose of those criminal laws. Those who support House Bill 1350 freely admit that the purpose of the act is to make it easier for drug users and dealers to administer those illegal and dangerous substances.

5. Pharmacies are intended to exist for the purpose of providing positive and healing services to people who need them. Providing hypodermic needles for the express purpose of administering life threatening illegal drugs, with any regulation, is irresponsible and irrational. Undoubtedly, some of those "legal" needles would eventually be instruments involved in spreading addiction, disease and AIDS.

The objective of the sponsors of House Bill 1350 to reduce the spread of AIDS is legitimate and compelling; however, there is no substantial evidence that the bill would further that objective. In fact, the contrary may be true. The negative effects of wide-open distribution of hypodermic syringes within New Hampshire, and especially in our sister states of Massachusetts and Maine where such sales continue to be regulated, leads me to conclude that this bill should not become law.

Judd Gregg, Governor

Reps. Copenhaver and Trombly spoke in favor of the bill and yielded to questions.

Rep. Roulston spoke against and yielded to questions.

Reps. Elizabeth Moore and McDowell spoke in favor.

### FAREWELL TO THE HOUSE

Its been lots of fun, to say the least, seven years in this Great Hall! Parting is never an easy thing but eventually it comes to all.

For he one who now before you stands its an experience he'll never forget. Wonderful people from all walks of life dedicated, hard workers, you bet!

At times it's been hard to comprehend how some legislation ever go to the floor, yet day after day as the years went by came even more and more!

Now it's easy to say what a waste of time - and lots of it truly was - as some people droned on and on fully convinced of their legislative cause.

But we're all different, to say the least, and its very good that we are. Some are content to just sit and listen while others attempt to star.

This, I'm sure, has been the case for well over 200 years and chances are it will continue on as future legislators shift their gears.

This place is famous - world renown and may it always be! It's the capitol of the greatest state, I'm sure we all agree.

The United States came about over 200 years ago. It was New Hampshire's Constitutional ratification, state number nine, that made it so.

So now, in closing, what a privilege to serve in a place unique on earth. Farewell to you, Ship of State, I've really enjoyed this berth.

Rep. McDowell addressed the House by Unanimous Consent.

In recognition of Armed Forces Day which is coming soon. I would like to read the following poem:

### **SOLDIER**

I was that which others did not want to be. I went where others feared to go, and did what others failed to do.

I asked nothing from those who gave nothing, and reluctantly accepted the thought of eternal loneliness...should I fail.

I have seen the fact of terror; felt the stinging cold of fear; and enjoyed the sweet taste of a moment's love.

I have cried, pained, and hoped...but most of all, I have lived times, others would say were best forgotten.

At least someday I will be able to say that I was proud of what I was...a soldier.

Rep. Betty Hall addressed the House by Unanimous Consent.

I appreciate the kind words which were said yesterday about my concerns about rules. I compliment the leadership and the Clerk, especially the Clerk, for the improvements in the Committee of Conference reporting and evaluation. What we have had, this time, in our seat pockets in the form of those booklets and the blurbs have been extraordinary. I've been told over a number of sessions that it couldn't be done. But they did it! I compliment them. Now if I can get up here and pick up the collection of reports before the day I have to look at them, I can study them adequately. Then we are really in a strong position to deal with these Committee of Conference reports in a reasonable and responsible manner.

A few years ago, I had a conversation about rules with Doug Scamman. He commented that a good Speaker was more important than the wording of rules. I agree completely. A commitment to carry out the spirit of the rules and apply them fairly is the most important thing.

My response to Doug was that if we had a perfect Speaker we wouldn't need rules and if we had a scoundrel for a Speaker no rules would do us any good. But since we're all not perfect, not the Speakers that we've had nor the House members that we've had, we do need rules. A commitment to rules is a very important aspect of the work of the House. I think we can continually work to make them better and more productive. But I sincerely believe that this session has shown a greater commitment to fairness and to an effort to make it possible for us to do our job responsibly as well as the leadership doing its job responsibly. I commend them for what they've done.

Reps. Theriault, Douglas Hall and Scott Green addressed the House by Unanimous Consent.

Rep. William McCain addressed the House by Unanimous Consent.

I didn't decide to quit. I've got a little problem and it's not the County Commissioners, I love those people, even if they don't like me too well sometimes. My health has not been good for about a year and I have had to make some changes in my residence and I have been honest, open and up front with everybody about it.

It comes to the time when you have to decide that it is time to move on. The day is appropriate because HB 1399, which was one of my bills, passed today, finally. That is the first bill I chaired as a sub-committee chairman under Rep. Kay Ward, eight years ago. I caught hell for passing it then because I didn't do it every well. I found out a few things and I have been working on it. I won't say that I haven't been beaten on this floor because one of the worst shellackings I ever took was SB 170 which was another version of this thing that I brought in and Miss Sara Townsend cleaned my clock beautifully for me. Today you passed the bill that I believe so dearly in to get some of the quacks off the street and get the people who do such a great job with our people and their patients. You've got them licensed or certified and I thank you for that. It's appropriate that when you start with something and it finally is done that you call an end to it.

When I walked in here eight years, I stood in the back and I was in awe of these pictures. Unbelievable, a corporate executive who did this as kind of a challenge, "Why don't you run for this, Bill; we would like you to." I still stand here in awe, but not of these pictures, of you my colleagues. I've had a rough year and I've had every one of you that I know behind me. I thank you. I will not be returning. If I ever do, it will be here because this is where my heart is. Thank you.

Without objection, the Speaker ordered the above remarks printed in the Journal.

**OPINION OF THE JUSTICES on HB 1301**

(Materials in Solid Waste Stream)

May 6, 1992

The following Resolution No. 60, requesting an opinion of the justices, by the house of representatives was adopted on March 5, 1990, and filed with the supreme court on March 6, 1992:

Whereas, there is pending in the House, House Bill 1301-FN, An Act setting priorities for the disposal of certain components of the solid waste stream; and

"Whereas, an amendment has been proposed to HB 1301-FN; and

"Whereas, doubt has arisen as to the constitutionality of the provisions of said bill; and

"Whereas, it is important that the constitutionality of said provisions should be settled in advance of the enactment of HB 1301-FN; now, therefore, be it

"Resolved by the House of Representatives:"

"That the Justices of the Supreme Court be respectfully requested to give their opinion on the following question of law:

1. Would the prohibition on the disposal, composting or incineration or on contracting for the disposal, composting or incineration of certain recyclable materials beginning January 1, 1994, imposed by RSA 149-M:22 as amended by the proposed amendment, constitute an illegally mandated state program or responsibility under Part I, Article 28-a of the New Hampshire Constitution?

"That the clerk of the house of representative transmit copies of this resolution and HB 1301-FN, and the proposed amendment to the justices of the New Hampshire Supreme Court."

The following response is respectfully returned.

To the Honorable House of Representatives:

The undersigned justices of the supreme court now submit the following reply to your question of March 5, 1990. Following our receipt of your resolution on March 6, 1992, we invited interested parties to file memoranda with the court until March 27, 1992. The date was later extended to April 14, 1992.

Part I, article 28-a of the New Hampshire Constitution, which was ratified by the required two-thirds majority of the citizens of the State on November 6, 1984, provides that

"The state shall not mandate or assign any new, expanded or modified programs or responsibilities to any political subdivision in such a way as to necessitate additional local expenditures by the political subdivision unless such programs or responsibilities are approved for funding by a vote of the local legislative body of the political subdivision."

We have, on a prior occasion, examined this provision.

In *N.H. Munic. Trust Workers' Comp. Fund v. Flynn*, Comm'r, 133 N.H. 17, 573 A.2d 439 (1991), we stated that "the amendment was designed to prohibit the State from placing additional obligations on local government without either obtaining their consent of providing the necessary funding." *Id.* at 22, 573 A.2d at 443. We held in *Flynn* that "the constitutionality of a particular State mandate under article 28-a does not hinge solely on whether or not it may be categorized as a new, expanded or modified program, but also on whether or not the mandate imposes upon local government an additional fiscal obligation." *Id.* at 23, 573 A.2d at 443. The primary consideration is the net effect of the program. *Id.* Invoking the constitutional prohibition requires both a mandate of responsibility to the political subdivision and a requirement of additional local political subdivision expenditures by virtue of the mandate.

In order to determine whether House Bill 1301-FN constitutes a cost-creating mandate in contravention of part I, article 18-a, we must examine the language of the proposed statute in the context of existing RSA chapter 149-M. We will interpret a statute, when possible, in a manner consistent with its plain meaning. *Petition of Jane Doe*, 132 N.H. 270, 276-277, 564 A.2d 433, 438 (1989). Our examination of the particular statute at issue is made in relation to the overall statutory scheme. *Appeal of Richards*, 134 N.H. 148, 161, 590 A.2d 586, 594, cert. denied sub nom. *Richards v. New Hampshire*, 112S. Ct. 275 (1991).

RSA chapter 149-M, titled "Solid Waste Management" (the Chapter) is an expansive solid waste management statute. It calls upon the State, through the division of waste management, to conduct comprehensive solid waste planning and to regulate and enforce the State's solid waste laws. RSA 149-M:2, :3. It also calls upon the towns to provide, or to assure access to, solid waste facilities. RSA 149-M:13, I (Supp. 1991). The Chapter includes various substantive provisions and delegates rule-making authority to the division of waste management. RSA 149-M:8, IV. It includes a definitional framework for interpretation of the Chapter. RSA 149-M:1. The purpose of House Bill 1301-FN is to effect a change in the substantive provisions of the Chapter that will "strive to manage solid waste in a manner that makes optimal use of each component of the solid waste stream." Proposed RSA 149-M:1, II-a. To that end, the proposed bill would repeal RSA 149-M:22 and substitute:

"Consistent with RSA 149-M:1-a, [and proposed section] II-a, the department [of environmental services] shall restrict or prohibit the disposal of certain components of the solid waste stream when it determines that:

(a) Disposal of the material presents a potential adverse impact to public health, safety or the environment;

(b) A restriction or prohibition will result in the extension of the useful life or capacity of a facility or class of facilities; or

(c) A preferred and feasible alternative exists for handling a given component consistent with the hierarchy set forth in RSA 149-M:1-a."

The repealed section, entitled "Refuse Recycling or Reduction", sought to reduce the solid waste stream by mandating target reductions, providing incentives for recy-

clinging and providing disincentives for some forms of disposal. RSA 149-M:22. An amendment in 1990 prohibited the disposal of wet-cell batteries at any solid waste facility. RSA 149-M:22, V (Supp. 1991). In addition to calling upon the department of environmental services to manage the solid waste stream, House Bill 1301-FN provides the department with specific authority to restrict or prohibit disposal of certain solid waste stream components on satisfaction of certain determined conditions. The proposed replacement section sets forth the following statutory prohibitions:

"No person shall dispose of, compost or incinerate or contract for the disposal or incineration of the following materials except as indicated below. No landfill, composting facility or incinerator shall accept the restricted materials except to permit the layover of such materials on their processing course . . . . No person shall dispose of, compost or incinerate:

- (a) Aluminum containers after January 1, 1994.
- (b) Metal or glass containers after January 1, 1994.
- (c) Recyclable plastics after January 1, 1995.
- (d) Recyclable paper after January 1, 1996."

Proposed RSA 149-M:22, II. It is this proviso that forms the basis for your opinion request.

We find that House Bill 1301-FN does not violate part I, article 18-a of our State Constitution. It is not a State "mandate" requiring the recycling of certain goods, imposing responsibilities on, and necessitating expenditures by, political subdivisions. Rather, it prohibits disposal of certain goods by the solid waste generator, and prohibits acceptance of those goods by a landfill, composting facility or incinerator for disposal.

Every town in this State is currently required to "either provide, or assure access to, an approved solid waste facility for its residents." RSA 149-M:13, I (Supp 1991). "Solid waste" is defined as

"any matter consisting of putrescible material; refuse; or residue from an air pollution control facility; and other discarded or abandoned material. It includes solid, liquid, semisolid or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities."

RSA 149-M:1, XIX (supp. 1991). A "[f]acility means a location or system for: [r]e-source recovery; [r]ecycling[:]; [or] [c]ollection, source separation, storage, transportation, processing, treatment, or disposal of solid waste." RSA 149-M:1, VIII. We discern that the definitional description of "facility" operations was intended by the legislature to be disjunctive and, therefore, resource recovery and recycling is not part of the "solid waste facility" mandate in RSA 149-M:13, I (Supp. 1991) either in its present or in its pre-article 28-a form. We understand RSA 149-M:13, I (Supp 1991) to require each town to provide or assure access to a facility where its residents may dispose of solid waste. It does not require that a town provide its residents with the means to recycle.

House Bill 1301-FN seeks to refine what is meant by "solid waste". It restricts the disposal, compost, or incineration of certain materials; namely, aluminum, metal, and glass containers, recyclable plastics, and recyclable paper. Proposed RSA 149-M:22, II. Its effect is to prohibit the disposal of these enumerated materials at solid waste facilities; it defines by exclusion those goods that may be disposed of in the solid waste stream.

There is no requirement in RSA chapter 149-M that a town operate, or even assure access to, a recycling facility. House Bill 1301-FN would seem to provide municipalities with the option of either operating a recycling facility or of allowing its residents to make their own provisions for disposal of those materials outside of the solid waste stream. Although the practical effect in most towns and cities may be the establishment or continuation of resource recovery or recycling operations, this effect is not mandated by the proposed amendment. Political subdivisions remain free to allow any costs resulting from the proposed restrictions to be borne directly by their residents. The local legislative body will have the last word on both the program and the funding.

House Bill 1301-FN does not constitute an illegally mandated State program or responsibility in violation of part I, article 28-a of New Hampshire Constitution. Accordingly, the question of the House of Representatives is answered in the negative.

David A. Brock, William F. Batchelder, William R. Johnson, W. Stephen Thayer, III and Sherman D. Horton, Jr.

**OPINION OF THE JUSTICES**

(House Bill 1407)

May 6, 1992

Response to the Honorable House of Representatives.

On April 30, 1992, this court received a resolution from the house of representatives requesting an opinion of the justices concerning the constitutionality of RSA 585:12, :13 and :14. "[I]t has been the long-established law in this State that the 'constitutional provision for advisory opinions, with exceptions not material here, does not permit the Supreme Court to advise the Legislature as to the meaning and scope of existing statutes.'" Opinion of the Justices, 116, N.H. 358, 360 (1976) (quoting Opinion of the Justices, 102, N.H. 187, 188 (1959)). "Similar considerations prevent the supreme court from rendering advisory opinions on the constitutionality of existing laws as distinct from the constitutionality of proposed legislation." Opinion of the Justices, 116 N.H. at 360. While we have been advised by the house that House Bill 1407, an act to repeal the laws in question, is currently before the house for reconsideration following passage by the house and senate and veto by the Governor, no question as to the constitutionality of House Bill 1407 has been propounded by the house. The justices of the supreme court, therefore, respectfully request that they be excused from the duty to return an answer to your inquiry.

David A. Brock, William F. Batchelder, William R. Johnson, W. Stephen Thayer, III and Sherman D. Horton, Jr.

**MOTION TO REMOVE FROM THE TABLE**

Rep. Pepino moved that **HB 1407**, repealing laws relative to abortion, be removed from the table. (Pending question: Notwithstanding the Governor's veto, shall HB 1407 pass) (Veto message printed in HJ 25, 4/29/92)

Roll call request sufficiently seconded.

The question being to remove HB 1407 from the table.

## GOVERNOR'S VETO MESSAGE ON HOUSE BILL 1498

May 8, 1992

To the Honorable Members of the General Court:

Today I vetoed House Bill 1498-FN, relative to drug forfeiture.

I vetoed the bill because it is an insult to the law-abiding, taxpaying citizens of New Hampshire who are fighting an expensive and deadly war against drugs. If House Bill

1498 becomes law, the New Hampshire Legislature will have handed a weapon to the enemy. Drug dealers hate and fear the specter of the forfeiture law, but they and their lawyers will have a field day with House Bill 1498 if it passes.

The proponents of House Bill 1498 claim that the bill would be "fairer" to drug dealers and would make forfeitures more "proportionate to the seriousness of the charged offense." The truth of the matter is that "fairness" to society requires stiff penalties and tough enforcement. Drug dealers must be held fully accountable for the damage they do to our society, our citizens and our families.

In *U.S. v. A Parcel of Land*, the First Circuit Court of Appeals reasoned as follows:

"The ravages of drugs upon our nation and the billions the government is being forced to spend upon investigation and enforcement - not to mention the cost of drug related crime and drug abuse treatment, rehabilitation, and prevention - easily justify a recovery in excess of the strict value of the property [involved in the incident]."

Drug-related property and money forfeited in a specific situation may seem an excessive penalty for the particular incident, but consider the hundreds of transactions that are never uncovered and never prosecuted.

The proportionality provisions in combination with the "automatic stay" provisions of House Bill 1498 create costly practical problems and raise unnecessary constitutional issues. If the New Hampshire civil forfeiture law is linked to our criminal law through the automatic stay provision, criminal lawyers may argue that issues of double jeopardy and standard of proof should apply. Also, if the automatic stay is instituted, property seized under the forfeiture act would have to be stored indefinitely, resulting in storage expenses, depreciation and creditor problems that are not justified.

Currently, RSA 318-b: 17-b provides that property and money knowingly used in the drug trade is subject to forfeiture and sale by the State of New Hampshire. 45% of the first \$200,000 raised is returned to the community, 10% to the state office of alcohol and drug abuse, and 45% to the department of justice for drug programs at local, county and state levels. The "DARE" program is an example. Any balance remaining goes primarily to the department of justice enforcement fund. If the fund goes over \$1,000,000 the remainder goes to the general fund. In the last 5 years, over \$1.6 million has been collected and expended for criminal drug enforcement and drug prevention programs.

Contrary to some of the more "fashionable" social theories, tough laws with tough penalties do deter many people from committing anti-social and self-destructive acts. The New Hampshire legislature recently exercised this reasoning when it passed enhanced penalties for DWI, homicide and sexual assault cases. The New Hampshire drug forfeiture law should remain as it stands. It parallels federal law and helps finance law enforcement efforts in this war; it sends the right message to drug dealers: If you deal in illegal drugs, the people of New Hampshire have authorized their government to take everything you own in connection with that business.

Drug dealers and their lawyers fear our drug forfeiture laws. If House Bill 1498 passes they will celebrate a victory that they cannot win in court. House Bill 1498-FN is a misguided, irresponsible and unreasonable bill that hurts our police, our prosecutors, and our drug education and rehabilitation efforts. It would only benefit criminals at the expense of the New Hampshire public.

Judd Gregg, Governor

Rep. Lown spoke in favor of overriding the veto.

Reps. Jasper and Lougee spoke against and yielded to questions.

Reps. Warburton, Welch and Richard Campbell spoke in favor.

Reps. Richard Hill and Donna Sytek spoke against.

Reps. Jacobson and Lozeau spoke in favor and yielded to questions.

The question being, notwithstanding the Governor's veto, shall **HB 1498-FN**, relative to drug forfeiture, pass.

As required by the Constitution, a roll call was taken.

Its introduction having been approved by the Rules Committee, Reps. Fuller Clark and McCarthy moved that the rules be so far suspended as to permit consideration at the present time of **HR 72**, calling for the preservation of Wentworth-By-The-Sea.

On a division vote 268 members have voted in the affirmative and 46 in the negative, the motion was adopted by the necessary two-thirds.

Reps. Fuller Clark, McCarthy and Rep. Coffey offered the following:

#### HOUSE RESOLUTION NO. 72

Whereas, the Wentworth-By-The-Sea resort hotel, New Hampshire's historic landmark hotel located in New Castle, New Hampshire, has been called the last of northern New England's great coastal hotels and was the site of peace talks which led to the signing of the Treaty of Portsmouth and the end of the Russo-Japanese War in 1905; and

Whereas, the Wentworth-By-The-Sea hotel survived the recessions of 1893, 1896, 1907, and the Great Depression of the 1930's and was a vacation retreat for President Franklin Roosevelt, actress Gloria Swanson and poet Ogden Nash, among others; and

Whereas, the Wentworth-By-The-Sea hotel embodies architectural and historical significance and a resort tradition of the past rarely available today; and

Whereas, the town of New Castle, the seacoast, and the state could reap substantial economic benefits from the preservation and revitalization of the Wentworth-By-The-Sea hotel; and

Whereas, Friends of the Wentworth, Inc., a nonprofit organization formed by a group of volunteers comprised principally of New Castle residents, are spearheading a fundraising effort to save the hotel and have developed a viable marketing alternative for the hotel involving its renovation into a 63-room inn and conference center; and

Whereas, the Japan-America Society of New Hampshire has appealed to the present owners of the hotel to preserve it; and

Whereas, engineers have determined that the hotel is as structurally-sound today as when the hotel was built; and

Whereas, demolition of the hotel would ultimately diminish the value and marketability of the Wentworth property and would also be a substantial loss to the town of New Castle and surrounding communities; now, therefore, be it

Resolved by the House of Representatives:

That the house of representatives recognizes that the Wentworth-By-The-Sea resort hotel is of important historical and architectural significance to the entire state and region and that, because of its past and the economic promise it holds for the future, it deserves to be preserved, and that copies of this resolution be forwarded by the house clerk to the governor, speaker of the house, president of the senate, the town clerk of New Castle and to the current owners of Wentworth-By-The-Sea.  
Adopted.

### SUSPENSION OF RULES

Its introduction having been approved by the Rules Committee,

Reps. Wallner, Hager, Lovejoy and Larson moved that the rules be so far suspended as to permit consideration at the present time of **HR 73**, urging the governor to place a high priority on early intervention services for children.

Rep. Hager spoke in favor and yielded to questions.

Adopted by the necessary two-thirds.

Reps. Wallner, Hager, Lovejoy and Larson offered the following:

### HOUSE RESOLUTION NO. 73

Whereas, the state of New Hampshire has shown a commitment to individuals with disabilities through the closing of Laconia developmental services, formerly the Laconia state school; and

Whereas, New Hampshire has provided early intervention services to children with disabilities through a statewide network for over a decade; and

Whereas, America 2000 calls for all children to enter school ready to learn; and

Whereas, in 1986 the United States Congress recognized "(1) an urgent and substantial need to enhance the development of handicapped infants and toddlers and to minimize their potential for developmental delay, (2) to reduce the educational costs to our society including our Nation's schools by minimizing the need for special education and related services after the handicapped infants and toddlers reach school age, (3) to minimize the likelihood of institutionalization of handicapped individuals and maximize the potential for their independent living in society and (4) to enhance the capacity of families to meet the special needs of their infants and toddlers with handicaps" and passed P.L. 99-457 to provide financial assistance to states to support and create early intervention systems nationwide; and

Whereas, Congress has reauthorized the legislation through P.L. 102-119 The Individuals with Disabilities Education Act with increased federal appropriations; now, therefore be it

Resolved by the House of Representatives:

That the house of representatives hereby urges the governor of the state of New Hampshire to proceed into year four requirements as stipulated under Part H of the P.L. 102-119; and

That the governor place a high priority on early intervention services for children in New Hampshire; and

That a report shall be submitted by the governor and the state interagency coordinating council to the legislature so that the house committees of health, human services and elderly affairs, education, and children, youth and juvenile justice can hold

public hearings during the 1993 legislative session and receive full information on P.L. 102-119.

On a division vote, 267 members having voted in the affirmative and 35 in the negative, the resolution was adopted.

### SUSPENSION OF RULES

Reps. Teague and Wallner moved that the rules be so far suspended as to permit consideration at the present time of **HB 1503**, relative to voting in certain wards in the city of Concord.

Rep. Teague spoke in favor and yielded to questions.

Adopted by the necessary two-thirds.

**HB 1503**, relative to voting in certain wards in the city of Concord.

### ANALYSIS

This bill applies to voting in wards 6 and 7 in the city of Concord at the 1992 state primary and state general elections. The bill provides that voters in ward 7 in the city shall vote at the ward house located in ward 6 for these elections. Prior to the 1992 redistricting, this ward house was located in ward F in the city of Concord.

1 Declaration of Purpose. The purpose of this act is to ensure maximum participation by the voters in ward 7 in the city of Concord at the state primary and state general elections to be held in 1992, and to avoid any accidental disenfranchisement of those voters. The general court finds that this may be accomplished by allowing these voters to vote at the same ward house in Concord which they have used for the last 108 years.

2 Voting at the State Primary and State General Elections in Concord. The provisions of this act shall apply to voting at the 1992 state primary and state general elections. Notwithstanding any other provision of law to the contrary, the voters in ward 7 in the city of Concord shall vote at the ward house which is located in ward 6 in the city of Concord. This ward house, located at 41 West Street, is the ward house which was located in ward F in the city of Concord and used as the polling place for voting in that ward prior to the 1992 redistricting legislation which was adopted by the general court in 1992, 183 (HB 1005). The provisions of this act shall not affect the polling place to be used by voters in ward 6 in the city of Concord.

3 Effective Date. This act shall take effect upon its passage.

Adopted.

Ordered to third reading.

### RESOLUTION

Rep. Gross offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet at the call of the Chair.

Adopted.

James Chandler, Clerk

Enclosed is a notice regarding the request for an opinion of the justices (SR 5, 4/21/92) which was filed by the senate on April 30, 1992, on the question of the constitutionality of a bill establishing a parental choice in education program. (SB 419-FN)

On May 6, 1992, the court respectfully requested to be excused from the duty to return answers because the time remaining before the anticipated termination of the General Court's current session was insufficient to consider the questions properly. By letter dated May 18, 1992, and received by the court yesterday, the president of the

senate informed the court that the senate had voted to keep this bill on the table and had adjourned to the call of the chair; therefore, the president requested that the court answer the senate's question, taking sufficient time to allow interested parties to file memoranda.

The court has agreed to receive typewritten memoranda on the questions presented from any attorney, legislator, organization, interested party or member of the public on or before June 22, 1992. An original and 15 copies of any memorandum shall be filed.

Howard J. Zibel, Clerk  
N. H. Supreme Court

### COMMUNICATION OPINION OF THE JUSTICES

(House Bill 1058)

June 10, 1992

To the Honorable House of Representatives:

The undersigned justices of the supreme court now submit the following replies to your questions of March 5, 1992. Following our receipt of your resolution on March

6, 1992, we invited interested parties to file memoranda with the court on or before April 6, 1992. That date was later extended to April 14, 1992.

House of Representatives Bill (HB) 1058-FN (the bill) is a budget-slashing device intended by the proponents to rescue the State from the prospects of fiscal ruin. In essence, it would require certain State employees to take unpaid leave, thus reducing State expenditures and obviating the possibility of still deeper spending cuts or the imposition of additional taxes. The bill provides:

“1 Employee Furlough Program.

I. Notwithstanding any other provision of law, rule, or regulation to the contrary, during the biennium ending June 30, 1993, each person occupying a permanent full-time classified, unclassified, or nonclassified position, regardless of the branch of government or source of funding, is hereby required to take unpaid days of leave according to the following schedule:

Salary Range	Number of Days of Unpaid Leave
\$15,000 or less	0
\$15,001 - \$25,000	3
\$25,001 - \$40,000	5
more than \$40,000	6

II. The periods when such leave is taken shall be decided in consultation with such person's supervisor but no person shall take more than one day of unpaid leave in any one week. For the purpose of this section the requirements to take unpaid leave cannot be satisfied by using sick leave, annual leave, bonus leave, floating holidays, compensatory time or any other similar benefit.

III. The savings from this action shall be lapsed into the salary adjustment fund and the employee benefit adjustment account as appropriate, to revert to the appropriate fund, and, except for federal or other non-state funds, shall not be available for transfer for any purpose.

IV. No employee furloughed according to the provisions of this section shall, for purposes of retirement members average final compensation calculations only, have his salary reduced to an amount less than the employee would have earned had the furlough provisions required by this section not been implemented.

V. No employee shall as a result of the provisions of this section forfeit any benefits relative to annual or sick leave, additional annual leave, bonus leave or longevity pay. An unpaid day of leave taken pursuant to this section shall not in any event be considered a break in service for the purposes of determining anniversary dates or for purposes of the continuous service requirements for health and dental insurance coverage.

2 Effective Date. This act shall take effect upon its passage.”

We begin our analysis with question one, which asks “[w]hether [the bill] affects the terms of the collective bargaining agreement currently in effect between the state and classified state employees and, if so, whether its effect is to violate the contract clause of the United States Constitution, Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1[,] Art. 23?” We answer all parts of this question in the affirmative.

Part I, article 23 of the New Hampshire Constitution states: “Retrospective laws are highly injurious, oppressive, and unjust. No such laws, therefore, should be made . . . for the decision of civil causes . . . .” “Retrospective law” has been defined as follows: “every statute, which takes away or impairs vested rights, acquired under

existing laws, or creates a new obligation, imposes a new duty, or attaches a new disability, in respect to transactions or considerations already past . . . .” *Woart v. Winnick*, 3 N.H. 473, 479 (1826) (quoting *Society v. Wheeler*, 22 F. Cas. 756, 767 (C.C.D.N.H. 1814) (No. 13,156)).

Article 1, section 10 of the Federal Constitution, on the other hand, declares that “[n]o state shall . . . pass any . . . law impairing the obligation of contracts . . . .” Although the New Hampshire provision affords more protection than its federal counterpart, compare *United States Trust Co. v. New Jersey*, 431 U.S. 1, 17 (1977) (“[The federal] Contract Clause does not prohibit States . . . from enacting legislation with retroactive effect.”) with *Gould v. Concord Hospital*, 126 N.H. 405, 408, 493 A.2d 1193, 1195-96 (1985) (right to assert statute of limitations defense vests once limitations period has run; part I, article 23 prohibits law from operating retroactively to impair that vested right); see also *Society v. Wheeler*, 22 F. Cas. at 767 (where no contract violation is alleged, federal provision does not apply; part I, article 23 may apply if law is retrospective), this court has relied on federal contract clause cases to resolve issues raised under part I, article 23 where contract impairment, and not simply retroactive application of a law, was alleged, see *Smith Insurance, Inc. v. Grievance Committee*, 120 N.H. 856, 862-63, 424 A. 2d 816, 820 (1980); *Geldhof v. Penwood Associates*, 119 N.H. 754, 755, 407 A. 2d 822, 823 (1979). We therefore understand article I, section 10 and part I, article 23 to offer equivalent protections where a law impairs a contract, or where a law abrogates an earlier statute that is itself a contract, see *United States Trust Co. v. New Jersey*, 431 U.S. at 17 n.14 (“[W]hen the language and circumstances evince a legislative intent to create private rights of a contractual nature enforceable against the State,” the “statute is itself treated as a contract.”). For convenience, the phrase “contract clause of the New Hampshire Constitution” or the like will designate that portion of part I, article 23 which duplicates the protections found in the contract clause of the United States Constitution.

The first part of question one, asking whether the bill affects the terms of the collective bargaining agreement (the CBA), articulates the first step in any contract clause analysis. There can be no contract clause violation unless it is first shown that a contract has been substantially altered. See *Energy Reserves Group, Inc. v. Kansas Power & Light Co.*, 459 U.S. 400, 411 (1983); *Allied Structural Steel Co. v. Spannaus*, 438 U.S. 234, 244 (1978). “This inquiry has three components: whether there is a contractual relationship, whether a change in law impairs that contractual relationship, and whether the impairment is substantial.” *General Motors Corp. v. Romein*, \_\_\_\_\_ U.S. \_\_\_\_\_, \_\_\_\_\_, 112 S. Ct. 1105, 1109 (1992).

There appears to be no question that a contract exists between the State and certain classified employees. The CBA referenced in question one was made and entered into by the State and the State Employees’ Association of New Hampshire, Inc., SEIU Local 1984 AFL-CIO, CLC, which is described in section 1.1 of the CBA as the exclusive representative of “all classified employees in the bargaining unit with the exception of those classified employees excluded from the definition of public employee under the provisions of RSA 273-A:1, IX,” and its preamble declares that the parties intend to be bound by its provisions. See generally RSA 273-A:9 (authorizing negotiation of terms and conditions of employment between State and bargaining units representing State employees). The main dispute instead centers around the issue of impairment: the memoranda of the speaker of the house of representatives

(the speaker) and the attorney general both contend that the bill would not actually affect the terms of the CBA.

More specifically, the speaker and the attorney general argue first that no part of the CBA is altered by the furlough requirement, because the CBA does not guarantee a minimum amount of work for the covered employee. Rather, they contend, it only guarantees rates of pay. We disagree. The preamble and section 6.1 of the CBA state:

"In consideration of the mutual covenants herein set forth, the parties hereto intending to be bound hereby, agree as follows: . . . The basic workweek for every full-time clerical, supervisory and professional employee in the state classified service in each unit, with due allowance for authorized holidays and leaves of absence with pay shall be thirty-seven and one half (37 1/2) hours per week."

(Emphasis added). Similar provisions for full-time trade, custodial, and law enforcement workers are contained in subsections 6.1.1 and 6.1.2, and while the CBA provides for overtime pay in certain circumstances, it does not contemplate less pay. We find no room in the plain language quoted above for the arguments proffered by the speaker and the attorney general.

The speaker and the attorney general next contend that forced unpaid leave is allowable under the CBA as a management prerogative and that consequently the provisions of the bill do not affect the CBA's terms. Again, however, the language of the CBA contradicts this argument. Section 2.1 states: "The Employer retains all rights to manage, direct and control its operations in all particulars, subject to the provisions of law, personnel regulations and the provisions of this Agreement, to the extent that they are applicable." (Emphasis added.) This section unambiguously allows the exercise of "management prerogative" only where doing so does not violate the terms of the CBA. Thus, the State cannot draw independent authority from section 2.1 to usurp the guarantee of minimum work week granted in section 6.1.

The attorney general's reliance on Appeal of International Association of Firefighters, AFL-CIO, 123 N.H. 404, 462 A.2d 98 (1983), to support its "managerial prerogative" argument is misplaced. That case simply held that under RSA 273-A:1, XI, which defines "managerial policy within the exclusive prerogative of the public employer," personnel staffing is not a mandatory subject of collective bargaining. *Id.* at 408, 462 A.2d at 101. It did not condone a decrease in staffing during the effective term of a contract, as the attorney general apparently argues. In fact, the procedural history of the case reveals that before the parties' contract expired, the city-employer limited the employees' vacation choices, decreased the number of firefighters in certain platoons, and required other employees to work "straight time" as "untrained" firefighters. In an unappealed decision, the arbitrator below found that "most of the newly implemented practices violated the working agreement" between the parties. *Id.* at 406, 462 A. 2d at 99.

The speaker and the attorney general also cite the CBA's "emergency" provisions in defense of the bill. Subsection 2.1.6 allows the State to take "whatever actions may be necessary to carry out the mission of the department in situations of emergency, the determination of such situations to be the prerogative of the [State]." (Emphasis added.) Even assuming that the current fiscal predicament is an emergency and that forcing State workers to take unpaid leave is necessary to carry out the mission of a department, we still cannot accept the speaker's and attorney general's argument. Subsection 2.1.6's "emergency" provision is a portion of section 2.1, defining "managerial prerogatives." As explained above, the State may not exercise this prerogative if in doing so it violates any provision of the CBA.

The attorney general next contends that because the CBA does not mention forced unpaid leave, this silence must be construed against the employees. Even the case the attorney general cites in support of this argument, however, *Fertilizing Co. v. Hyde Park*, 97 U.S. 659 (1878), states that “[n]othing is to be taken as conceded but what is given in unmistakable terms, or by an implication equally clear.” *Id.* at 666 (Emphasis added). The CBA plainly guarantees a work week of a certain length, with allowances made only for holidays and paid leave. Forcing workers to take unpaid leave just as plainly violates the contract. If we were to condone such a violation merely because the issue of mandatory furloughs is not explicitly discussed in the CBA, then we would also have to allow the State unilaterally to cancel accrued sick leave or reduce rates of pay, as neither of these practices are specifically forbidden by the contract.

Finally, the attorney general maintains in its memorandum that “[t]he CBA does not create an employment contract for state employees for any definite period of time [and therefore] ... state employees do not have a vested right in future wages for future services for which the State has decided not to pay.” To answer this argument, we simply point to the title page of the CBA, which reads “1989 - 1991,” and section 21.1, which states: “This Agreement as executed by the Parties is effective July 1, 1989 and shall remain in full force and effect through June 30, 1991 or until such time as a new Agreement is executed.” The attorney general has not offered an explanation why this language should be ignored, and we can discern none.

Having found that the bill impairs the CBA, we next ask whether the impairment is substantial. See *General Motors Corp. v. Romein*, \_\_\_\_\_ U.S. at \_\_\_\_\_, 112 S. Ct. at 1109.

“The severity of an impairment of contractual obligations can be measured by the factors that reflect the high value the Framers placed on the protection of private contracts. Contracts enable individuals to order their personal and business affairs according to their particular needs and interests. Once arranged, those rights and obligations are binding under the law, and the parties are entitled to rely on them.”

*Allied Structural Steel Co. v. Spannaus*, 438 U.S. at 245; cf. *Home Bldg. & L. Assn. v. Blaisdell*, 290 U.S. 398, 427-28 (1934) (instability of affairs resulting from laws impairing contracts motivated inclusion of contract clause in Federal Constitution); *Ogden v. Saunders*, 25 U.S. (12 Wheat.) 212, 354-55 (1827) (Marshall, C.J., dissenting) (same). In a recent case involving a new York lag payroll law, the Second Circuit Court of Appeals explained its finding of substantial contract impairment:

“The affected employees have surely relied on full paychecks to pay for such essentials as food and housing. Many have undoubtedly committed themselves to personal long-term obligations such as mortgages, credit cards, car payments, and the like — obligations which might go unpaid in the months that the [law] has its immediate impact.”

*Ass’n of Surrogates v. State of N.Y.*, 940 F.2d 766, 772 (2d Cir. 1991) (holding lag payroll law unconstitutional as violative of the federal contract clause); see also *State v. Vashaw*, 113 N.H. 636, 637-38, 312 A.2d 692, 693 (1973) (“The underlying policy of this prohibition is to prevent the legislature from interfering with the expectations of persons as to the legal significance of their actions taken prior to the enactment of a law.”). The bill under consideration here impairs the very heart of an employment contract: the promise of certain work for certain income. Its impact would likely wreak havoc on the finances of many of the affected workers and can only be considered substantial.

Because the bill substantially impairs the contract between the State and certain classified employees, it violates the literal terms of the contract clauses of the State and Federal Constitutions. Nevertheless, "it is to be accepted as a commonplace that the Contract Clause does not operate to obliterate the police power of the States." *Allied Structural Steel Co. v. Spannaus*, 438 U.S. at 241; see also *Manigault vs. Springs*, 199 U.S. 473, 480 (1905). "If the Contract Clause is to retain any meaning at all, however, it must be understood to impose some limits upon the power of a State to abridge existing contractual relationships, even in the exercise of its otherwise legitimate police power." *Allied Structural Steel Co. v. Spannaus*, 438 U.S. at 242. Thus, a balancing of the police power and the rights protected by the contract clauses must be performed, and a bill or law which substantially impairs a contractual obligation may pass constitutional muster only if it is "reasonable and necessary to serve an important public purpose." *United States Trust Co. v. New Jersey*, 431 U.S. at 25.

"Unless the State itself is a contracting party, . . . '[a]s is customary in reviewing economic and social regulation, . . . courts properly defer to legislative judgment as to the necessity and reasonableness of a particular measure.'" *Energy Reserves Group v. Kansas Power & Light*, 459 U.S. at 412-13 (quoting *United States Trust Co. v. New Jersey*, 431 U.S. at 22-23). But where the State attempts to abridge its own contract,

"complete deference to a legislative assessment of reasonableness and necessity is not appropriate because the State's self-interest is at stake. A governmental entity can always find a use for extra money, especially when taxes do not have to be raised. If a State can reduce its financial obligations whenever it wanted to spend the money for what it regarded as an important public purpose, the Contract Clause would provide no protection at all."

*United States Trust Co. v. New Jersey*, 431 U.S. at 26; see also *Energy Reserves Group v. Kansas Power & Light*, 459 U.S. at 412 n.14 ("When a State itself enters into a contract, it cannot simply walk away from its financial obligations. In almost every case, the Court has held a governmental unit to its contractual obligations when it enters financial or other markets.").

The speaker contends in his memorandum that "the public interest in achieving fiscal stability and a desire on the part of the Legislature to do so at the least cost to the operation of state government and its employees constitutes a sufficient public interest to justify any potential impairment of a contract." The attorney general makes a similar argument. A State, however, "cannot refuse to meet its legitimate financial obligations simply because it would prefer to spend the money to promote the public good rather than the private welfare of its creditors." *United States Trust Co. v. New Jersey*, 431 U.S. at 29. As the Washington Supreme Court stated:

"Financial necessity, though superficially compelling, has never been sufficient of itself to permit states to abrogate contracts. '[A] State is not completely free to consider impairing the obligations of its own contracts on a par with other policy alternatives.' . . . If governments could reduce their financial obligations whenever an important public purpose could be conceived for repudiating a contract 'the Contract Clause would provide no protection at all.'"

*Carlstrom v. State*, 103 Wash. 2d 391, 396, 694 P.2d 1, 5 (1985) (quoting *United States Trust Co. v. New Jersey*, 431 U.S. at 26, 30-31). "The contract clause, if it is to mean anything, must prohibit [the State] from dishonoring its existing contractual obligations when other policy alternatives are available." *Ass'n of Surrogates v. State of N.Y.*, 940 F.2d at 774.

Based on the ample authority cited above, we find the bill neither reasonable nor necessary to serve an important public purpose. See *United States Trust Co., v. New Jersey*, 431 U.S. at 25. The legislature has many alternatives available to it, including reducing non-contractual State services and raising taxes and fees. Although neither of these choices may be as politically feasible as the furlough program, the State cannot resort to contract violations to solve its financial problems. Professor Tribe explains:

"For its own purposes, a government may find it convenient, sometimes indeed imperative, to signal its trustworthiness and thus to induce the sort of reliance that it could instead have spurned. When government makes that choice, a powerful argument may be advanced that the most basic purposes of the impairment clause, as well as notions of fairness that transcend the clause itself, point to a simple constitutional principle: government must keep its word."

L. Tribe, *American Constitutional Law* 470 (1978) (emphasis in the original) (footnote omitted).

We next turn to question two, which asks whether the bill "affects the terms of appointment currently in effect between the state and unclassified state employees and, if so, whether its effect is to violate the contract clause of the United States Constitution, Art. 1, Sec. 10 or the New Hampshire Constitution, Pt. 1, Art. 23?" As a preliminary matter, we note that while the bill extends its scope to "classified, unclassified, [and] nonclassified" workers, the request of the house of representatives refers only to "classified" and "unclassified" employees. Neither "unclassified" nor "nonclassified" is defined anywhere in the bill, the request of the house of representatives, or our State statutes. Cf. RSA 94:1-a, III, IV (Supp. 1991) (apparently referring to State officers listed in RSA 94:1-a, I as "unclassified" employees); RSA 21-I:49 (Supp. 1991) (defining "classified service" in terms of those exempt from the service, making no distinction between "unclassified" and "nonclassified" employees). For purposes of this question then, we assume the house of representatives uses the term "unclassified" to mean State workers who are not "classified"; in other words, the exempted employees listed in RSA 21-I:49 (Supp. 1991).

The phrase "terms of appointment" in question two presents another interpretative problem. By asking whether the bill affects "unclassified" employees' "terms of appointment," the house of representatives appears to have further narrowed the scope of its question to those "unclassified" employees who are appointed to their positions; that is, State officials or officers. See N.H. CONST. pt. II, art 5 (granting legislature power "to name and settle" . . . "all civil officers" except those named and settled pursuant to other articles of constitution); N.H. CONST. pt. II, art. 46 (granting governor and council power to appoint "[a]ll judicial officers, the attorney general, and all officers of the navy, and general and field officers of the militia"). We therefore confine our discussion to the bill's impact on the rights of State officials or officers under the contract clauses of the State and Federal Constitutions. Precisely who is a "State official or officer" is not before us and we do not attempt to answer this question here. Cf. RSA 94:1-a, I (Supp. 1991) (listing over 150 State officers and each officer's compensation, but not purporting to provide exhaustive list of State officers; justices and their salaries not named); RSA 491-A:1 (Supp. 1991) (specifying judicial salaries).

RSA 4:1 provides in part:

"No state official who is not a classified employee shall be discharged or removed except for malfesance, misfeasance, inefficiency in office, incapacity or unfitness to

perform his duties, or for the good of the department, agency or institution to which he is assigned, according to the procedures set out in this section, unless otherwise provided by law.”

See also N.H. CONST. pt. II, art. 73 (providing that commissioned officers may be removed by governor and council only for reasonable cause and upon address of both houses of legislature); cf. N.H. CONST. pt. II, art 59 (“Permanent and honorable salaries shall be established by law, for the justices of the superior court [and the supreme court].”). We interpreted this statute in *King v. Thomson*, 119 N.H. 219, 400 A.2d 1169 (1979), as granting State officials a continuing property interest in their employment. *Id.* at 221, 400 A.2d at 1171. Thus, an official appointed while RSA 4:1 remains effective is entitled to rely on the rights conferred by that statute and may not be discharged or removed except in accordance with its strictures. See *Blake v. State*, 115 N.H. 431, 434, 343 A.2d 223, 225 (1975); compare *King v. Thomson*, 119 N.H. at 221, 400 A.2d at 1171 (RSA 4:1 confers protected property right on State officials) with *Dodge v. Board of Education*, 302 U.S. 74, 78-79 (1937) (where law merely fixes salaries of officers, no contract is created and compensation named may be altered at will of legislature).

As the power to furlough State officials is the power to remove them from their positions piecemeal, we conclude that the bill violates RSA 4:1. It thus impairs vested rights and affects the terms of appointment between the State and State officials. See *King v. Thomson*, 119 N.H. at 221, 400 A.2d at 1171; cf. *Jeannot v. N.H. Personnel Comm’n*, 118 N.H. 597, 601-02, 392 A.2d 1193, 1196 (1978) (employee benefits become vested at time one becomes a permanent State employee or continues in such employment; relating to classified employees); see also *Society v. Wheeler*, 22 F. Cas. at 767; *Petition of Public Serv. Co. of N.H.*, 130 N.H. 265, 280, 539 A.2d 263, 271-72 (1988); *Clark v. Clark*, 10 N.H. 380, 386 (1839). These vested rights are equivalent to contractual obligations owed by the State. See *United States Trust Co. v. New Jersey*, 431 U.S. at 17 n.14; *Dartmouth College v. Woodward*, 17 U.S. (4 Wheat.) 518, 629 (1819) (“contracts” within protection of article I, section 10 are “those which respect property, or some object of value, and confer rights which may be asserted in a court of justice”). Consequently, we find that the bill impairs State officials’ contractual rights, just as it impairs the CBA. As explained above in our discussion of question one, this impairment is substantial and violates the contract clauses of the Federal and State Constitutions.

Questions three, four and five all ask whether the bill would establish an ex post facto law in violation of part I, article 23 of the New Hampshire Constitution and article I, section 10 of the United States Constitution. The ex post facto clauses of these Constitutions pertain only to criminal cases, not civil cases, and thus inapplicable here. See *Calder v. Bull*, 3 U.S. (3 Dall.) 386, 396 (1798); *Society v. Wheeler*, 22 F. Cas. at 767; *Opinion of the Justices*, 131 N.H. 573, 582, 558 A.2d 454, 459 (1989); *Woart v. Winnick*, 3 N.H. at 474-75.

Questions six and seven each ask whether the bill violates the equal protection provisions of the State and Federal Constitutions. Our answers to questions one and two establish that the bill, if enacted into law, would be unconstitutional. As our response to an equal protection inquiry could not alter this conclusion, we respectfully request that we be excused from answering questions six and seven.

We make no further observation. The speaker in his April 14, 1992 memorandum argues that “. . . it is important to note the distinction between action taken by the executive branch and that taken by the legislative branch [under RSA 273-A].” Al-

though for purposes of this opinion we assume that Sec. 21.1 of the CBA was approved by the legislature, on the record available to us in rendering this Opinion of the Justices, we cannot decide factual issues related to the legislature's approval of cost items in the CBA. Therefore, our opinion is limited by the above assumption.

#### GOVERNOR'S VETO MESSAGE ON HB 1026

June 3, 1992

To The Honorable Members of the General Court:

I have this day vetoed **HB 1026**, an act relative to a companion bill to the Supplemental Budget.

I have vetoed this bill because:

- 1) We should not spend money we do not have;
- 2) We should not be expanding the debt which are passing on to our children;
- 3) We should not be passing a bill which is constitutionally suspect.

In terms of philosophical issues, **HB 1026**, which is entitled "an act relative to a Companion Bill to the Supplemental Budget", is intended to deal with statutory revisions necessary to implement the Budget Act. The bill, in fact, contains a myriad of unrelated items, some of which had policy hearings and some did not and some that were previously rejected by one House or the other.

House Bill 1026 contains 66 separate sections of which 36 sections amend, modify or create statutory law; 15 sections amend or appropriate capital items; and 7 sections

amend or appropriate regular budget items. This bill has, therefore, become a second Supplemental Budget bill without proper public hearings, and as such, may not be in compliance with Article 18-a, Part II of the Constitution which states in part that: "No section or footnote of any such budget bill shall contain any provision which establishes, amends or repeals statutory law....."

The HB 1026 approach to government defeats the long-standing practice of policy committees considering individual subjects on their overall policy implications, and the opportunity for both Houses to consider the issues in a reasonably clear and uncluttered document.

In terms of substance, while there are several desirable items in this bill, none are of such magnitude that state government will be negatively impacted during the remainder of this year. All items can be dealt with in the next legislative session, if necessary—including clarifications to the debt limits since any state borrowing can wait until next spring as outlined to you by the State Treasurer.

New and expanded capital projects should not be considered at this time since hearings on the 1994095 Capital Budget are already scheduled to begin on June 11. It is essential that the entire range of capital needs be considered in total so that we can know exactly what commitments fit within overall state priorities and, equally important, the total debt service requirements that will be required in future years.

HB 1026 must be rejected on fiscal grounds if nothing else. This bill includes \$10.4 million of new bonding authority. Traditionally, the Legislature has tried to limit bonding as it represents bills passed on to our children and it seems inconsistent with this policy to add this new bonding expense. This is especially true in light of this fact that the capital budgeting process is now going forward and passage of this bill would have the practical effect of piecemealing and undermining that process.

The bill further has \$3.348 million of new operating appropriations, including betterments, and expense which will aggravate our already tight fiscal situation.

In these tough times taxpayers expect us to be cautious when spending their money. This bill does not meet that obligation. We cannot afford this level of new and expanded spending.

Judd Gregg, Governor

The Chair requested a quorum count and 326 members having answered the call, a quorum was declared present.

Reps. Warburton, Welch, Richard Hill, Francis Riley and Domaingue spoke against.

Reps. Donna Sytek, Chambers and Gross spoke in favor.

The question being, notwithstanding the Governor's veto, shall **HB 1026**, relative to a companion bill to the supplemental budget, pass.

As required by the Constitution, a roll call was taken.

requesting an opinion of the justices concerning the  
constitutionality of **HB 1504-LOCAL**.

Whereas, pursuant to Part II, Article 100 of the New Hampshire Constitution, there will be submitted to the qualified voters at the November general election in 1992 the question: "Shall there be a convention to amend or revise the constitution?"; and

Whereas, there is pending in the New Hampshire house of representatives, **HB 1504-LOCAL**, "An Act providing for the election of delegates to a constitutional convention"; and

Whereas, as a result of the adoption of annual legislative sessions pursuant to a constitutional amendment adopted in 1984, scheduling must be carefully done to

allow for the use of representatives hall by the house of representatives and the constitutional convention which also uses the hall for its proceedings; and

Whereas, advance planning of the date to be set for election of delegates to the constitutional convention and of the date set for convening the convention are necessary in order to hold the number of special elections to a minimum and in order to set the date for convening the convention sufficiently in advance of the next biennial November election (RSA 667) to permit the orderly submission of any constitutional amendments proposed by the convention to the qualified voters at such election as required in Part II, Article 100, subparagraph (c); and

Whereas, in spite of the advance planning, some municipalities may be required to hold a special election for delegates if the vote of the citizens of the state is in favor of holding a constitutional convention; and

Whereas, certain costs may be incurred as a result of holding such special elections; now, therefore, be it

Resolved by the House of Representatives:

That the Justices of the Supreme Court be respectfully requested to give their opinion on the following questions of law:

1. Would an affirmative vote by a majority of the qualified voters voting on the question of holding a constitutional convention pursuant to Part II, Article 100 of the New Hampshire Constitution which might require the holding of special elections constitute a "new, expanded or modified program or responsibility" as set forth in Part I, Article 28-a of the New Hampshire Constitution?

2. If the answer to question 1 of this resolution is in the affirmative, would an affirmative vote by the majority of the qualified voters voting on the question of holding a constitutional convention pursuant to Part II, Article 100 of the New Hampshire Constitution satisfy the requirement set forth in Part I, Article 28-a that any costs imposed as a result of such programs or responsibilities be "approved for funding by a vote of the local legislative body of the political subdivision"?

That the clerk of the house of representatives transmit copies of this resolution and HB 1504-LOCAL to the justices of the New Hampshire Supreme Court.

When you've pressed the green button and stand adjourned, and you're making your last farewells, glance up at us for one last time, our lips are still, but our eyes say to you all, Godspeed friends, may your future be bright, from your admirers high on the wall.

## APPENDIX A

Remarks by Rep. Alf E. Jacobson made on April 21, 1992 regarding the histories of legislative compensation and of annual and biennial sessions.

Rep. Alf E. Jacobson: There are two things that I would like to share with you that may be of interest to you today. One is how we got to where we are in terms of biennial and annual sessions. Secondly, how we got our pay.

There have been all kinds of discussions offered during the arguments that we had year after year over whether we should have biennial or annual sessions. I've heard some people say, including some very important people, that for 200 years we've had biennial sessions and why should we have annual sessions now. The facts are different. We had annual sessions from 1784 to 1879 then we had a series of biennial sessions without limitation, from 1879 to 1960. Beginning in 1960 we got biennial sessions that began on July 1 and were limited to 90 days. The kind of sessions that we had prior to annual sessions were far different from the original biennial sessions and were actually only in force from 1961 through 1983.

It was the Convention of 1876 that changed annual sessions to biennial sessions. It was done for two reasons. One was that the annual sessions were causing too much fury in the towns every year. Members of the House who favored biennial sessions, I should say of the Constitutional Convention, said, "What we need is a little bit of peace." That was one reason why they went to biennial sessions. The second reason was that it was beginning to cost too much. What was happening was that the members of the Legislature were staying longer and longer. They were getting paid \$3.00 per day. Not for the days they were in the Legislature, but for seven days a week. Now, don't get any ideas! They were paid for seven days a week. Prior to this they had met for a period of 116 days but they didn't meet every day. But it was 116 days which I believe carries them into sometime in April. For that reason, members said, "We cannot have that. It is too expensive." Bear in mind, if they got \$3.00 a day for 116 days, they got \$348.00 for the year. The average citizen in New Hampshire at the same time was getting about \$150.00 a year. They were paid, comparatively, a handsome wage in the period before 1876. The Convention of 1876 did establish the biennial session. It established a Senate of 24 members and they changed the election from March to November. One thing that they failed to do was to change the legislative sessions which began in June and they wanted it back to January.

I must read for you some of the interesting things that were said regarding the peace: "The people of this state, at the present time, are surfeited with elections; that they are worn out, exhausted and tired of elections."

One member said, "This way we shall have one year of peace when neighbors can look into each other's faces without knowing whether they are democrats or republicans."

Here is the one in support of moving the meeting of the Legislature from June to January: "The conditions of human life in New Hampshire have entirely altered since the month of June was selected. Now, they can both travel and lodge with health and comfort in January."

One member said: "New Hampshire every summer invites the whole world to visit and live out-doors among her lovely hills, valleys, lakes and forests, while she shuts up in a hot room her own legislature at the very same time."

This failed to gain the votes in 1876 but it was adopted in 1889. We moved from June sessions to January sessions in 1889.

The other big issue was the issue of pay. What happened in 1876 was that the legislature had been increasing every year. It had moved up to be 391 members in 1875, without any increase in population. As a matter of fact, many towns actually had diminished in population over the period, especially since the Civil War because they found much more fertile ground out in Illinois, Iowa and other places. There was no great population increase. They had a little scheme which was based upon 150 rateable polls per member. They played with that. The party in power played with it and would increase the membership so they could increase their majority. One party in 1876 was actually successful in reducing the House from 391 to 280. They changed the formula to 600 male voters. Remember, women did not have the right to vote at that time. But, even so they began to play with it and by the time the Constitutional Convention got around, the membership was back up again.

They met again to try to solve the problem of the cost of the legislature. One effort was to reduce the size of the House. One member offered to have it down to 130 members. He thought that was a nice reasonable amount because the State of New York at that time had 130 members. Someone said, "There are too many politicians in the towns in New Hampshire for that to pass." That never got anywhere. They were left with the problem of how to keep the membership from staying too long and costing too much. They came up with the solution of: "We are going to pay them a salary."

No more per diem of \$3.00 a day. Incidentally, that \$3.00 per day still lives in Special Sessions. When you come, you are still getting that \$3.00 a day. There were proposals for \$300, \$200, \$175 and \$150. First of all, they went and looked at other states. They found that in Maine, they paid \$150. In Connecticut, they paid \$300. In Massachusetts, they paid \$500. How did they come up with the solution for \$200? One member got up and said: "If they stay down there for nine weeks, that is long enough. That is 63 days at \$3.00 a day. That is \$189. We will give them a little extra money."

They settled on the \$200.00.

In 1890, the average income per person in New Hampshire was \$438.00. In other words, the legislature stayed for nine weeks — they could stay longer. One member said: "You can stay forever if you want to, but you will only get the \$200.00."

But, as I said, in 1890 \$438.00 was 45.6 percent of the annual wage. If we translate that into today's figures, the average pay in New Hampshire is \$20,789. If you were to get paid on the same basis that they argued in 1889, you would get \$9,479.78. Interestingly enough, today in Connecticut they get \$16,760. In Maine, they get \$10,500. In Massachusetts, they get \$30,000.

I want to just say two more things and they are quotations. This will help you overcome any disappointment that you may have about not getting the \$9,000. One member of the Convention said: "You will not find any difficulty in Concord or Henniker or any other town in obtaining men to represent the people in the legislature. They are willing to come here. The honor itself is sufficient without any compensation."

I thought it would be a little bit of fun for you to realize where you got the \$200.00 and how we got to where we are today. Incidentally, no one in his wildest dreams in 1889 thought we would be getting the same \$200.00 one hundred years later because they all thought that we should give them a nice sufficient salary. But, that is what we are still getting and we are apparently happy with it.
